**Privacy and Fame** Yuval Karniel, Amit Lavie-Dinur, 2015-12-09 *Privacy and Fame: How We Expose Ourselves across Media Platforms* examines the changing nature of privacy and exposure with regard to online perceptions, expectations, and behavior. Yuval Karniel and Amit Lavie-Dinur incorporate case studies to illustrate the various ways that individuals negotiate the boundaries between their private and public selves across different media platforms.

**Democratic Republic of São Tomé** International Monetary Fund. African Dept., 2022-09-20 The COVID-19 pandemic exacerbated long-standing socio-economic vulnerabilities, which were further compounded by persistent energy shortages, flood-related damages at end-2021, and a sharp increase in global fuel and food prices caused by the war in Ukraine. These have put pressure on domestic inflation, aggravated electricity shortages, and disrupted business activities, with negative implications for growth in 2022. Protracted negotiations with labor unions resulted in additional wage supplements for the lowest paid category of civil servants in June 2022. Parliamentary elections are scheduled to be held in September 2022.

*Israeli Discourse and the West Bank* Elie Friedman, Dalia Gavriely-Nuri, 2017-10-19 How can irregular political situations, which impact the lives of millions, become normalized? Specifically, within the context of the Israeli-Palestinian conflict, how can 50 years of Israeli control over the Occupied Territories become accepted within Israeli society as a normal, possibly even banal phenomenon? Conversely, how can such a situation be estranged from daily reality, denied any relation to who we are? This volume explores these questions through the lens of two central discourses that dominate the Israeli debate regarding the future of the Occupied Territories: 1) Occupation Normalization Discourse, which portrays Israeli control of the territories as a normal part of life; 2) Occupation Estrangement Discourse, which portrays this situation as distant from Israeli reality. In addressing these discourses, the authors develop a new methodological tool, Dialectic Discourse Analysis, which examines discourse as a process of perpetual positing and synthesis of oppositions through the discursive construction, differentiation and mediation of self and other. Through this approach, the authors illustrate that these discourses are dialectically constituted in opposition to one another, feeding off one another, each enabling the other to exist. This dynamic has resulted in a fixed discourse, preventing any progress towards a synthesis of oppositions.

**A High Price** Daniel Byman, 2011-06-15 The product of painstaking research and countless interviews, *A High Price* offers a nuanced, definitive historical account of Israel's bold but often failed efforts to fight terrorist groups. Beginning with the violent border disputes that emerged after Israel's founding in 1948, Daniel Byman charts the rise of Yasir Arafat's Fatah and leftist groups such as the Popular Front for the Liberation of Palestine--organizations that ushered in the era of international terrorism epitomized by the 1972 hostage-taking at the Munich Olympics. Byman reveals how Israel fought these groups and others, such as Hamas, in the decades that follow, with

particular attention to the grinding and painful struggle during the second intifada. Israel's debacles in Lebanon against groups like the Lebanese Hizballah are examined in-depth, as is the country's problematic response to Jewish terrorist groups that have struck at Arabs and Israelis seeking peace. In surveying Israel's response to terror, the author points to the coups of shadowy Israeli intelligence services, the much-emulated use of defensive measures such as sky marshals on airplanes, and the role of controversial techniques such as targeted killings and the security barrier that separates Israel from Palestinian areas. Equally instructive are the shortcomings that have undermined Israel's counterterrorism goals, including a disregard for long-term planning and a failure to recognize the long-term political repercussions of counterterrorism tactics.

Gendered Tal Dekel,2014-08-11 Feminist art and theoretical aspects of feminism are linked via a unique and reciprocal bond whose influence extends far beyond their own bounds into the social, cultural, political and economic realms, as well as into the personal lives of women and men alike. This linkage was forged in different places around the world in the 1960s and 1970s. It was especially influential in the United States, during a decade which witnessed the emergence and growth of the Women's Liberation, Civil Rights, LGBT, and hippie movements and the protest against the Vietnam War. In response to these events, large numbers of women artists joined the ranks of contemporary political-feminist activists, their art directly reflecting the concerns of feminist theory and practice. This volume adopts an interdisciplinary approach through which it compares American feminist art and artists with their European counterparts. In order to elucidate the geographical divide, this book takes as a test case the work of Mary Kelly who, while born in the USA, produced much of her work while living in Britain and under the influence of European thought. Challenging traditional disciplinary boundaries, it moves beyond an art-history survey to discuss the artistic field in relation to feminist theory and politics, revealing the continuing relevance of both areas for the contemporary reader. While concentrating upon the second wave of feminism in Europe and the USA, it also addresses aspects of the third wave and the current state of the feminist movement, particularly in respect to the Israeli art scene.

Egypt's Food Subsidy and Rationing System Harold Alderman,Joachim Von Braun,Sakr Ahmed Sakr,1982 Research report on food policy and the food subsidy and rationing system in Egypt - considers the origins of the system, food security structure, commodity marketing channels and principal commodities subsidised; examines food policy decision making and regional level economic administration, as well as distributional and nutritional implications in urban areas and rural areas; discusses current food policy trends. Bibliography, diagrams, statistical tables.

*Remaking Europe* Jozef M. van Brabant,1999 A watershed in efforts to integrate Europe, the plans to widen the EU will inevitably conflict with forces for deepening integration. Focusing on economic factors, this volume explores the key questions of widening, including why the negotiations are likely to be contentious for all concerned.

**The Palestinian-Arab Citizens of Israel: Towards the Internationalisation of National Aspirations** Ilham Shahbari,2021-01-28 The relations between the Israeli state and its Arab citizens have been distorted by the perception that national security concerns require the full rights of citizenship to be restricted for members of the Arab community. However, the national security of the state can also be affected by a poor reputation in the international community, which plays a vital role in sustaining the existence of the state. This created a space for Arab intelligentsia to use internationalisation as a means to promote their cause. This study is designed to explore and analyse the internationalisation process and its impact regarding the Arab community in Israel. It is a beneficial source to academics, experts, policymakers, journalists and other experts and interested members of the public.

New Media, Politics and Society in Israel Gideon Doron,Azi Lev-On,2014-06-11 This book addresses the social and political landscape of Internet usage in Israel, and studies the formation of a networked information society in the hi-tech nation. As Israel is considered a highly technologically developed country, it could serve as a model to assess and compare the performance and prospects

of the Internet in other countries as well. Chapters address a range of issues, including the diffusion of the Internet to Israel, religion and the Internet in the Israeli Jewish context, Internet-based planned encounters between Israeli-Jews and Palestinians and between Jews and Arabs in Israel, online journalism and user-generated content, Israeli public relations online, Internet usage by Israeli parliamentarians, parties and candidates, as well as audiences, and the facilitation of personalized politics through personal sites of politicians. This book was originally published as a special issue of *Israel Affairs*.
