*Hilda and Nadin* Nagihan Os,2019-06 Hilda and Nadin are two women whose lives have been sadly shaped by the bitter truths of their homeland, Avram. Hilda, a well-known author living in the Netherlands, starts to have spiritual enlightenment while writing her autobiography. In Schiphol airport on her way to Mallorca, Hilda encounters Nadin, an Avramian banker, and experiences great amazement. In addition to her curiosity about who Nadin is, in the following days, Hilda gradually learns that Nadin is somehow connected to the accomplishment of her enlightenment. But there are many obstacles that Hilda must overcome to reach her again - chief among them, the brutal dictatorship in Avram. Avram, an island state located in the Mediterranean Sea, is ruled by Diran Roke. Few dare to protest his despotic rule because he imposes heavy penalties for people who oppose him. Then an anonymous graffiti artist, Horus, bravely paints a large graffiti criticizing the oppressor in a well-traveled public place. Horus' works and his bloody death by police will trigger the process of change inside the country, and this change will affect Hilda and Nadin particularly. While writing my novel, I tried to look closer at how the winds of change, suddenly arising and raging through a country, inspire both fear and courage in that country's people. Those who, like Hilda, resolve to leave their country because of economic and political pressures as well as those who, like Nadin, try to stay despite the oppressive conditions, find themselves in my story because Hilda and Nadin have many common points between them, as both have with me.

The Civilization of Illiteracy Mihai Nadin,1997 Phenomena related to the transition from a literacy-dominated civilization to one of various means of expression and communication are at the center of his book. The fall of totalitarian regimes, the current structural difficulties of the European Community, the burden of state bureaucracies, the world-wide effort of re-engineering, and the global economy are part of the bigger picture of a necessary development.

**Anticipatory Systems** Robert Rosen,2013-10-22 The first detailed study of this most important class of systems which contain internal predictive models of themselves and/or of their environments and whose predictions are utilized for purposes of present control. This book develops the basic concept of a predictive model, and shows how it can be embedded into a system of feedforward control. Includes many examples and stresses analogies between wired-in anticipatory control and processes of learning and adaption, at both individual and social levels. Shows how the basic theory of such systems throws a new light both on analytic problems (understanding what is going on in an organism or a social system) and synthetic ones (developing forecasting methods for making individual or collective decisions).

*Paradise* Joanna Nadin,2012-10-09 A move to a small seaside town gives Billie a chance at a new life and new love — until the underof the past pulls her toward a shocking secret. When sixteen-year-old Billie Paradise unexpectedly inherits her grandmother's house, it couldn't come at a better time. With her stepdad abroad and her mom starting to lose it, moving from their cramped London apartment to an old house by the sea seems serendipitous. Maybe Billie, as she navigates the small-town social scene and falls for a certain intriguing older boy, can even find the father she never met. But her mom's remote childhood home, which she left in haste before Billie was born, harbors hints of suspicious long-ago deaths and family secrets. As Billie's story unfolds, flowing back and forth in time and through alternate points of view, it becomes clear that while people may die, the past lives forever.

**A World of Good** Gethin Nadin,2017 The UK's leading Employee Experience book and Amazon U.K. HR Bestseller. This is one of the best books I've read in a long time - Ruth Dance, The Employee Engagement Alliance Sleeping at work, taking long lunch breaks and turning up late are no longer necessarily the characteristics of a lazy worker. Since the middle of the last century, psychologists have been focused on the workplace and the effect it has on us. Thousands of studies have been dedicated to improving the world of work, and in recent years this trend has grown rapidly as the modern employer reacts to changing expectations. Finding ways to improve the lives of employees should be a priority for every employer. More than ever, an organisations front line affects their bottom line. 'A World of Good' brings together some surprising workplace practices from more than fifteen countries, and underpins them with interviews and psychological research. Gethin is leading a revolution to improve the Employee Experience - Gemma Godfrey, The Celebrity Apprentice (US)

Bibliography of Semiotics, 1975-1985 Viktoria Eschbach-Szabo,1986-01-01 This bibliography of semiotic studies covering the years 1975-1985 impressively reveals the world-wide intensification in the field. During this decade, national semiotic societies have been founded all over the world; a great number of international, national, and local semiotic conferences have taken place; the number of periodicals and book series devoted to semiotics has increased as has the number of books and dissertations in the field. This bibliography is the result of a dedicated effort to approach complete coverage.

**The Worst Class in the World Gets Worse** Joanna Nadin,2021-01-07 'Deliciously silly, with hilarious catchphrases... a great cheer-up book' The Guardian 'HILARIOUS! Proper laughs!' Pamela Butchart \_\_\_\_\_ A laugh-out-loud young fiction series from bestselling author Joanna Nadin, perfect for fans of Horrid Henry. According to head teacher Mrs Bottomley-Blunt, 4B is the WORST CLASS IN THE WORLD. She says school is not about footling or fiddle-faddling or FUN. It is about LEARNING and it is high time 4B tried harder to EXCEL at it. But Stanley and Manjit didn't LITERALLY mean to flood the toilets when they should have been monitoring the playground. And they definitely didn't LITERALLY mean to bring a penguin home from the zoo on their school trip. These things just happened even though they had a FOOLPROOF plan to get away with them.

Penny Dreadful is a Complete Catastrophe Joanna Nadin,2013-06-01 My name is not actually Penny Dreadful. It is Penelope Jones. The 'Dreadful' bit is my dad's JOKE. But it is not even true that I am dreadful... honest. You see, the DISASTER with Rooney, our class rat, might not have been such a DISASTER if it wasn't for Cosmo Moon Webster and his Amazing Maze. AND it is utterly not my fault that the Patented Burglar Trap accidentally tripped Gran over, so her bone went snap. ALSO, I only took Barry the cat to the hospital so he could revive Gran with The Power Of Pets. How was I to know it would be a Complete CATastrophe? Be prepared for three more hilarious tales of mishap, mayhem and misadventure... Penny Dreadful is back! The first book in the Penny Dreadful series, 'Penny Dreadful is a Magnet for Disaster', was shortlisted for the Roald Dahl Funny Prize
