Neon Nevada Peter Laufer, Sheila Swan Laufer, 2011-11-08 There is no neon to match Nevada's. The combination of Wild West mythology and the remaining untamed pitch-black nighttime landscape, replete with real cowboys and real gambling, makes the Silver State a unique and appropriate canvas for neon art. Modern Nevada began with a nonstop desire for riches. It continues for many as a state of dreams often vividly expressed through exploding neon. Neon Nevada brings all this alive. Cameras in hand, authors Sheila Swan and Peter Laufer embarked on their first Nevada neon trek in the 1970s. They followed this up with a second nocturnal treasure hunt in the early 1990s—and a third in 2010, in the course of which they discovered that neon is fading fast; most notably on the Las Vegas Strip. Most of all, though, they realized that their passion for the art and craft of neon had not waned. A compelling blend of full-color photographs and absorbing prose, Neon Nevada takes us on a literal and figurative journey not only down the Las Vegas strip but also down quiet two-lane roads punctuated occasionally with neon signs, those glittering beacons of civilization against the desert night sky. The authors talk with sign owners, with those who created and maintained the neon, and those who collect it.

Geographies of Making, Craft and Creativity Laura Price, Harriet Hawkins, 2018-03-22 This book brings together cutting-edge research from leading international scholars to explore the geographies of making and craft. It traces the geographies of making practices from the body, to the workshop and

studio, to the wider socio-cultural, economic, political, institutional and historical contexts. In doing so it considers how these geographies of making are in and of themselves part of the making of geographies. As such, contributions examine how making bodies and their intersections with matter come to shape subjects, create communities, evolve knowledge and make worlds. This book offers a forum to consider future directions for the field of geographies of making, craft and creativity. It will be of great interest to creative and cultural geographers, as well as those studying the arts, culture and sociology.
