Learn about the Bracero Program that kept many of Napa's wineries, including Krug, Beaulieu and Stag's Leap, thriving during World War II. Join author Alexandria Brown as she explores these lesser-known stories of the ordinary people who helped shape modern-day wine country.

Napa James Conaway, 2002 James Conaway's remarkable bestseller delves into the heart of California's lush and verdant Napa Valley, also known as America's Eden. Long the source of succulent grapes and singular wines, this region is also the setting for the remarkable true saga of the personalities behind the winemaking empires. This is the story of Gallos and Mondavis, of fortunes made and lost, of dynasties and destinies. In this delightful, full-bodied social history, James Conaway charts the rise of a new aristocracy and, in so doing, chronicles the collective ripening of the American dream. Angwin and Howell Mountain Katharine Van Arsdale, 2021-03 Just a few miles east of St. Helena, Howell Mountain overlooks the Napa Valley. The mountain's mild Mediterranean climate and extensive forests have drawn people for thousands of years. From the Wappo people to Spanish explorers and Mexican Californios, the region has a rich history. In the 1880s, the mountain was a popular place to establish health resorts like the Rural Health Retreat, which later became St. Helena Hospital. Cornish immigrant Edwin Angwin also opened a resort that hosted visitors such as author Ambrose Bierce. When Angwin retired in 1909, he sold his land to the Seventh-day Adventist Church. That year, Pacific Union College opened on the old resort grounds; the college has been the hub of the tiny town of Angwin ever since. Today, Howell Mountain is one of the most prized wine appellations in the world, and Angwin remains a quiet, rural village in the midst of wine country. It is surrounded by conservation easements and Land Trust of Napa County preserves, making it a unique community in this setting.

Napa Valley Historical Ecology Atlas Robin Grossinger, 2012-03-12 How has California's landscape changed? What did now-familiar places look like during prior centuries? What can the past teach us about designing future landscapes? The Napa Valley Historical Ecology Atlas explores these questions by taking readers on a dazzling visual tour of Napa Valley from the early 1800s onward—a forgotten land of brilliant wildflower fields, lush wetlands, and grand oak savannas. Robin Grossinger weaves together rarely-seen historical maps, travelers's accounts,

photographs, and paintings to reconstruct early Napa Valley and document its physical transformation over the past two centuries. The Atlas provides a fascinating new perspective on this iconic landscape, showing the natural heritage that has enabled the agricultural success of the region today. The innovative research of Grossinger and his historical ecology team allows us to visualize the past in unprecedented detail, improving our understanding of the living landscapes we inhabit and suggesting strategies to increase their health and resilience in the future.

Napa Murder of Anita Fagiani Andrews Raymond a Guadagni,2021-01-18 In 1974, the brutal murder of Anita Fagiani Andrews, a fifty-one-year-old former beauty queen and mother of two, shook the small working-class town of Napa. Detectives, criminalists and forensic experts raced to identify who'd struck Anita down in her own bar, but despite their efforts, the case went cold. Decades passed, during which the town grew into a world-renowned wine region and tourist destination, but the case remained an open question. After thirty-seven years, thanks to DNA evidence, the killer--imprisoned for a different murder--was finally found and brought to justice. Join author and retired judge Raymond A. Guadagni as he tells the story of the shocking murder, the investigation and the subsequent trial over which he presided in 2011.

Napa Valley Lawmen and Outlaws Todd L. Shulman,2020 Law enforcement in Napa County traces its roots back to the days of Spanish rule and was formalized when California became a state in 1850. Napa at Last Light James Conaway,2019-04-16 The New York Times bestselling author of Napa tells the captivating story of how the Napa Valley region transformed into an extraordinary engine of commerce, glamour, and an outsized version of the

American dream—and how it could be lost—in “a strong plea for responsible stewardship of the land” (Kirkus Reviews). Not so long ago, wine was an exclusively European product. Now it is thoroughly American; emblematic of Napa Valley, an area idealized as the epicenter of great wines and foods and a cultural tourist destination. But James Conaway’s candid book tells the other side of the romanticized story. *Napa at Last Light* reveals the often shadowy side of the latter days of Napa Valley—marked by complex personal relationships, immense profits, passionate beliefs, and sometimes desperate struggles to prevail. In the balance hang fortunes and personal relationships made through hard work and manipulation of laws, people, and institutions. Napers who grew up trusting in the beneficence of the “vintner” class now confront the multinational corporations who have stealthily subsumed the old family landmarks and abandoned the once glorious conviction that agriculture is the best use of the land. Hailed as the definitive Napa writer, Conaway has spent decades covering the region. *Napa at Last Light* showcases the greed, enviable profits, legacy, and tradition that still collide in this compelling story. The area is still full of dreamers, but of opposing sorts: those longing for a harmonious society based upon the vine, and self-styled overlords yearning for wealth and the special acclaim only fine wine can bring. Bets are still out on what the future holds. “This is a stunning and sad look at how an idyllic community became a victim of its own success...fascinating and well-researched” (Publishers Weekly, starred review).

Chinese in Napa Valley John McCormick, 2023-01-02

Unearth the origins of Napa Valley's prosperity. Chinese laborers were once the backbone of Napa Valley. Throughout the late 1800s, they toiled in the grape fields, mines, hop farms, leather tanneries and laundries, and carved out neighborhoods in towns throughout the Valley. These contributions did little to deter discrimination and Anti-Chinese Leagues sprang up to harass and intimidate immigrants like Chan Wah Jack, who ran the successful Sang Lung store in Napa's Chinatown. In 1882, the Chinese Exclusion Act hastened the decline of local Chinatowns and these once vibrant communities disappeared while the industries they helped to foster flourished. Join author John McCormick as he uncovers the forgotten contributions of the Chinese people in California's most famous wine region.

Rise of Napa Valley Wineries, The Mark Gudgel, 2023-05-08 In 1976, the picturesque, agrarian Napa Valley was all but unknown to those who didn't live there. That changed dramatically when Steven Spurrier and Patricia Gallagher decided to host a tasting of American and French wines in Paris. When wines from Cali

History of Napa and Lake Counties Lyman L. Palmer,

The Napa Valley Wine Industry Ian Malcolm

Taplin, 2021-06-15 This book examines how Napa became a pre-

eminent site for the production of great and sometimes iconic wines in a short space of time. Unlike its Old World counterparts whose development took place over centuries, Napa's inception didn't start until the beginning of the 19th century, and even then struggled to identify appropriate grape varieties and find a market for such wine, only to be frustrated when Prohibition occurred in the early 20th century and practically shut down the industry. It was in the 1960s that winegrowing would re-emerge on a scale and quality that began to be noticed by informed critics and neophyte consumers. In the following decades, critical information sharing networks of owners and winemakers emerged, facilitating a collective organization learning that fostered a commitment to quality and consistency that would cement Napa's reputation. During these decades, technical skills were embraced, institutional support harnessed, and demand for premium wine in America grew. This book is a story about this evolving wine market, about how key individuals were able to shape its organization and build a brand that would increasingly be identified as amongst the best in the world. It starts with an early discussion of what constitutes quality and how wine has been evaluated over the centuries, and ends by exploring Napa's apotheosis and the current critical issues facing the industry in that area.

Mobile Technology and the Transformation of Public Alert and Warning Hamilton Bean, 2019-10-01 This timely book provides the inside story of the development of mobile public alert and warning technology in the United States and addresses similar systems being used in Australia, Canada, Japan, and the Netherlands. This book provides a comprehensive account of how mobile-smartphone systems are transforming the practice of public alert and warning in the United States. Recent events have vaulted mobile alert and warning technology to the forefront of public debates concerning the hazards of the digital age. False alarms of ballistic missile attacks on Hawaii and Japan, the non-

use of mobile alerts during the Northern California wildfires, and the role this technology plays in supporting police manhunts and counterterrorism efforts have prompted reconsideration of how these systems are used. Drawing upon interviews with officials, executives, experts, and citizens, the book provides an in-depth analysis of the events and contexts influencing the trajectory of mobile public alert and warning and charts a course for its improvement. The book first introduces readers to the high stakes involved in the transformation of public alert and warning, explaining how new research is revealing the benefits, limitations, and risks of mobile technology in the disaster communication context. Three case studies then illustrate issues of risk, trust, and appropriateness in mobile public alert and warning.

Flood Risk Management Edmund C. Penning-Rowse, Matilda Becker, 2019-01-22 Our changing climate and more extreme weather events have dramatically increased the number and severity of floods across the world. Demonstrating the diversity of global flood risk management (FRM), this volume covers a range of topics including planning and policy, risk governance and communication, forecasting and warning, and economics. Through short case studies, the range of international examples from North America, Europe, Asia and Africa provide analysis of FRM efforts, processes and issues from human, governance and policy implementation perspectives. Written by an international set of authors, this collection of chapters and case studies will allow the reader to see how floods and flood risk management is experienced in different regions of the world. The way in which institutions manage flood risk is discussed, introducing the notions of realities and social constructions when it comes to risk management. The book will be of great interest to students and professionals of flood, coastal, river and natural hazard management, as well as risk analysis and insurance, demonstrating multiple academic frameworks of analysis and their utility and drawbacks when applied to real-life FRM

contexts.
