Schuss E. J. Noyes,2022-11-01 Stacey Evans wants only one thing: to be the best alpine ski racer she can be. Everything else—like her sweet and ultra-supportive best friend, and hot-but-vapid girlfriend—is just a bonus. Fresh from a medal at her first Olympics, Stacey knows she can only get better and is firmly focused on the future, and totally not thinking about how she's kind of a little in love with that sweet, ultra-supportive best friend... Gemma Archer has had a crush on Stacey from the moment she first saw her, but being her best friend is so amazing that she's almost managed to push that crush aside. Almost. But even if Gemma finds the courage to tell Stacey how she really feels, there's a mountain of obstacles to overcome—like the fact that Gemma's stepmom is Stacey's coach (awkward) and Gemma will be going away to college in a few months. And most importantly...what if admitting how she feels ruins the best friendship she's ever had? Schuss brings back two beloved supporting characters from E. J. Noyes' bestselling, award-winning novel Gold.

Exhibiting the Archive Peter Lester,2022-06-24 Exhibiting the Archive examines the role that exhibition plays in archives and analyses the impact they are understood to have on how users and visitors experience the archive. Drawing on research conducted in Europe, North America and Australia, the book analyses the key theoretical and social influences on exhibition-making in archives today and discusses the role of exhibitions in the archives of tomorrow. This is the first in-depth study to consider exhibition as more than outreach or advocacy: it frames exhibition as an encounter with archives and with people, and interprets it as a mechanism for change within the archive. Against a backdrop of increasing digital activity, Lester asks what experience within the physical space of the archive could be. Drawing on ideas of spatiality and embodiment, as well as social justice and activism, Lester considers the role of exhibitions within the physical archive and the part they can play in reshaping how experience is understood to happen within it. Exhibiting the Archive offers a new perspective on the archive that will be of interest to academics and students engaged in the study of archives and records. The discussions of cutting-edge practice offer new insights into how exhibitions are conceived and made, and will therefore be of interest to practitioners around the world.
