**K-pop – The International Rise of the Korean Music Industry**  
JungBong Choi, Roald Maliangkay, 2014-09-15 K-pop, described by Time Magazine in 2012 as South Korea's greatest export, has rapidly achieved a large worldwide audience of devoted fans largely through distribution over the Internet. This book examines the phenomenon, and discusses the reasons for its success. It considers the national and transnational conditions that have played a role in K-pop's ascendancy, and explores how they relate to post-colonial modernisation, post-Cold War politics in East Asia, connections with the Korean diaspora, and the state-initiated campaign to accumulate soft power. As it is particularly concerned with fandom and cultural agency, it analyses fan practices, discourses, and underlying psychologies within their local habitus as well as in expanding topographies of online networks. Overall, the book addresses the question of how far Asian culture can be global in a truly meaningful way, and how popular culture from a marginal nation has become a global phenomenon.

*Beyond Feminist Aesthetics* Rita Felski, 1989 Felski presents a critical account of current American and European feminist literary theory, and analyzes contemporary fiction by women to show that no theorist can identify a specifically female or feminine kind of writing without reference to what gender means at a given historical moment. She argues that the idea of a feminist aesthetic is a non-issue needlessly pursued by feminists. She calls for a consideration of the social and cultural context in which these texts were produced and received, and demonstrates her method of an interdisciplinary approach to the analysis of literature which can integrate literary and social theory. Study Reading encourages learners to reflect on their current reading strategies. By doing a variety of task-based, problem-solving activities, learners are encouraged to refine their reading strategies through exposure to the ideas of others. Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—“In the future, everyone will be world-famous for 15 minutes.” Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody

who does something well.I went to [a psychiatrist] once, and he never called me back.They always say that time changes things, but you actually have to change them yourself.I've never met a person I couldn't call a beauty.New things are always better than old things.I'm still a commercial artist. I was always a commercial artist.
