Urban Ecology Ken Leinbach,2018-03-06 With climate change in the news, an urban core that has reached boiling point, and many children growing up without role models and with limited dreams, where is hope? There is a quiet experiment in Milwaukee that is turning heads. It starts with the simplicity of getting a city kid exploring their neighborhood park. How is it that so much life, community, and opportunity can grow from this unlikely soil? It's been called a miracle. It's contagious. It's spreading. It's exciting. And it works! This is the story of a group of ordinary people in a neighborhood who created something extraordinary. Readers will discover... the power of getting a city kid outside in nature; that kindness does work; how to say no while following the yes; the value of clarity and focus; how to find abundance within their own diverse community by simply and humbly asking for help; ten tried and tested rules for raising money (a lot of it!) while having a ton of fun doing it; a positive, believable, and very real vision for the future of the environment (we've got this!); and... how to join the Urban Ecology movement.
