**How to Read Your Astrological Chart** Donna Cunningham, 1999-10-01 Donna Cunningham lays out a workable system for reading charts in this latest of her twelve published volumes. It isn't a

cookbook, but more of a driver's manual, as she offers her unique spin on the favorite question asked of conference speakers: - How do you interpret a chart? - The book offers fresh and often pungent insights into planetary types, missing or weak features, and other facets of the horoscope that shape our character and actions. Index. Bibliography. Charts.

*The Reading of the Natal Chart* *Ciro Discepolo*, 2012-06-13 The interpretation of the natal charts (that is to say, of the drawing representing the celestial positions of our solar system at the moment of one's birth) is probably the milestone of all Astrological Knowledge. It is the point of confluence of the science in which - in a mass of fascinating synergies - disciplines such as astronomy, astrology, mythology, psychology, and a hundred other forms of Knowledge converge that together form what should be understood for Holistic Knowledge. The master of astrology, enriched by multi-decennial experiences, has the gift of synthesis, the ability of photographing in a moment all the Microcosm-Macrocosm that encloses past, present and future of every human being through the glyphs of planets, the Houses, and the angular aspects among the elements of the chart. This volume represents the University of Astrology. It is not coincidental that its Author, who is one of the most accomplished astrologer of the world, sought to engage in the writing of this short treatise, about the same time of the turning point of his own professional jubilee (defined by the number of works that he has published so far). With the simplicity that distinguishes him, on this occasion too, *Ciro Discepolo* has been able to present to both neophytes and the more experienced readers the most difficult concepts in a direct, simple, immediately usable way, revealing previously unpublished details, new knowledge that he has meditated for long before writing about it, and even small secrets of what must necessarily be called the Interpretative Art of Astrology. As is his custom, the Author offers over fifty examples to support the explained theories. They consist mainly in the natal charts of celebrities,

completely revised compared to past editions, or interpreted now for the first time for the delight of his students.

**Astrology Chart Notebook** KarmicAstrology,2018-06-14 This 8x10 inch book is a great way to have a quick reference for your Astrology charts. The left side has an empty chart wheel and aspectarian, the right side is lined for notes. Use it for your own natal chart and as well as your progressions and composites with others. Use it as a journal. You can put in the transits for the date and time you are writing. Even if what you write has nothing to do with Astrology, it might be helpful to go back and look at the transits and compare them with what was going in your life and what you felt drawn to write about. You can use it as a study guide. Maybe you found the chart of someone famous and want to make notes about it. It can be a great complement to an Astrology class you are taking, or notes from a book or website you are reading. You can use the chart wheel for any kind of chart and fill it in as much or as little as you want. Having the charts and notes bound together, rather than a bunch of loose pages that can be lost is so helpful. The index makes it easy to find your notes again. So many possibilities.

Astrology Kevin Burk,2001 In Astrology: Understanding the Birth Chart, Kevin Burk takes you step-by-step from the core basics to the finer complexities of chart interpretation while avoiding sidetracks into obscure techniques and fuzzy thinking. As a teacher, Burk also understands that a real grasp of the subject entails more than just learning the techniques-it also involves grasping the underlying principles that make those techniques valid. Astrology: Understanding the Birth Chart is designed to be useful to all students of astrology, from beginners to more advanced practitioners, and will help you develop an integrated, synthesized approach to understanding the birth chart. You will discover how classical astrology can enrich your understanding of the planets, signs, and houses. You will

explore the meaning of the Lunar Nodes, eclipses, the angles, retrograde planets, and aspect patterns. You will also learn how to identify key themes in the chart, and how to relate the different aspects and elements together to gain a holistic understanding of the birth chart-and of the individual. An up-to-date listing of astrological organizations and software programs is included that offers a wealth of resources for any astrologer. In short, this is a well-designed course that provides a solid foundation for anyone who is interested in practicing astrology quickly and with confidence. While many books at this level simply give you a set of techniques and ready-made interpretations, this book will give you a deeper grasp of an art and science that has its expression in the world around us, but its roots in the invisible world of primal origins.

*Astrology: Its Worldview & Implications* Joseph Howard Tyson, 2021-05-09 J. H. Tyson writes that astrology is neither a science nor pseudoscience. It falls into the category of crafts which somehow work, though science can't fathom why. In that respect it resembles acupuncture and Feng Shui (the Chinese art of proper arrangement.) Astrology holds that cosmic forces influence us, just as the moon affects the ebb and flow of tides. Since 6,000 B.C. learned astrologers have collaborated on a body of data which links planetary positions at birth with certain human traits. A birth chart summarizes the native's personality characteristics and provides an indication as to how that person might fare in various departments of life. Astrologers help clarify clients' aptitudes with the intention of facilitating their development. Natal charts may be conceived of as blueprints which encourage people to cultivate their strengths, overcome faults, and circumvent avoidable problems. Tyson's book outlines the history and principles of astrology, then provides examples of its value by juxtaposing biographical sketches of Napoleon, Theodore Roosevelt, Empress Alexandra of Russia, John F. Kennedy, Martin Luther King Jr., and others with their natal charts. Tyson argues for Earth's inclusion into astrological theory. This globe under our very feet exerts great influence. He demonstrates how the slower-moving planets (Jupiter-through-Pluto) provide more accurate generational profiles than

the “boomer,” gen-x-er, millennial classifications bandied about by pundits. In his chapter on Esoteric Astrology Tyson explains the Sixteen Astrological Ages of Humankind. Check out J. H. Tyson’s latest book for new insights into the prehistoric art of astrology.

**Understanding the Natal Chart** Suzanne Rough, 2014-07-31 The aim of this book is to introduce students of astrology to an approach that will make horoscopy’s conventional techniques useful to those who come to astrology looking for spiritual guidance. This is not about learning a new astrological language, but rather how to give a different application to the familiar techniques of Western horoscopy. Understanding the natal chart is recommended to complete beginners, those wishing to structure patchy knowledge, and those already competent in horoscopy who are in search of a more esoteric approach to see the way forward.

Birth Chart Interpretation Plain & Simple Andrea Taylor, 2022-02-08 A Quick and Easy Guide to Reading Your Birth Chart Concise, beginner-friendly, and with nothing left undone, this practical book teaches you how to interpret a natal chart with ease. **The New Guide to Astrology** Ciro Discepolo, 2011-05-01 This book is a bestseller in Italy, having sold over 50,000 copies from 1979 to the present. What is the secret of such a success? And, first of all, is it a success? I think it is. The secret, if there is one, is probably my lucky disposition, among my few qualities, to share my knowledge in Astrology in a very clear way. I think that this almost complete manual has gained the appreciation of my readers, perhaps because through a simple, elementary, and clear language, I have tried to lead many neophytes from absolute ignorance of the subject to a good average level of knowledge. While I was working on this book there was always a

strong will to explain the many chapters of this manual as if I was addressing school children. In the thirty-two years of its life, this book has shaped many generations of astrologers, and a lot of people have continuously gratified me for this work, insisting on what has been considered by almost everyone to be the greatest quality of this book: its accessibility. Why do I wish to present this volume to my international readers and, in particular, to my American readers after thirty-two years? If you allow me, I'd like to conduct a little test on you. I'd like to ask you a few things. - Do you know that your astrological sign can be your Solar sign or your compensated Solar sign (since many people act like those who have opposite characteristics to their Solar sign)? - Do you know that a high percentage of Aquarians becomes deaf or almost deaf in old age? - Do you know that the 11th House is more mournful than the 8th House? - Do you know that the 11th House is like the 7th House but a level weaker? - Do you know that the hard-disks of computers can be correlated to the 4th House? - Do you know that blindness or serious eye problems are attributable to the 6th and the 12th Houses? - Do you know that the second part of life is linked to the 4th House? - Do you know that a Celestial works contemporarily in two Houses when it is within 2,5 degrees from the cusp of a House? - Do you know... - Do you know... - Do you know... Actually, these, and many other truths that I discovered studying the subject for over forty years, examining the Natal Chart of tens of thousand people, are explained in this book and I would like to share them with you. I don't ask you, dear Reader, to believe in these sentences based on faith alone: I ask you to check every astrological law contained in the pages of this volume and if you find Truth, fine, otherwise I advise you to throw away my New Guide To Astrology. Many parts of the book differ from the Italian edition. Moreover I have added some tables and, in particular, complete Tables of Houses from 0 to 65 North Latitude, every 15 minutes of Sideral Time. The chapters of the Italian edition that were written to calculate Italian Natal Charts,

have been here re-focused to particularly calculate the Natal Charts of people who were born in the USA. In my opinion this book will be of interest to international students because I have added one hundred example Natal Charts of famous or not-so-famous people which will demonstrate the reliability of the many rules described in these pages. The volume comprises many other chapters such as The Dispositors, The Dominant, A Short Chapter on Astronomy, A Short Chapter on the History of Astrology, The Interpretation of the Natal Chart, A Short Chapter on Synastry, A Short Chapter on the Analysis of Events, Colours, Metals, Plants and Stones, A Short Dictionary of Astrological Terms, etc.

**Astrology 101** Gyan Surya, 2003 This offering is designed for people with little or no knowledge of astrology, who would like to be able to understand and interpret their own birth charts, and perhaps those of their loved ones. It is a simple but complete guide to basic chart interpretation, including Sun, Moon, planets, Chiron and the four major asteroids. The approach is holistic, with an emphasis on harmonics. The technical aspects of chart creation and analysis are avoided. If you decide to study the subject in depth, you will most likely want to learn chart calculation and other tools of astrological application which are not covered here. This is a beginning place, and if studied and applied will provide a good grasp of your chart and a foundation for deeper study. *Astrology of Health* Noel Eastwood, 2016-04-01 Based on his successful Health Astrology course, Noel Eastwood's *Astrology of Health* is a highly insightful, practical and accessible work. Discover how elemental dominance manifests in our psyche and our body; how Planets, Signs, and Houses correspond to potential problem areas and how our mental and physical health can be affected by transits, directions and progressions. Examines chart after chart highlighting the physical and

psychological health conflicts between Planets, Signs, and Houses. Learn how to see health problems in a chart before it manifests. No traditionally trained Tibetan healer would prepare a herbal prescription for a patient without first drawing up their astrological charts. It was the same back in the Middle Ages in European culture: astrology and medicine were one. The five year Degree in Traditional Tibetan Medicine or the Degree of Traditional Tibetan Astrology, was required before a healer was permitted to practice. Thirty percent of the staff at the Tibetan Medical & Astrological Institute of His Holiness the Dalai Lama of Dharamsala were involved solely in the preparation of astrological charts. A patient's natal chart is still used for initial diagnosis and in determining the best medical remedies and treatment. A work of love and one that he now passes on to those astrologers and healers who wish to know a little more of the link between astrology and health. As a retired psychologist he has tried to tone down his bias towards psychological health in the charts, but as a healer, he recognises just how important the link between mind and body truly is. The lively conversational format will both entertain and enlighten you. Reviews Noel Eastwood is an amazing astrologer and gifted writer! I have never found so much good information about the astrology of health in any other book. AC Beautifully written book that looks at individuals likely health issues through their predominance of the elements in their charts. It looks at whether one has a Fire, Earth, Air or Water Dominance in their Natal Chart. Depending upon the leading element the individual has, they will have certain strengths and weaknesses health wise. Written in an interactive conversational way between student and teacher it is entertaining and teaches the reader gradually over a number of lessons. Along the way It makes use of a number of case study charts to illustrate the lessons of elemental predominance with regards to Health. I know the elements are one of the cornerstones of Astrology. In understanding more about how their emphasis relates to one's health I found the book

highly usefull. DK Quite informative and i really liked the teacher/student format. I would have liked more charts on mental illness though. Detail oriented. AJ I have just completed reading Astrology of Health. I literally could not put it down. I learned so much!! By envisioning myself as silent observer at the table with Eastwood's student, I participated in each lesson. I am not an astrologer. Yet, I felt I examined each chart. I could clearly see the relationship between each astrological influence and how those influences manifested in each person's life. I had never thought about medical astrology at that depth nor had I clearly understood how generational charts reflected genetic, familiar medical and psychological themes and spiritual lessons. I was educated, informed, excited, and amazed! CC

*Chart Shapes* Wanda Sellar, 2021-01-29 Do you know the Bowl from the Basket shape in a natal chart? Did you realise just how much information you can gain from examining the actual pattern of the planets in the chart? No matter how knowledgeable we are about astrology, natal chart analysis can still present a challenge - however, understanding chart shapes could make all the difference. In this fascinating study, Wanda Sellar pinpoints an effective route into the astrological labyrinth using a concept which was pioneered by Marc Edmund Jones and then followed by Robert Jansky in the last century. Each chart shape has its own central theme: a Locomotive shape has its starting point with the leading planet which may be in any house or sign, a See-Saw shape begins with the core opposition, a Wedge with the confining trine. Not all charts fit neatly into one of the idealised patterns, and those that take a little coaxing are still a revelation in interpretation. Sometimes it is the planet that stands outside the idealised shape that reveals the core of the personality. This treasure trove includes a multitude of worked case histories, including Arnold Schwarzenegger, Mata Hari, George Blake, Bobby Fischer, Harrison Ford and Agatha Christie. This fascinating and accessible book is suitable for all levels.

**Natal Charts Introduction**

In today's digital age, the availability of Natal Charts books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Natal Charts books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Natal Charts books and manuals for

download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Natal Charts versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Natal Charts books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject

imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms,

making them highly practical for studying or referencing. When it comes to accessing Natal Charts books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Natal Charts books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-

profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include

MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Natal Charts books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to

an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Natal Charts books and manuals for download and embark on your journey of knowledge?

### **FAQs About Natal Charts Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading

preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone.
