Recommendations for the Inspection, Maintenance and Management of Car Park Structures Institution of Civil Engineers (Great Britain). National Steering Committee for the Inspection of Multi-storey Car Parks, 2002 Most multi-storey car parks are constructed of reinforced concrete, to normal building standards. However, severe environments and poor repair mean many have suffered from early deterioration, structural defects and safety shortcomings. This guide provides recommendations for good practice.

The Feder Guide to Where to Park Your Car in Manhattan (and Where Not to Park It!) Erik Feder, 2005-06 The Feder Guide lists street parking regulations for every street in the downtown area of Manhattan (30th Street - Battery Park) as well as over 150 parking facilities in this same area including their locations, hours of operation, contact information and rates. This book also provides street maps, gives helpful hints as to the best and worst places for street parking and offers tips for what to do if a car is missing, towed or ticketed. If this book helps a Manhattan motorist avoid just one parking ticket, it'll pay for itself up to six times over. If it helps a driver in Manhattan to avoid being towed, it pays for itself at least fourteen times over.

Parking Principles; Subject Area: 53 Traffic Control and Operations National Research Council (U.S.). Highway Research Board, 1971 In 1967 FHWA recommended that the HRB committee on parking develop a new publication to update and revise BPR's 1956 publication, Parking guide for cities. In the present study, the committee attempts to view parking across the entire spectrum from the home to the central business district. Eight major topics are addressed: parking characteristics, zoning, parking programs, parking studies, location and design, operation, parking at transit stations, and curbside parking. The three appendices comprise a glossary of terms, legal aspects of parking and public use, and change-of-mode facilities.

Park It! NYC Margot J. Tohn, 2008-11 Designed with the driver in mind, this unique and handy guidebook is the perfect solution for hassle-free parking. Park It! NYC's comprehensive coverage of the 1,100 off-street parking garages and outdoor lots in Manhattan helps you easily navigate to your perfect garage. Whether cost or location is important to you, this original book is your invaluable resource for choosing among the 100,000 parking spaces. Learn from an insider who has visited each garage four times -- how much to tip, why rates change, and where to find a safe garage. This book is for all the people who have been frustrated by circling the block trying to find a garage or have been unpleasantly surprised at the rate when they retrieved their car. Fully updated listings include valuable information about entrance details, hourly and special rates, hours, capacity, credit cards taken, clearance height, and special discounts. The 26 color maps help you quickly find garage entrances and exits, gas stations, car washes, and major landmarks. Includes Free Cross-Street Finder, Rate Calculator, fun statistics about NYC parking, and ten pages of insider hints and tips.

AA Street by Street Z-Map Brighton Automobile Association, 2001-09-06 This credit-card size street map with a z-fold pattern is a detailed easy-to-read map of the city centre that clearly features: NCP car parks and one-way streets; public toilets; pubs, hotels and petrol station; and public buildings. An index of all streets and places of interests is included.

Parking Requirements in Zoning Ordinances National Research Council (U.S.). Highway Research Board, 1955 A supplement to bulletin 24. Information on 311 places with ordinance provisions relating to the provision of parking space through the zoning mechanism are summarized in 28 tables.

The Feder Guide to Where to Park Your Car in Manhattan, and Where Not to Park It! Erik Feder, 2005-01-01 The Midtown/Uptown Edition of The Feder Guide... lists street parking regulations for every street in the midtown/uptown area of Manhattan (124th Street - 30th Street) as well as over 300 parking facilities in this same area including their locations, hours of operation, contact information and rates. This book also provides street maps, gives helpful hints as to the best and worst places for street parking and offers tips for what to do if a car is missing, towed or ticketed. Readers even learn tricks they can use to get out of parking tickets they've already received - believe it or not, it can be done!! There is a need for The Feder Guide - no such book currently exists and as anyone who drives a vehicle in Manhattan knows, trying to park your car or truck in Manhattan can be a frustrating and costly experience. The NYC government added 300 parking agents last year, increasing the total number of ticket writers to 1,100. These agents generate more than \$500 million annually for City's budget. Research shows an average of over 22,000 tickets are issued daily in New York City, of which Manhattan is by far the largest contributor. If this book helps a Manhattan motorist avoid just one parking ticket, it'll pay for itself up to six times over. If it helps a driver in Manhattan to avoid being towed, it pays for itself at least fourteen times over.
