Each Article is set out in full, in English and Irish, and examined in detail, with reference to all the leading Irish and international case law. It is essential reading for all who require knowledge of the Irish legal system and will prove a vital resource to legal professionals, students and scholars of constitutional and comparative law. This new edition is fully revised and reflects the substantive changes that have occurred in the 15 years since its last edition and includes expansion and major revision to cover the many constitutional amendments, significant constitutional cases, and developing trends in constitutional adjudication. The recent constitutional changes covered in this new edition include: * The 27th Amendment abolished the constitutional jus soli right to Irish Nationality. * The 28th Amendment allowed the State to ratify the Lisbon Treaty. * The 29th Amendment relaxed the prohibition on the reduction of the salaries of Irish judges. * The 30th Amendment allowed the State to ratify the European Fiscal Compact. * The 31st Amendment was a general statement of children's rights and a provision intended to secure the power of the State to take children into care. * The 33rd Amendment mandated a new Court of Appeal * The 34th Amendment prohibited restriction on civil marriage based on sex. * The 36th Amendment allowed the Oireachtas to legislate for abortion. New sections include a look at the impact of the Constitution on substantive criminal law, and a detailed treatment of the impact of Article 40.5, protecting the inviolability of the dwelling, on both criminal procedure and civil law. Other sections have been expanded with in-depth analysis of referendums, challenges to campaigns and results, coverage of Oireachtas privilege, changes in constitutional interpretation, private property rights, and judicial independence. In particular extensive rewriting has taken place on the section dealing with the provisions relating to the courts contained in Article 34 following the establishment of the Court of Appeal and the far-reaching changes to the appellate structure from the 33rd Amendment of the Constitution Act 2013.

Fingers: The Man Who Brought Down Irish Nationwide and Cost Us €5.4bn Richard Curran, Tom Lyons, 2013-02-22 Michael Fingleton was an Irish banking legend, the ultimate big money lender. He took Irish Nationwide Building Society from an obscure mortgage provider to a multi-billion euro property-lending casino, leaving the taxpayer to pick up the tab for €5.4 billion when the society eventually went bust. Fingleton earned over €2 million per year and built up a pension fund worth €27 million. But it was his loans to a small group of property developers and the way the society was mismanaged, under the nose of the Financial Regulator that cost Irish citizens so dearly. In Fingers, Tom Lyons and Richard Curran use previously unpublished material to blow open the failings of the society's internal systems and controls, its culture and the dominance of one man. They get inside the organisation and bring startling new revelations about how money was really lent out to a small group of developers, how INBS failed, and what the Financial Regulators knew. Fingers explores: - Fingleton's connections with politics, the media and the powerful - How the society wasn't just a lender but became a player, taking stakes and shares in the profits of the ventures it bankrolled - How Fingleton quaffed vintage wine in the finest restaurants, stayed in five-star hotels and put it all on the society's tab - How ordinary borrowers in arrears were treated ruthlessly, while the mega-rich walked away owing billions to us. Fingers goes to the heart of the state's failure to hold anybody to account for the Irish financial crash. It highlights the need for a proper banking inquiry to explain to the public what went wrong, how, and who is to blame.

The Constitution of Ireland Oran Doyle, 2018-11-29 This book provides a contextual analysis of constitutional governance in Ireland. It presents the 1937 Constitution as a seminal moment in an ongoing constitutional evolution, rather than a foundational event. The book demonstrates how the Irish constitutional order revolves around a bipartite separation of powers. The Government is dominant but is legally constrained by the courts, particularly in their interpretations of the fundamental rights protected by the Constitution. In recent decades, the courts have weakened the constitutional constraints on the Government. Political constraints imposed by opposition parties in Parliament and new accountability institutions (such as the Ombudsman) have moderately strengthened but the Government remains by far the most powerful political actor. There is a risk that such executive dominance could lead to democratic decay; however, the referendum requirement for constitutional amendment has prevented Governments from accumulating greater constitutional power. The book begins with an overview of Irish constitutional history leading to the enactment of the 1937 Constitution, before exploring the foundational decisions made by the Constitution in relation to territory, people and citizenship. Particular

attention is paid to the constitutional relationship with Northern Ireland, currently unsettled by the decision of the United Kingdom to leave the European Union. The book details the key institutions of state (Government, Parliament, President and courts), before analysing how different constitutional actors exercise their respective powers of governance, contestation and oversight. A thematic approach is taken to the courts' interpretation of fundamental rights, showing how judicial attitudes have markedly changed over time. Further attention is paid to both formal amendment and informal constitutional change. The Constitution today is markedly different from 1937: it is non-committal on national reunification, less influenced by Roman Catholic natural law teaching, and generally more permissive of Government action. It is perhaps these developments, however, that explain its continued success or, at least, its longevity.

Cinema and Ireland Kevin Rockett,Luke Gibbons,John Hill,2014-01-21 This was the first comprehensive study of film production in Ireland from the silent period to the present day, and of representations of Ireland and 'Irishness' in native, British, and American films. It remains an authority on the topic. The book focuses on Irish history and politics to examine the context and significance of such films as Irish Destiny, The Quiet Man, Ryan's Daughter, Man of Aran, Cal, The Courier, and The Dead.

An Introduction to Transnational Criminal Law Neil Boister,2018-04-13 National borders are permeable to all types of illicit action and contraband goods, whether it is trafficking humans, body parts, digital information, drugs, weapons, or money. Whilst criminals exist in a borderless world where territorial boundaries allow them to manipulate different markets in illicit goods, the authorities who pursue them can remain constrained inside their own jurisdictions. In a new edition of his ground-breaking work, Boister examines how states must cooperate to tackle some of the greatest security threats in this century so far, analyses to what extent vested interests have determined the course of global policy and law enforcement, and illustrates how responding to transnational crime itself becomes a form of international relations which reorders global political power and becomes, at least in part, an end in itself. Arguing that transnational criminal law is currently geared towards suppressing criminal activity, but is not as committed to ensuring justice, Boister suggests that it might be more strongly influenced by individual moral panics and a desire for criminal retribution than an interest in ensuring a proportional response to offences, protection of human rights, and the preservation of the rule of law.

A Financial Tale of Two Cities Jim Bain,2007 Describes the intense commercial rivalry between Sydney and Melbourne over a period of 150 years. While Sydney was established nearly 50 years before Melbourne, the great wealth generated by the Victorian goldfields soon gave Melbourne an unassailable position as the continent's richest center of commerce. The story of this contest for commercial supremacy is based on Jim Bain's own long experience in the Australian financial-services industry, and particularly his exposure to the competition and fierce rivalry that existed between the leading Melbourne- and Sydney-based banks, merchant banks, fund managers and stockbrokers. Bain focuses on the roles played by several financial institutions--and key personalities--over many decades.

Recession at Work Bill Roche,Paul Teague,Anne Coughlan,Majella Fahy,2013-05-02 How has the recession affected the conduct of human resource management? How have HR departments and managers fared? Have leading firms taken measures to sustain and revive their businesses through innovative HR measures? How have union representation and influence been affected? Is the recession reshaping work and employment practices? These are among the questions answered in *Recession at Work*, the first systematic study in Europe to deal with the effects of the economic crisis on people at work. Drawing on survey data for Ireland provided by nearly 500 managers responsible for human resources, on focus groups of HR managers and trade union officials, and on detailed case studies of six major firms, the book provides an unrivalled picture of the effects of the current recession on how people are managed and how they are represented by trade unions. Examining the effects of the Irish recession on work and employment in the context of international experience and commentary, this book provides detailed information and analysis on the ways in which firms have sought to handle the challenges that have arisen since the severe reverse in Ireland's economic fortunes in 2008.
