Television Weathercasting Robert Henson,1990 Will it rain tomorrow? That perennial question has made weather the most popular segment of local television news for years. Yet weathercasters do far more than simply convey the latest outlook. Depending on the circumstances, they may inject humor into the forecast (having a Lhasa apso pant and wag its tail during the forecast, for instance), warn of a life-threatening tornado or hurricane, or instruct viewers on the science behind weather. This book, the first critically to examine weathercasters and their craft, is based on years of research and covers both the lighthearted and serious aspects of television weather. Chapters include pioneer weathercasters of the 1940s and 1950s, technical advances, interaction with the National Weather Service, severe weather coverage, celebrities who began with television weather, and the status of women and minorities in weathercasting.

Media Market Fouad Sabry,2024-04-07 What is Media Market A market, also known as a media market, broadcast market, media region, designated market area (DMA), television market area, or simply market, is a region in which the population has access to the same (or comparable) television and radio station offerings. Markets may also include other forms of media, such as newspapers and content from the internet. It is possible for them to correspond with or overlap with one or more metropolitan areas; however, rural regions that have a limited number of large population centers can also be recognized as markets. The opposite is also true: extremely big metropolitan areas can occasionally be divided into a number of different pieces. It is possible for market regions to overlap, which means that individuals who live on the periphery of one media market may be able to get information from other markets that are conveniently located nearby. These measurements are compiled in the United States by Nielsen Media Research, and they are utilized extensively in the process of audience measurement. Since the completion of its acquisition of Arbitron in September 2013, Nielsen has been doing audience measurements for both radio and television. How you will benefit (I) Insights, and validations about the following topics: Chapter 1: Media market Chapter 2: Nielsen Audio Chapter 3: WDBB Chapter 4: WNPT (TV) Chapter 5: Audience measurement Chapter 6: Market failure Chapter 7: WYMT-TV Chapter 8: WDTV Chapter 9: Media in New York's Capital District Chapter 10: The CW Plus Chapter 11: WVTT-CD Chapter 12: WJMX (AM) Chapter 13: Media in the Tampa Bay area Chapter 14: WNKI Chapter 15: Digital television transition in the United States Chapter 16: KLIR Chapter 17: Nielsen Media Research Chapter 18: Regulated market Chapter 19: Significantly viewed out-of-market television stations in the United States Chapter 20: Media in Jacksonville, Florida Chapter 21: WTOP-FM (II) Answering the public top questions about media market. #Because2020 Mike Lauterborn, 2021-03-21 Record-breaking weather events. Strange beasties that literally created a buzz. A restless universe tossing rocks at our planet. All with a raging coronavirus afflicting our world population. Just some of the bizarre happenings that defined 2020. Captured in one bucket here, the read is dizzying and dramatic... and worrying with regard to the future. Are these splashes a glimpse of more aggressive and violent weather, nature and space occurrences to come?
