Reference and Information Services Kay Ann Cassell,Uma Hiremath,2013 Search skills of today bear little resemblance to searches through print publications. Reference service has become much more complex than in the past, and is in a constant state of flux. Learning the skill sets of a worthy reference librarian can be challenging, unending, rewarding, and-- yes, fun.

The New Soldier in the Age of Asymmetric Conflict Dr. Rumu

Sarkar,2013-02-01 The text for the NEW SOLDIER deals with the causes, symptoms and solutions to global terrorism, particularly Jihadist Islamic-based terrorism. The book is an expanded version of the essay "A Fearful Symmetry: A New Global Balance of Power?" for which the author was awarded the 2007 Grand Prize by the St Cyr Foundation, which supports the St. Cyr military academy established by Napoleon Bonaparte – in effect, France's West Point. The work was unanimously awarded the First (Grand) Prize by a jury of four distinguished panelists, and later translated and published in French under the title, "Une Symétrie de la Peur : Vers un Nouvel Equilibre Mondial Des Puissances ? " (Paul Wormser, trans.)(CLD Éditions, November 2008). The New Soldier is, in essence, a traditional soldier but one who is endowed with compassion, empathy and cultural understanding. This soldier is better able to navigate through the unknown terrain of ideological, emotional and psychological conflicts within the realm of global terrorism. The New Soldier

is a strategic tool in combating global terrorism, and may be immediately deployed in multilateral forces. The practical uses of the New Soldier in the context of fragile states, particularly in terms of stabilizing and reconstructing war-torn or collapsed states by multilateral forces is analyzed in great depth in the book.

New Perspectives on Kristallnacht Steven J. Ross, 2019-12-15 On November 9 and 10, 1938, Nazi leadership unleashed an unprecedented orchestrated wave of violence against Jews in Germany, Austria, and the Sudetenland, supposedly in response to the assassination of a Nazi diplomat by a young Polish Jew, but in reality to force the remaining Jews out of the country. During the pogrom, Stormtroopers, Hitler Youth, and ordinary Germans murdered more than a hundred Jews (many more committed suicide) and ransacked and destroyed thousands of Jewish institutions, synagogues, shops, and homes. Thirty thousand Jews were arrested and sent to Nazi concentration camps. Volume 17 of the Casden Annual Review includes a series of articles presented at an international conference titled "New Perspectives on Kristallnacht: After 80 Years, the Nazi Pogrom in Global Comparison." Assessing events 80 years after the violent anti-Jewish pogrom of 1938, contributors to this volume offer new cutting-edge scholarship on the event and its repercussions. Contributors include scholars from the United States, Germany, Israel, and the United Kingdom who represent a wide variety of disciplines, including history, political science, and Jewish and media studies. Their essays discuss

reactions to the pogrom by victims and witnesses inside Nazi Germany as well as by foreign journalists, diplomats, Jewish organizations, and Jewish print media. Several contributors to the volume analyze postwar narratives of and global comparisons to Kristallnacht, with the aim of situating this anti-Jewish pogrom in its historical context, as well as its place in world history.

New Challenges to Constitutional Adjudication in Europe Zoltán

Szente, Fruzsina Gárdos-Orosz, 2018-03-09 In the past few years, constitutional courts have been presented with new challenges. The world financial crisis, the new wave of terrorism, mass migration and other country-specific problems have had wide-ranging effects on the old and embedded constitutional standards and judicial constructions. This book examines how, if at all, these unprecedented social, economic and political problems have affected constitutional review in Europe. As the courts' response must conform with EU law and in some cases international law, analysis extends to the related jurisprudence of the European Court of Justice and the European Court of Human Rights. The collection adopts a common analytical structure to examine how the relevant challenges have been addressed in ten country specific case studies. Alongside these, constitutional experts frame the research within the theoretical understanding of the constitutional difficulties of the day in Europe. Finally, a comparative chapter examines the effects of multilevel constitutionalism and identifies general European trends. This book will be

essential reading for academics and researchers working in the areas of constitutional law, comparative law and jurisprudence.

Servitization in Industry Gunter Lay, 2014-06-13 This book summarizes the “interim result” of the servitization activities in manufacturing industries. While the early literature on servitization tended to stress only its advantages, more recently, scholars have also started to refer to the challenges associated with servitization. This book attempts to give a balanced picture of servitization. The book is structured in four parts: Part I introduces the topic by presenting the most recent academic discussion about servitization and uses an empirical analysis to show the degree of servitization across Europe. The results of this analysis are then compared to the discussion in the literature. This comparison highlights the existing discrepancies between the rather euphoric literature and the more skeptical practical experience. The second and third parts attempt to explain these discrepancies by taking as a starting point the assumption that servitization recommendations have to consider the heterogeneity of the manufacturing sector and the capabilities of the provider. Part II presents articles which analyze the specific characteristics of different sectors with their barriers

and potentials and presents frameworks for a successful servitization of the core sectors in European manufacturing industries which include, e.g. aeronautics, automotive, ICT, chemical industries, pulp and paper industries and different engineering sectors. Part III focuses on companies' capabilities which are necessary for successful servitization. These include strategic management, marketing, organization, innovation, engineering, human resources, controlling, quality and networks. All the contributions in parts II and III add up to a detailed picture of servitization for sectors and functions and indicate the practical implications for enterprises in manufacturing industries. The fourth part concludes the book with a chapter summarizing the findings and giving an outlook of servitization in manufacturing industries, its challenges and future developments.

Endgame for ETA Teresa Whitfield, 2014 The violent Basque separatist group ETA took shape in Franco's Spain, yet claimed the majority of its victims under democracy. For most Spaniards it became an aberration, a criminal and terrorist band whose persistence defied explanation. Others, mainly Basques (but only some Basques) understood ETA as the violent expression of a political conflict that remained the unfinished business of Spain's transition to democracy. Such differences hindered efforts to 'defeat' ETA's terrorism on the one hand and 'resolve the Basque conflict' on the other for more than three decades. Endgame for ETA offers a compelling account of the long path to ETA's declaration of a definitive end to its armed activity in

October 2011. Its political surrogates remain as part of a resurgence of regional nationalism - in the Basque Country as in Catalonia - that is but one element of multiple crises confronting Spain. The Basque case has been cited as an example of the perils of 'talking to terrorists'. Drawing on extensive field research, Teresa Whitfield argues that while negotiations did not prosper, a form of 'virtual peacemaking' was an essential complement to robust police action and social condemnation. Together they helped to bring ETA's violence to an end and return its grievances to the channels of normal politics.

Thermal Energy Yatish T. Shah, 2018-01-12 The book details sources of thermal energy, methods of capture, and applications. It describes the basics of thermal energy, including measuring thermal energy, laws of thermodynamics that govern its use and transformation, modes of thermal energy, conventional processes, devices and materials, and the methods by which it is transferred. It covers 8 sources of thermal energy: combustion, fusion (solar) fission (nuclear), geothermal, microwave, plasma, waste heat, and thermal energy storage. In each case, the methods of production and capture and its uses are described in detail. It also discusses novel processes and devices used to improve transfer and transformation processes.

Private Actors as Participants in International Law Armando Rocha, 2021-08-26 This book examines the status of private actors as subjects

of law under the rules of the international law of the sea. Providing a methodology for the notion of a single legal personality, it provides a clear understanding of membership in international law in order to establish to what extent private actors can be rights-holders or duty-bearers. It does this by taking a theoretical perspective which allows the reader to interpret their relevance in international law. This unique and innovative work makes a significant contribution to the current scholarly debates on private actors in international law.

Decolonial Solidarity in Palestine-Israel Teodora Todorova, 2021-06-17
Recent years have seen the Israeli state become ever more extreme in its treatment of Palestinians, manifested both in legislation stripping Palestinians of their rights and in the escalating scale and violence of the Israeli occupation. But this hard-line stance has in turn provoked a new spirit of dissent among a growing number of Israeli scholars and civil society activists. As well as recognising Palestinian claims to justice and self determination, this new dissent is characterised by calls for genuine decolonisation and an end to partition, as opposed to the now discredited 'two state solution.' Through the analytical lens of settler colonial studies, this book examines the impact of this new 'decolonial solidarity' through case studies of three activist groups: Zochrot, Anarchists Against the Wall, and the Israeli Committee Against House Demolitions (ICAHD). In

doing so, Todorova extends the framework of settler colonial studies beyond scholarly analysis and into the realm of activist practice. She also looks at how decolonial solidarity has shaped, and been influenced by, the writings of both Palestinian and Israeli theorists. The book shows that new forms of civil society activism, bringing together Palestinian and Israeli activists, can rejuvenate the resistance to occupation and the Israeli state's growing authoritarianism.

China and North Africa Adel Abdel Ghafar, 2021-08-26 As the United States slowly disengages from the Middle East and Europe faces internal challenges, a new actor is quietly exerting greater influence across North Africa: China. Beijing's growing footprint in North Africa encompasses, but is not limited to, trade, infrastructure development, ports, shipping, financial cooperation, tourism and manufacturing. It is continuing to expand its co-operation with North African countries, not only in the economic and cultural spheres, but also those of diplomacy and defence. This engagement with North Africa relates to the key aim of President Xi Jinping's Belt and Road Initiative (BRI), which wants to connect Asia, Africa and Europe and sees potential in North Africa's strategic geographic location. This book is the first to analyse China's role in North Africa. It comprises of five leading country experts - Anouar Boukhars, Yahia Zoubir, Sarah Yerkes, Tareki Magresi and Nael Shama – who examine the various socio-economic, political and security aspects of China's relationship with Algeria, Morocco, Libya, Tunisia and Egypt. The book explores how China is displaying a development model that seeks to combine authoritarianism with economic growth, a model and that has an eager audience among regimes across the MENA region. It reveals how the China-North Africa relationship fits within the broader dynamics of increasing China-US rivalry. In doing so, contributors explain why China's growing role in North Africa is likely to have far-reaching

economic and geopolitical consequences for both countries in the region and around the world.

Peaceland Séverine Autesserre, 2014-05-19 This book suggests a new explanation for why international peace interventions often fail to reach their full potential. Based on several years of ethnographic research in conflict zones around the world, it demonstrates that everyday elements - such as the expatriates' social habits and usual approaches to understanding their areas of operation - strongly influence peacebuilding effectiveness. Individuals from all over the world and all walks of life share numerous practices, habits, and narratives when they serve as interveners in conflict zones. These common attitudes and actions enable foreign peacebuilders to function in the field, but they also result in unintended consequences that thwart international efforts. Certain expatriates follow alternative modes of thinking and acting, often with notable results, but they remain in the minority. Through an in-depth analysis of the interveners' everyday life and work, this book proposes innovative ways to better help host populations build a sustainable peace.
