Farewell to God Charles Templeton,2011-01-14 For more than twenty years, Charles Templeton was a major figure in the church in Canada and the United States. During the 1950s, he and Billy Graham were the two most successful exponents of mass evangelism in North America. Templeton spoke nightly to stadium crowds of up to thirty thousand people. However, increasing doubts about the validity of the Old Testament and the teachings of the Christian church finally brought about a crisis in his faith and in 1957 he resigned from the ministry. In *Farewell to God*, Templeton speaks out about his reasons

for the abandonment of his faith. In straightforward language, Templeton deals with such subjects as the Creation fable, racial prejudice in the Bible, the identity of Jesus of Nazareth, Jesus' alienation from his family, the second-class status of women in the church, the mystery of evil, the illusion that prayer works, why there is suffering and death, and the loss of faith in God. He concludes with a positive personal statement: "I Believe."

Aramaic Papyri of the Fifth Century B.C. A. E. Cowley, 2005-09-14 The Aramaic papyri found on the island of Elephantine, Egypt (ancient Yeb, opposite Syene) come from the fifth century BC. They include letters, personal archives, public archives, the 'Words of Ahikar,' the Behistun inscription, accounts, and lists. Cowley provides here the Aramaic transcriptions and English translations for all the texts available to him. In this edition, an updated bibliography is provided.

Archetypes in Japanese Film Gregory Barrett, 1989 This study examines the significance of the archetypal heroes and heroines of Japanese cinema and traces both their prior development in literature, drama, and folklore, and their subsequent variations in popular culture.

One Punch from the Promised Land John Florio, Ouisie Shapiro, 2013-08-29 It was 1976 when Leon and Michael Spinks first punched their way into America's

living rooms. That year, they became the first brothers to win Olympic gold in the same Games. Shortly thereafter, they became the first brothers to win the heavyweight title: Leon toppled The Greatest, Muhammad Ali; Michael beat the unbeatable Larry Holmes. With a cast of characters that includes Ali, Holmes, Mike Tyson, Gerry Cooney, Dwight Qawi, Eddie Mustafa Muhammad and dozens of friends, relatives, and boxing figures, ONE PUNCH FROM THE PROMISED LAND tells the unlikely story of the Spinks brothers. Their rise from the Pruitt-Igoe housing disaster. Their divergent paths of success. And their relationship with America. The book also uncovers stories never before made public: the big paydays, the high living, the backroom deals. It's not afraid to tackle an issue rarely discussed: Does the heavyweight title deliver on its promise to young men in the inner city? This is the definitive story of Leon and Michael Spinks. And a cross-examination of heavyweight boxing in 20th century America.

Pitfalls of Participatory Programs, 2008 Participation of beneficiaries in the monitoring of public services is increasingly seen as a key to improving their efficiency. In India, the current government flagship program on

universal primary education organizes both locally elected leaders and parents of children enrolled in public schools into committees and gives these groups powers over resource allocation, and monitoring and management of school performance. However, in a baseline survey we found that people were not aware of the existence of these committees and their potential for improving education. This paper evaluates three different interventions to encourage beneficiaries' participation through these committees: providing information, training community members in a new testing tool, and training and organizing volunteers to hold remedial reading camps for illiterate children. We find that these interventions had no impact on community involvement in public schools, and no impact on teacher effort or learning outcomes in those schools. However, we do find that the intervention that trained volunteers to teach children to read had a large impact on activity outside public schools -- local youths volunteered to be trained to teach, and children who attended these camps substantially improved their reading skills. These results suggest that citizens face substantial constraints in participating to improve the public education system, even when they care about education and are willing to do something to improve it.

Eurabia-paperback Bat Ye'or, 2005 This book is about the transformation of Europe into Eurabia, a cultural and political appendage of the Arab/Muslim world. Eurabia is fundamentally anti-Christian, anti-Western, anti-American, and antisemitic. The institution responsible for this transformation, and

that continues to propagate its ideological message, is the Euro-Arab Dialogue, developed by European and Arab politicians and intellectuals over the past thirty years.--From publisher description.
