Commander and Staff Guide to Liaison Functions U. S. Army,2020-02-29 Liaison officer (LNO) functions are critical to the successful integration of diverse capabilities across military and civilian domains. Despite the importance of these functions, the Center for Army Lessons Learned (CALL) continues to capture observations which indicate significant issues concerning the selection, training, and employment of LNOs. In August 1998, the Air Land Sea Application (ALSA) Center published the Joint Task Force (JTF) Liaison Handbook, which provided planning and execution guidance to units providing and receiving LNOs at the JTF level. That handbook provided valuable planning and execution guidance, but was written specifically for LNOs operating within a JTF. The ALSA Center handbook was retired in January 2003. LNO operations are discussed in several Army and Joint doctrinal publications, and are the subject of numerous articles; however, there has been no single reference source commanders and staffs can use to select, train, and employ LNOs since the ALSA Center handbook.

The Best Democracy Money Can Buy Greg Palast,2003-02-25 Palast is astonishing, he gets the real evidence no one else has the guts to dig up. Vincent Bugliosi, author of None Dare Call it Treason and Helter Skelter Award-winning investigative journalist Greg Palast digs deep to unearth the ugly facts that few reporters working anywhere in the world today have the courage or ability to cover. From East Timor to Waco, he has exposed some of the most egregious cases of political corruption, corporate fraud, and financial manipulation in the US and abroad. His uncanny investigative skills as well as his no-holds-barred style have made him an anathema among magnates on four continents and a living legend among his colleagues and his devoted readership. This exciting collection, now revised and updated, brings together some of Palast's most powerful writing of the past decade. Included here are his celebrated Washington Post exposé on Jeb Bush and Katherine Harris's stealing of the presidential election in Florida, and recent stories on George W. Bush's payoffs to corporate cronies, the payola behind Hillary Clinton, and the faux energy crisis. Also included in this volume are new and previously unpublished material, television transcripts, photographs, and letters.

A Prehistory of the Cloud Tung-Hui Hu,2016-09-02 The militarized legacy of the digital cloud: how the cloud grew out of older network technologies and politics. We may imagine the digital cloud as placeless, mute, ethereal, and unmediated. Yet the reality of the cloud is embodied in thousands of massive data centers, any one of which can use as much electricity as a midsized town. Even all these data centers are only one small part of the cloud. Behind that cloud-shaped icon on our screens is a whole universe of technologies and cultural norms, all working to keep us from noticing their existence. In this book, Tung-Hui Hu examines the gap between the real and the virtual in our understanding of the cloud. Hu shows that the cloud grew out of such older networks as railroad tracks, sewer lines, and television circuits. He describes key moments in the prehistory of the cloud, from the game “Spacewar” as exemplar of time-sharing computers to Cold War bunkers that were later reused as data centers. Countering the popular perception of a new “cloudlike” political power that is dispersed and immaterial, Hu argues that the cloud grafts

digital technologies onto older ways of exerting power over a population. But because we invest the cloud with cultural fantasies about security and participation, we fail to recognize its militarized origins and ideology. Moving between the materiality of the technology itself and its cultural rhetoric, Hu's account offers a set of new tools for rethinking the contemporary digital environment.

A Short Course in Intellectual Self Defense Normand Baillargeon,2011-01-04 What is the relationship between democracy and critical thinking? What must a citizen in a democracy know to make the word democracy meaningful? In *A Short Course in Intellectual Self-Defense*, historian and educator Normand Baillargeon provides readers with the tools to see through the spin and jargon of everyday politics and news reporting in order to decide for themselves what is at stake and how to ask the necessary questions to protect themselves from the manipulations of the government and the media. Whether the issue be the call to what we're told will be a bloodless war, the debate around Intelligent Design, or the meaning of a military expenditure, Baillargeon teaches readers to evaluate information and sort fact from official and media spin.

Songs in the Key of Z Irwin Chusid,2000 Irwin Chusid profiles a number of outsider musicians - those who started as outside and eventually came in when the listening public caught up with their radical ideas. Included are The Shaggs, Tiny Tim, Syd Barrett, Joe Meek, Captain Beefheart, The Cherry Sisters, Daniel Johnston, Harry Partch, Wesley Willis, and others.

Salsa Dancing into the Social Sciences Kristin Luker,2010-04-10 “You might think that dancing doesn’t have a lot to do with social research, and doing social research is probably why you picked this book up in the first place. But trust me. Salsa dancing is a practice as well as a metaphor for a kind of research that will make your life easier and better.” Savvy, witty, and sensible, this unique book is both a handbook for defining and completing a research project, and an astute introduction to the neglected history and changeable philosophy of modern social science. In this volume, Kristin Luker guides novice researchers in: knowing the difference between an area of interest and a research topic; defining the relevant parts of a potentially infinite research literature; mastering sampling, operationalization, and generalization; understanding which research methods best answer your questions; beating writer’s block. Most important, she shows how friendships, non-academic interests, and even salsa dancing can make for a better researcher. “You know about setting the kitchen timer and writing for only an hour, or only 15 minutes if you are feeling particularly anxious. I wrote a fairly large part of this book feeling exactly like that. If I can write an entire book 15 minutes at a time, so can you.”

Peter Greenaway's Postmodern / Poststructuralist Cinema Paula Willoquet-Maricondi,Mary Alemany-Galway,2008-07-17 Since the 1960s, British multi-media artist Peter Greenaway has shocked and intrigued audiences with his avant-garde approach to filmmaking and other artistic ventures. From early experimental films to provocative features, Greenaway has deployed strategies associated with structuralist cinema, only to challenge or critique the very limits of that cinema and of film in general. In this collection of essays, scholars from a variety of disciplines explore various postmodern and poststructuralist aspects of Greenaway's films, starting with his early shorts and delving into his feature-length works, including *The Draughtman's Contract*, *The Belly of an Architect*, *A Zed and Two Noughts*, *The Cook, the Thief, His Wife and Her Lover*, *The Baby of M'con*, and *The Pillow Book*. Other artistic productions, including his paintings and installations are also discussed. These essays examine the filmmaker's position within British and avant-garde cinema and his interest in constructing and deconstructing representational systems. In the years since the first edition of this book, Greenaway has enjoyed continued success in creating hybridized media projects for the stage and screen, as evidenced by additional essays for this revised edition. A new chapter addresses how Dutch political events and Dutch art have been crucial in shaping Greenaway's aesthetic, focusing on *The Draughtsman's Contract*, the 1991 opera *Writing to Vermeer*, and *Nightwatching*, the audio-visual installation and 2007 film of the same name, which were inspired by Rembrandt's *Night Watch*. Also new to this collection is an essay that examines Greenaway's most ambitious endeavor to date, *The Tulse Luper Suitcases*, which exists as four feature films, multiple websites, an online game, several books and installations, and a number of theatrical events. Peter Greenaway's *Postmodern/Poststructuralist Cinema*, Revised Edition explores the cultural, historical, and philosophical implications of this hybrid artist whose paintings, drawings, exhibitions, installations, and operatic productions are an intrinsic part of his work in film. This collection of diverse essays, which includes two texts by Greenaway, two interviews with the director, and a revised filmography, will interest students, teachers, critics and lovers of both postmodern art and cinema.

Digital Material Marianne van den Boomen,2009 This is a compelling study of the often controversial role and meaning of the new media and digital cultures in contemporary society. Three decades of societal and cultural alignment of new media yielded to a host of innovations, trials, and problems, accompanied by versatile popular and academic discourse. New Media Studies crystallized internationally into an established academic discipline, which begs the question: where do we stand now; which new issues have emerged now that new media are taken for granted, and which riddles remain unsolved; and, is contemporary digital culture indeed all about 'you', or do we still not really understand the digital machinery and how it constitutes us as 'you'. From desktop metaphors to Web 2.0 ecosystems, from touch screens to bloggging to e-learning, from role-playing games to Cybergoth music to wireless dreams, this timely volume offers a showcase of the most up-to-date research in the field from what may be called a 'digital-materialist' perspective.

The Next Arms Race Henry D. Sokolski,2015-01-31 With most of the world's advanced economies now stuck in recession; Western support for defense cuts and nuclear disarmament increasing; and a major emerging Asian power at odds with its neighbors and the United States; it is tempting to think our times are about to rhyme with a decade of similar woes—the disorderly 1930s.Might we again be drifting toward some new form of mortal national combat? Or, will our future more likely ape the near-half-century that defined the Cold War—a period in which tensions between competing states ebbed and flowed but peace mostly prevailed by dint of nuclear mutual fear and loathing?The short answer is, nobody knows. This much, however, is clear: The strategic military competitions of the next 2 decades will be unlike any the world has yet seen. Assuming U.S., Chinese, Russian, Israeli, Indian, French, British, and Pakistani strategic forces continue to be modernized and America and Russia continue to reduce their strategic nuclear deployments, the next arms race will be run by a much larger number of contestants—with highly destructive strategic capabilities far more closely matched and capable of being quickly enlarged than in any other previous period in history.

The Mindset Lists of American History Tom McBride,Ron Nief,2011-07-05 Snapshots of the U.S.'s last nine generations—from the creators of the Mindset List media sensation Just as high school graduates in 1957 couldn't imagine life without zippers, those of 2009 can't imagine having to enter phone booths and deposit coins in order to call someone from the street corner. Every August, the Mindset List highlights the cultural touchstones that have shaped the lives of that year's incoming college class. Now this fascinating book extends the Mindset List approach to dramatize what it was like to grow up for every American generation since 1880, showcasing the remarkable changes in what Americans have considered normal about the world around them. Expands Tom McBride and Ron Nief's popular annual Mindset Lists to explore the mindset of nine generations of Americans, from 1880 to the future high school graduates of 2030 Offers a novel and absorbing way to understand the frame of reference of Americans through history, whether it's the high school grads of 1918, who viewed riding an elevator as a thrill second only to roller coasters, or those of 2009, who have always thought of friend as an active verb Puts a human face on the evolution of historical changes related to technology, the struggle for rights and equality, the calamities of war and depression,

and other areas The annual Mindset List garners extensive media attention, including on Today, The Early Show, the NBC Nightly News, CNN, and Fox as well as in the Wall Street Journal, the New York Times, USA Today, the Los Angeles Times, Time magazine, and hundreds of international publications Whatever your own generational mindset, this book will give you an entertaining and important new tool for understanding the unique perspective and experience of Americans over more than a hundred and fifty years.

Cloud Atlas David Mitchell,2010-07-16 By the New York Times bestselling author of The Bone Clocks | Shortlisted for the Man Booker Prize A postmodern visionary and one of the leading voices in twenty-first-century fiction, David Mitchell combines flat-out adventure, a Nabokovian love of puzzles, a keen eye for character, and a taste for mind-bending, philosophical and scientific speculation in the tradition of Umberto Eco, Haruki Murakami, and Philip K. Dick. The result is brilliantly original fiction as profound as it is playful. In this groundbreaking novel, an influential favorite among a new generation of writers, Mitchell explores with daring artistry fundamental questions of reality and identity. Cloud Atlas begins in 1850 with Adam Ewing, an American notary voyaging from the Chatham Isles to his home in California. Along the way, Ewing is befriended by a physician, Dr. Goose, who begins to treat him for a rare species of brain parasite. . . . Abruptly, the action jumps to Belgium in 1931, where Robert Frobisher, a disinherited bisexual composer, contrives his way into the household of an infirm maestro who has a beguiling wife and a nubile daughter. . . . From there we jump to the West Coast in the 1970s and a troubled reporter named Luisa Rey, who stumbles upon a web of corporate greed and murder that threatens to claim her life. . . . And onward, with dazzling virtuosity, to an inglorious present-day England; to a Korean superstate of the near future where neocapitalism has run amok; and, finally, to a postapocalyptic Iron Age Hawaii in the last days of history. But the story doesn't end even there. The narrative then boomerangs back through centuries and space, returning by the same route, in reverse, to its starting point. Along the way, Mitchell reveals how his disparate characters connect, how their fates intertwine, and how their souls drift across time like clouds across the sky. As wild as a videogame, as mysterious as a Zen koan, Cloud Atlas is an unforgettable tour de force that, like its incomparable author, has transcended its cult classic status to become a worldwide phenomenon.

Looking Closer 5 Michael Bierut,William Drenttel,Steven Heller,2010-06-29 The final installment in this acclaimed series offers astute and controversial discussions on contemporary graphic design from 2001 to 2005. This collection of essays takes stock of the quality and profundity of graphic design writing published in professional and general interest design magazines, as well as on blogs and Internet journals. Prominent contributors include Milton Glaser, Maud Lavin, Ellen Lupton, Victor Margolin, Mr. Keedy, David Jury, Alice Twemlow, Steven Heller, Jessica Helfand, William Drenttel, Michael Bierut, Michael Dooley, Nick Curry, Emily King, and more. Among the important themes discussed: design as popular culture, design as art, politics, aesthetics, social responsibility, typography, the future of design, and more. Students, graphic designers beginning their careers, and veterans seeking fresh perspective will savor this anthology gathered from some of today's top graphic design writers and practitioners, as well as commentators from outside the profession. From the series that helped launch the design criticism movement and was the first to anthologize graphic design criticism from key sources, this volume promises to be the most provocative of all! Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Immersion Into Noise (second Edition) Joseph Nechvatal,2022-03-18 The noise factor is the ratio of signal to noise of an input signal to that of the output signal. Noise can block or interfere with the meaning of a message in both human and electronic communication. But in Information Theory, noise is still considered to be information. By refining the definition of noise as that which addresses us outside of our preferred comfort zone, Joseph Nechvatal's Immersion Into Noise investigates multiple aspects of cultural noise by applying the audio understanding of noise to the visual, architectural and cognitive domains. Nechvatal expands and extends our understanding of the function of cultural noise by taking the reader through the immersive and phenomenal aspects of noise into algorithmic and network contexts, beginning with his experience in the Abside of the Grotte de Lascaux. Immersion Into Noise is intended as a conceptual handbook useful for the development of a personal-political-visionary art of noise. On a planet that is increasingly technologically linked and globally mediated, how might noises break and re-connect in distinctive and productive ways within practices located in the world of art and thought? That is the question Joseph Nechvatal explores in Immersion Into Noise.
