2 Terminal Alliance Jim C. Hines, 2017 The Krakau came to Earth to invite humanity into a growing alliance of sentient species. But they hadn’t counted on a mutated plague wiping out half the human population, turning the rest into shambling, near-unstoppable animals, and basically destroying human civilization. You know, your standard apocalypse. The Krakau’s first impulse was to turn around and go home. (After all, it’s hard to have diplomatic relations with mindless savages who eat your diplomats.) Their second impulse was to try to fix us. Now, a century later, human beings might not be what they once were, but at least they’re no longer tryiing to eat everyone. Mostly. --JACKET FLAP.

With the addition of seven new chapters, it also offers an expanded insight into PET an increasingly popular and affordable diagnostic utility, hitherto underexplored in texts devoted to imaging. Cardiac CT, PET and MRI includes: Clinically focused examinations of CT, PET and MRI the three most popular non-invasive imaging modalities Illustrative full-color photos and images Access to a companion website featuring additional content Cardiologists, radiologists, nuclear medicine physicians, physicists, and imaging technologists alike will find the third edition of Cardiac CT, PET and MRI an informative and accessible resource with a direct use in their day-to-day practice.

2 The Friday Pilots Don Shepperd, 2014 This is a book of first-person stories written by old pilots, those who flew the old airplanes in the old air force. These are personal stories of growing up in a different America, their lives before political correctness, back when airplanes were dangerous but flying was fun. The group calls themselves the Friday Pilots. They gather at McMahon’s Prime Steakhouse in Tucson, Arizona, every Friday for lunch. There are those who finished careers as generals and colonels and majors and captains and even first lieutenants. They laugh. They exchange stories, some true. They have become legends in their own minds. There are fighter pilots, bomber pilots, airline pilots, corporate pilots, and astronauts. They have run large companies and been on boards. They have been rich and they have been poor. They have landed gear up and gear down. They have ridden huge rockets into space. They have crashed and burned. They have been to war. They have been blown from the skies, have run through jungles, and have parachuted into oceans. They have been captured and imprisoned as POWs and horribly tortured. There are heroes at the table, but none will admit it. They will tell you they have flown with those who were. It seems everyone talks about writing a book. The Friday Pilots have done something few do: they have written their stories for their families and friends. Strap in, hold on, and enjoy the ride!

2 Miltan Epsilon S.C. Mae, 2021-05-03 Jazz Healy is estranged - purposefully - from her mother, who runs a galaxy-spanning criminal organization. Twelve years ago she lost her father when pirates attacked a freighter delivering supplies to a frontier planet. Since then she’s decided it’s better, safer, to keep to herself. Even if that means being alone. And often lonely. Right now, she’s delivering pets, of all things, to a lawless space-station. Apparently even the most hardened criminals like animal companionship. One critter especially is making the cargo run worthwhile: a gene-splice kitten. Jazz will earn a cool hundred thousand Commonwealth dollars if she safely delivers the little fluff ball to its new owner. But cargo that valuable brings out all sorts, from wannabe animal activists to tech cultists with enhancement fetishes. And maybe even Jazz’s mother. Though the cat is only one bullet point on her agenda.
