The Silent Shore Charles L. Chavis Jr., 2022-01-11 The definitive account of the lynching of twenty-three-year-old Matthew Williams in Maryland, the subsequent investigation, and the legacy of modern-day lynchings. On December 4, 1931, a mob of white men in Salisbury, Maryland, lynched and set ablaze a twenty-three-year-old Black man named Matthew Williams. His gruesome murder was part of a wave of silent white terrorism in the wake of the stock market crash of 1929, which exposed Black laborers to white rage in response to economic anxieties. For nearly a century, the lynching of Matthew Williams has lived in the shadows of the more well-known incidents of racial terror in the deep South, haunting both the Eastern Shore and the state of Maryland as a whole. In *The Silent Shore*, author Charles L. Chavis Jr. draws on his discovery of previously unreleased investigative documents to meticulously reconstruct the full story of one of the last lynchings in Maryland. Bringing the painful truth of anti-Black violence to light, Chavis breaks the silence that surrounded Williams's death. Though Maryland lacked the notoriety for racial violence of Alabama or Mississippi, he writes, it nonetheless was the site of at least 40 spectacle lynchings after the abolition of slavery in 1864. Families of lynching victims rarely obtained any form of actual justice, but Williams's death would have a curious afterlife: Maryland's politically ambitious governor Albert C. Ritchie would, in an attempt to position himself as a viable challenger to FDR, become one of the first

governors in the United States to investigate the lynching death of a Black person. Ritchie tasked Patsy Johnson, a member of the Pinkerton detective agency and a former prizefighter, with going undercover in Salisbury and infiltrating the mob that murdered Williams. Johnson would eventually befriend a young local who admitted to participating in the lynching and who also named several local law enforcement officers as ringleaders. Despite this, a grand jury, after hearing 124 witness statements, declined to indict the perpetrators. But this denial of justice galvanized Governor Ritchie's Interracial Commission, which would become one of the pioneering forces in the early civil rights movement in Maryland. Complicating historical narratives associated with the history of lynching in the city of Salisbury, *The Silent Shore* explores the immediate and lingering effect of Williams's death on the politics of racism in the United States, the Black community in Salisbury, the broader Eastern Shore, the state of Maryland, and the legacy of modern-day lynchings.

Battleship Commander Paul L Stillwell, 2021-10-15 This is the first-ever biography of Vice Admiral Willis A. Lee Jr., who served a key role during World War II in the Pacific. Recognizing the achievements and legacy of one of the war's top combat admirals has been long overdue until now. *Battleship Commander* explores Lee's life from boyhood in Kentucky through his eventual service as commander of the fast battleships from 1942 to 1945. Paul Stillwell draws on more than 150 first-person accounts from those who knew

and served with Lee from boyhood until the time of his death. Said to be down to earth, modest, forgiving, friendly, and with a wry sense of humor, Lee eschewed the media and, to the extent possible, left administrative details to others. Stillwell relates the sequential building of a successful career, illustrating Admiral Lee's focus on operational, tactical, and strategic concerns. During his service in the Navy Department from 1939 to 1942, Lee prepared the U.S. Navy for war at sea, and was involved in inspecting designs for battleships, cruisers, aircraft carriers, and destroyers. He sent observers to Britain to report on Royal Navy operations during the war against Germany and made plans to send an action team to mainland China to observe conditions for possible later Allied landings there. Putting his focus on the need to equip U.S. warships with radar and antiaircraft guns, Lee was one of the few flag officers of his generation who understood the tactical advantage of radar, especially during night battles. In 1942 Willis Lee became commander of the first division of fast battleships to operate in the Pacific. During that service, he commanded Task Force 64, which achieved a tide-turning victory in a night battle near Guadalcanal in November 1942. Lee missed two major opportunities for surface actions against the Japanese. In June 1944, in the Marianas campaign, he declined to engage because his ships were not trained adequately to operate together in surface battles. In October 1944, Admiral William Halsey's bungled decisions denied Lee's ships an opportunity for combat. Continuing his career of service near the end of

the war, Lee, in the summer of 1945, directed anti-kamikaze research efforts in Casco Bay, Maine. While Lee's wartime successes and failures make for compelling reading, what is here in this biography is a balanced look at the man and officer.
