**Routledge Intensive Dutch Course** Gerdi Quist, Christine

Sas, Dennis Strik, 2015-06-03 This intensive foundation course in Dutch is designed for those with no previous knowledge of the language. It is lively and fast-paced, providing students with a wide range of activities, and drawing on an impressive selection of source material from many different media. Audio materials are presented on accompanying CDs, to be purchased separately. Taking students from beginner to intermediate level in one year, the Routledge Intensive Dutch Course develops a thorough working knowledge of the structures of Dutch and practises the four key skills of language learning: reading, writing, speaking, and listening. Guidance for tutors as well as links to related sites is available on the Routledge website.

*Dutch Racism* Philomena Essed, Isabel Hoving, 2014-03-01

Dutch Racism is the first comprehensive study of its kind. The approach is unique, not comparative but relational, in unraveling the legacy of racism in the Netherlands and the (former) colonies.

Authors contribute to identifying the complex ways in which racism operates in and beyond the national borders, shaped by European and global influences, and intersecting with other systems of domination. Contrary to common sense beliefs it appears that old-fashioned biological notions of “race” never disappeared. At the same time the Netherlands echoes, if not leads, a wider European trend, where offensive statements about Muslims are an everyday phenomenon. Dutch Racism challenges readers to question what happens when the moral rejection of racism loses ground. The volume captures the layered nature of Dutch racism through a plurality of registers, methods, and disciplinary approaches: from sociology and history to literary analysis, art history and psychoanalysis, all different elements competing for relevance, truth value, and explanatory power. This range of voices and visions offers illuminating insights in the two closely related questions that organize this book: what factors contribute to the complexity of Dutch racism? And why is the concept of racism so intensely contested? The volume will speak to audiences across the humanities and social sciences and can be used as textbook in undergraduate as well as graduate courses. Philomena Essed is professor of Critical Race, Gender and Leadership studies, Antioch

University (USA), PhD in Leadership and Change Program. Her books and edited volumes include *Everyday Racism*; *Understanding Everyday Racism, Race Critical Theories*; *A Companion to Gender Studies* (“outstanding” 2005 CHOICE award); and, *Clones, Fakes and Posthumans: Cultures of Replication*. Isabel Hoving is diversity officer at the Leiden University and affiliated with the Department of Film and Literary Studies of Leiden University. Her books include *In Praise of New Travellers*, *Veranderingen van het alledaagse*, and several other volumes on migration, Caribbean literatures, African literature and art. In addition to her academic work, she is an awarded youth writer.

*Lopen twee blondjes door de Kalverstraat* Arie Bras, Wim Daniëls, 2012-11-26 Twee blondjes lopen door de Kalverstraat. Het ene blondje ziet een spiegel op straat liggen. Ze pakt hem, kijkt erin en zegt: 'Hé, die meid ken ik!' Waarop het andere blondje de spiegel pakt en zegt: 'Duh... logisch, dat ben ik!' Dit boek is een mooi evenwicht tussen een moppenboek en een boek over de mop. Aan de hand van de beste moppen per genre belichten

programmamaker Arie Bras van de Wereldomroep en schrijver Wim Daniëls op een luchtige en toegankelijke manier de ins en outs van het fenomeen mop. Ze gaan o.a. in op moppengenes (dommeblondjesmoppen, Jantjemoppen, Belgenmoppen enz.), de geschiedenis van de mop, moppen in andere landen, de werking van de mop, de noodzakelijke ingrediënten van de mop en de aard van moppentappers. 'Lopen twee blondjes' is daarmee het ideale cadeauboek.

Monitor Racisme and Extremisme Peter R. Rodrigues, Jaap van Donselaar, 2010-12-13 De negende Monitor racisme & extremisme belicht de bevindingen van het onderzoek naar de strafrechtelijke bestrijding van rassendiscriminatie in 2009. In deze brede rapportage komen meerdere onderwerpen aan de orde: racistisch en extreemrechts geweld, extreemrechtse formaties, onderzoek naar het extreemrechtse en discriminatoire gehalte van de PVV, antisemitisme, antiziganisme en strafrechtelijke aanpak van rassendiscriminatie. Nieuw in deze monitor is het onderzoek naar de gevolgen van stigmatisering. Ook wordt er aanzienlijk meer aandacht besteed aan islamitisch radicalisme en extremisme.
