The French National Front Harvey G

Simmons, 2018-03-05 Over the past few decades, extreme-right political parties have won increasing support throughout Europe. The largest and most sophisticated of these is the French National Front. Led by the charismatic Jean-Marie Le Pen, the Front is now the third most important political force in France after the mainstream right and the socialists. This clear and comprehensive book explores the antecedents for the meteoric rise of the National Front. Beginning with a political history of the extreme right from 1945 to 1995, Harvey Simmons traces links between Le Pen and French neo-fascist and extreme-right organizations of the 1950s and 1960s, and concludes with analyses of the Front's antisemitism, racism, organization, ideology, language, electorate, and views on women. Simmons argues that the Front is not a party like any other, but a major threat to French democracy.

The French White Paper on Defence and National Security Commission du Livre blanc, 2008-07-15 The French White Paper on Defence and National Security sets forth a detailed roadmap for defending the nation's territory and security interests in a globalised world. It also describes how France can contribute to a wider and more effective role for Europe on the international scene. Upon being elected President of the French Republic, Nicolas Sarkozy appointed a wide-ranging Commission to appraise France's defence and security strategy. The resulting White Paper surveys today's uncertain world and addresses key

questions in the field of international security. It embraces European developments, the transatlantic partnership, the evolution of the United Nations and the changing position of the Western world and its relations with the Asian and African powers. It tackles key changes in French defence and security policy in the coming years, and the essential role of knowledge-based security and intelligence gathering, nuclear deterrence, the protection of citizens, as well as of French and European territory, and future operations abroad. The book considers questions that lie at the heart of modern military and political strategy. Issues dealt with include Jihadist-inspired terrorism, proliferation of ballistic missiles, preparing for massive cyber attacks, the future shapes of warfare, and the tools for building peace that globalisation affords. This White Paper will interest everyone concerned about international security and the role of citizens in contributing to their own security.

No Way Out Isadore Ryan, 2017-07-14 The experiences of the Irish in France during the war were overshadowed by the threat of internment or destitution. Up to 2,000 Irish people were stuck in occupied France after the defeat by Nazi Germany in June 1940. This population consisted largely of governesses and members of religious orders, but also the likes of Samuel Beckett, as well as a few individuals who managed to find themselves in the wrong place at the wrong time and ended up in internment camps (or worse). The book examines the engagement of the Irish in

various forms of resistance. It also reveals that the attitude of some of the Irish towards the German occupiers was not always as clear-cut as politically correct discourse would like to suggest. There are fascinating revelations, most notably that Ireland's diplomatic representative in Paris sold quantities of wine to Hermann Göring; that Irish passports were given out very liberally (including to a convicted British rapist); that, in the early part of the war, some Irish ended up in internment camps in France and, through the slowness of the Irish authorities to intervene, were subsequently sent to concentration camps in Germany; and that a couple of Irish people faced criminal proceedings in France after the Liberation because of their wartime dealings with the Germans.

France's Lost Empires Kate Marsh, Nicola Frith, 2011 This collection of essays investigates the fundamental role that the loss of colonial territories at the end of the Ancient Regime and post-World War II has played in shaping French memories and colonial discourses. In identifying loss and nostalgia as key tropes in cultural representations, these essays call for a re-evaluation of French colonialism as a discourse informed not just by narratives of conquest, but equally by its histories of defeat.

Muslims and Jews in France Maud S.

Mandel,2016-08-02 This book traces the global, national, and local origins of the conflict between Muslims and Jews in France, challenging the belief that rising anti-Semitism in France is rooted solely in the unfolding crisis in Israel and Palestine. Maud Mandel shows how the conflict in fact emerged from processes internal to French society itself even as it was shaped by affairs elsewhere, particularly in North Africa during the era of decolonization. Mandel examines moments in which conflicts between Muslims and Jews became a matter of concern to French police, the media, and an array of self-appointed spokesmen from both communities: Israel's War of Independence in 1948, France's decolonization of North Africa, the 1967 Arab-Israeli War, the 1968 student riots, and François Mitterrand's experiments with multiculturalism in the 1980s. She takes an in-depth, on-the-ground look at interethnic relations in Marseille, which is home to the country's

largest Muslim and Jewish populations outside of Paris. She reveals how Muslims and Jews in France have related to each other in diverse ways throughout this history--as former residents of French North Africa, as immigrants competing for limited resources, as employers and employees, as victims of racist aggression, as religious minorities in a secularizing state, and as French citizens. In *Muslims and Jews in France*, Mandel traces the way these multiple, complex interactions have been overshadowed and obscured by a reductionist narrative of Muslim-Jewish polarization.

The Extreme Right Aurel Braun, 2018-02-12 This book, offering a historical-sociological account of right-wing extremist movements in American history, seeks to identify threats to freedom and security, assess the responses to such threats, and suggest some means of dealing with the potential dangers.

Ulster, Ireland and the Somme Catherine Switzer, 2013-03-04 *Ulster, Ireland and the Somme* tells the story of the relationship between Ulster, Ireland and the Somme area of northern France, which has now endured for nearly a century. The 1916 Battle of the Somme is a key event in Irish memory of the Great War, and thousands of people from both Northern Ireland and the Irish Republic visit the area each year, but the history of the landscape and the memorials they see has never been told in any detail until now.

Ireland's Helping Hand to Europe Jérôme aan de

Wiel, 2021-09-14 Post-war Marshall Plan aid to Europe and indeed Ireland is well documented, but practically nothing is known about simultaneous Irish aid to Europe. This book provides a full record of the aid – mainly food but also clothes, blankets, medicines, etc. – that Ireland donated to continental Europe, including France, the Netherlands, Hungary, the Balkans, Italy, and zones of occupied Germany. Starting with Ireland's neutral wartime record, often wrongly presented as pro-German when Ireland in fact unofficially favoured the western Allies, Jerome aan de Wiel explains why Éamon de Valera's government sent humanitarian aid to the devastated continent. His book analyses the logistics of collection and distribution of supplies sent abroad as far as the Greek islands. Despite some alleged Cold-War hijacking of Irish relief – and this humanitarianism was not above the politics of that East-West confrontation – it became mostly a story of hope, generosity and European Christian solidarity. Rich archival records from Ireland and the European beneficiary countries, as well as contemporary local and national newspapers across Europe, allow the author to measure and describe not only the official but also the popular response to Irish relief schemes. This work is illustrated with contemporary photographs and some key graphs and tables that show the extent of the aid programme.

DICTIONARY OF INTERNATIONAL TRADE 8th Edition , Spoiled Climate Andreas Ruby, 2004 Architectural projects which expose the hidden contradictions of our everyday reality in a lively yet challenging

way. Franois Roche (born in 1961 in Paris) and his partner Stephanie Lavaux (born in 1966 on the Reunion Island) are radical advocates of an architecture which is to be perceived as a tool for increasing critical awareness, as a discipline which provokes thought and inspires the imagination. Their buildings and projects, which include the new art museum in Bangkok and the Glacier Museum in Switzerland, both of which would have been unthinkable without the latest IT methods of design, strive towards designs which are unique and unmistakeable in both function and appearance. Franois Roche is guest professor at the London Bartlett School and the Technical University of Vienna, and has made a name for himself internationally as a pioneer of a new architecture through his lecture activities and his participation in many exhibitions. This monograph is the first complete overview of his work and will be published to coincide with the exhibition No Standard Architecture which opens in November at the Centre Pompidou in Paris, where R & Sie...architects are one of the 12 invited architectural firms.
