Ask a Manager Alison Green,2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know

what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party

Praise for *Ask a Manager* “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's *Ask a Manager* column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “*Ask a Manager* is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

Time Management for the Creative Person Lee Silber, 2010-05-26

Creative folks often know all too well that the muse doesn't always strike when you want it to, or when the deadline for your next brilliant project is creeping up on you like an ill-fitting turtleneck. Originality doesn't follow a time clock, even when you have to. While conventional time management books offer tons of instruction for using time wisely, they are traditionally organized in a linear fashion, which just isn't helpful for the right-brain mind. In *Time Management for the Creative Person*, creativity guru Lee Silber

offers real advice for using the strengths of artistic folks—like originality and resourcefulness—to adopt innovative time-saving solutions, such as: * Learning to say no when your plate is just too full * How to know when a good job, not a great one, is good enough * Making “to do” lists that include fun stuff, too—that way you won’t feel overwhelmed by work * Time-saving techniques around the house that give you more time to get your work done and more time to spend with your loved ones * The keys to clutter control that will keep your work space and your living space neat With these and lots of other practical tips, Lee Silber will help anyone, from the time-starved caterer rushing to prepare for her next party to the preoccupied painter who forgets when the electric bill is due, make the most of their time and turn the clock and the calendar into friends, not foes.

Remote Patient Management in Peritoneal Dialysis C. Ronco, C. Crepaldi, M.H. Rosner, 2019-04-08 Telemedicine and remote patient monitoring are innovative tools to provide remote transmission, interpretation, and storage of data for review by the care team. These tools allow for accurate home monitoring of patients enabling the team to improve care through prevention and early identification of problems. This book is structured into four main parts. The first describes the evolution of peritoneal dialysis and related technology. The second part summarizes current unmet clinical needs reported by patients and care teams, the need for innovation in the field, and the technical and clinical issues involved with the modern management of peritoneal dialysis. The third section presents the operational characteristics of the new information communication technology system and, in detail, the features of the Sharesource platform. Finally, a series of field experiences by expert users are reported to describe

the benefits and the potential applications of remote patient monitoring in the future. Telemedicine and remote patient monitoring have proven to be useful in the care of patients on peritoneal dialysis. The scope of this publication, therefore, is to present the experiences of clinical key opinion leaders who have been using the application.
