Designing Multilingual Experiences in Technical Communication Laura Gonzales, 2022-11-14 As technical communicators continue advocating for justice, the field should pay closer attention to how language diversity shapes all research and praxis in contemporary global contexts. *Designing Multilingual Experiences in Technical Communication* provides frameworks, strategies, and best practices for researchers engaging in projects with multilingual communities. Through grounded case studies of multilingual technical communication projects in the US, Mexico, and Nepal, Laura Gonzales illustrates the multiple tensions at play in transnational research and demonstrates how technical communicators can leverage contemporary translation practices and methodologies to engage in research with multilingual communities that is justice-driven, participatory, and reciprocal. *Designing Multilingual Experiences in Technical Communication* is of value to researchers and students across fields who are interested in designing projects alongside multilingual communities from historically marginalized backgrounds.

Political Change and Public Culture in Post-1990

Nepal Michael J. Hutt, Pratyoush Onta, 2016 This book explores various domains of the Nepali public sphere in which ideas about democracy and citizenship have been debated and contested since 1990. It investigates the ways in which the public meaning of the major political and sociocultural changes that occurred in Nepal between 1990 and 2013 was constructed, conveyed and consumed. These changes took place against the backdrop of an enormous growth in literacy, the proliferation of print and broadcast media, the emergence of a public discourse on human rights, and the vigorous reassertion of linguistic, ethnic and regional identities. Scholars from a range of different disciplinary locations delve into debates on rumours, ethnicity and identity, activism and gender to provide empirically grounded histories of the nation during one of its most important political transitions.

Course in Nepali David Matthews, 2013-01-11 Nepali has also been adopted by peoples of the Himalayan region who belong to different linguistic groups, and is now understood throughout the whole of Nepal, the Darjeeling region of West Bengal, Sikkim, Bhutan and parts of Tibet, where it has functioned as a language of trade and commerce for well over two centuries. The aim of this course, which covers the whole grammar and all the constructions of modern Nepali, is to present a full description of both the spoken and written forms of modern standard Nepali, and to enable the student to understand, speak and read most types of Nepali he or she is likely to encounter. The earlier lessons concentrate mainly on the spoken style, and the conversation passages whilst the later lessons concern religious, political and literary topics. Nepal is a land which already provides great enjoyment to the increasing number of visitors from the west. A knowledge of the language leads to a deeper understanding of the culture of its people,

and the object of *A Course in Nepali* is to provide the means of learning it without much difficulty. Earlier editions of this course have been the standard book for students at the School of Oriental and African Studies, and it is without question the established market leader.

A Course in Nepali David Matthews, 1998 This course, covering the full grammar and all constructions of modern Nepali, presents a full description of written and spoken Nepali, enabling students to understand, speak and read most types of Nepali encountered today.

The Qatar-Nepal Remittance Corridor Isaku Endo, Gabi G. Afram, 2011-07-18 This report identifies challenges in the migration process from Nepal to Qatar (related to high migration costs and their financing) and constraints in the remittance transfer process from Qatar to Nepal, which together limit the development and poverty reduction impact of remittance flows to Nepali households. The report analyzes migration practices, remittance transfer processes, and their underlying legal and regulatory framework in the Qatar-Nepal Corridor in order to provide policy recommendations that would help improve the scale and impact of remittance transfers from Qatar to Nepal, and enhance the integrity of migration and remittances in the corridor. These recommendations are especially important given that although Nepalis constitute around a quarter of the migrant labor-force in Qatar, they send home only 7 percent of total remittance outflows from Qatar. This corridor has several distinctive features. First, the majority of remittance flows from Qatar to Nepal are being transferred through officially regulated remittance channels. One of the reasons for this is actually the second feature of this corridor, namely, the officially managed migration process from Nepal to Qatar (as a result of which the majority of migrants are documented workers). The

third feature is the contrast between the high competition and low prices of remittance services in this corridor on the one hand, and the contradictory rules and high costs incurred during the migration process on the other hand. Finally, as a by-product of the complex migration process which involves multiple players, financial transfers through informal mechanisms take place from Nepal to Qatar in order to pay the commissions of manpower agencies and middlemen. In Chapter I, the process of migration from Nepal to Qatar is explained and analyzed. Chapter II looks at the remittance transfer process from Qatar to Nepal. Chapter III provides an overview of the legal and regulatory framework underpinning remittance transfers in both in Nepal and Qatar. Finally, Chapter IV summarizes the main findings, identifies the main challenges and provides policy recommendations on how to improve the efficiency of the migration and the scale and impact remittance transfers in the corridor.

Language Contact in Nepal Bhim Lal

Gautam, 2021-03-27 This book examines language contact and shift in Nepal, a multilingual context where language attitudes and policies often reflect the complex socio-cultural and socio-political relationship between minority, majority and endangered languages and peoples.

Presenting the results of a 15-year study and making use of both quantitative and qualitative data, the author presents evidence relating to speakers' opinions and perceptions of mother tongues including English, Hindi, Nepali, Sherpa, Dotyali, Jumli and Tharu. This book explores an under-

studied part of the world, and the findings will be relevant to scholars working in other multilingual contexts in fields including language policy and planning, language contact and change, and language attitudes and ideologies.

Planning Families in Nepal Jan Brunson, 2016-03-29

Based on almost a decade of research in the Kathmandu Valley, *Planning Families in Nepal* offers a compelling account of Hindu Nepali women as they face conflicting global and local ideals regarding family planning. Promoting a two-child norm, global family planning programs have disseminated the slogan, “A small family is a happy family,” throughout the global South. Jan Brunson examines how two generations of Hindu Nepali women negotiate this global message of a two-child family and a more local need to produce a son. Brunson explains that while women did not prefer sons to daughters, they recognized that in the dominant patrilocal family system, their daughters would eventually marry and be lost to other households. As a result, despite recent increases in educational and career opportunities for daughters, mothers still hoped for a son who would bring a daughter-in-law into the family and care for his aging parents. Mothers worried about whether their modern, rebellious sons would fulfill their filial duties, but ultimately those sons demonstrated an enduring commitment to living with their aging parents. In the context of rapid social change related to national politics as well as globalization—a constant influx of new music, clothes, gadgets, and even governments—the sons viewed the multigenerational family as a refuge. Throughout *Planning Families in Nepal*, Brunson raises important questions about the notion of “planning” when applied to family formation, arguing that reproduction is better understood as a set of local and global ideals that involve actors with desires and actions with constraints, wrought

with delays, stalling, and improvisation.

Multilingualism in Education in Nepal Laxman

Ghimire, 2021-07-22 This book explores the development of multilingual policy in education in Nepal in sociopolitical and historical contexts and examines the frameworks of language use in schools. It investigates the dynamics and factors that influence the process of construction and appropriation of the policy of multilingualism in education. The book surveys the language situation in schools and discusses how it is impacted by local language positions, societal power relations, ideological and identity contestations, and the attitude, language behaviour and resistance of key actors. It highlights the role of pedagogy, linguistics and politics that govern the policy of multilingual education. The author assesses the prospects of a multilingual approach to learning via teacher preparation, curriculum and learning material development, coordination of actors and institutions, and resources available in schools. The book presents Nepal's linguistic background while discussing how multilingualism in education recognises local languages to improve the quality of learning in classrooms in ethnolinguistic communities. Evaluating the use of local languages in classrooms, it explores monolingual, multilingual and language maintenance frameworks of multilingualism in education. This book will be of interest to teachers, students, and researchers of education and educational studies, linguistics, sociology of education, school education, language studies, sociolinguistics, language policy and planning, public administration, ethnolinguistics, and sociology of language. It will also be useful to educationists, policymakers, linguists, sociolinguists and those working in related areas.

Nepal in Transition Sebastian von Einsiedel, David M.

Malone,Suman Pradhan,2012-03-12 This volume analyzes the context, dynamics and key players shaping Nepal's ongoing peace process.

Nepal International Monetary Fund. Asia and Pacific Dept,2014-07-18 KEY ISSUES Context: Successful elections for a new Constituent Assembly and formation of a new government have stabilized the political situation. Macroeconomic situation and outlook: Nepal's macroeconomic situation remains broadly favorable. Growth is projected to recover in 2013/14 owing to good monsoons, robust growth in services, and increased public spending. Inflation is moderating, in line with developments in India. High remittance inflows are supporting a strong external position, as well as high reserve money growth. Risks to the outlook are slightly tilted to the downside, involving slower-than-expected growth in countries hosting Nepali workers and domestic financial sector risks. Medium term prospects: While remittances are expected to continue to support the external position, the outlook for growth depends on improving the environment for private investment. This requires a decisive boost in public capital spending, and structural reforms in key areas. Financial sector: Despite progress, significant vulnerabilities remain. The recent assessment under the FSAP, Nepal's first, raised concerns about asset quality and interconnectedness, as well as financial sector infrastructure—including the legal framework—and supervision and crisis preparedness. At the same time, a largely unsupervised cooperatives sector is growing rapidly. Key policy recommendations: Monetary policy should aim at controlling the volatility and level of excess reserves in the financial system, implying a modest tightening of monetary conditions. The exchange rate peg to the Indian rupee provides a useful nominal anchor for the economy, and the real exchange rate is broadly in line with

fundamentals. Capital spending needs to be boosted to provide key infrastructure, and reforms implemented to support private investment, which will help generate sustained economic growth and employment opportunities. In the financial sector, further reforms to bolster regulation and supervision, and improve financial infrastructure are needed to reduce risk and increase access to finance.

Self-Determination & Constitution Making in Nepal Surendra Bhandari, 2014-04-28 This book systematically analyzes why constitutions do not survive in Nepal, despite sixty years of constitutional history. The author discusses the epistemology of ethnic federalism in Nepal and examines the challenges of nation building and post-nation constitutionalism. The work addresses the connection between ethnic identity, right to self-determination, constitution making and state restructuring, offering possible ways forward for Nepal. Chapters consider lessons to be drawn from the past and examine reasons for the abolition of monarchy in Nepal. The book highlights the major problems that the first elected Constituent Assembly (CA) faced in promulgating a new constitution, before it was dissolved in 2012. The concept of right to self-determination and its complexities at the domestic level are all explored, along with ways forward to address the problem of constitutionalism, ethnic federalism and democracy. The author offers solutions as to how the second CA could address problems to promulgate a new constitution. The book elaborates on the role that constitutionalism plays in constitution making and the survival of a constitution. Scholars of politics and international studies, policy makers and those with an interest in law and constitution in Asia will all find this work of interest.

Nepal and the Geo-Strategic Rivalry between China and India

Sanjay Upadhyaya, 2012-02-27 The importance of the Himalayan state of Nepal has been obscured by the international campaign to free Tibet and the vicissitudes of the Sino-Indian rivalry. This book presents the history of Nepal's domestic politics and foreign relations from ancient to modern times. Analysing newly declassified reports from the United States and Britain, published memoirs, oral recollections and interviews, the book presents the historical interactions between Nepal, China, Tibet and India. It discusses how the ageing and inevitable death of the 14th Dalai Lama, the radicalization of Tibetan diaspora and the ascendancy of the international campaign to free Tibet are of increasing importance to Nepal. With its position between China and India, the book notes how the focus could shift to Nepal, with it being home to some 20,000 Tibetan refugees and its chronic political turmoil, deepened by the Asian giants' rivalry. Using a chronological approach, the past and present of the rivalry between China and India are studied, and attempts to chart the future are made. The book contributes to a new understanding of the intricate relationship of Nepal with these neighbouring countries, and is of interest to students and scholars of South Asian studies, politics and international relations.

War, Maoism and Everyday Revolution in Nepal

Ina Zharkevich, 2019-05-09 Drawing on long-term fieldwork in the former Maoist heartland of Nepal, this book studies the war-time social processes during the civil war and their long-term legacy on the constitution of Nepali society.

The Madhesi Upsurge and the Contested Idea of Nepal Kalpana Jha, 2017-03-20 This book is set against the burning issue of ethnic uprisings in the Madhes region of Nepal and analyses debates on the idea of contemporary Nepal. The limited view of Nepal as a primarily hill nation with Nepali-speaking people ignores the vast ethnic and linguistic diversity of the country. It has particularly rendered stateless the Madhesi community which inhabits the plains bordering India and shares closer cultural affinity and marital ties across the border. Increasing demands for ethnic and territorial autonomy by the Madhesis suggest the need for redefining the idea of Nepal and establishing Madhesi identity as Nepali identity while at the same time addressing the deeply contested idea of regional versus social identity in the region. This book uses narratives from the Madhesi community including from prominent Madhesi analysts and activists, to define their identity as well as their aspirations in a democratic Nepal. It also provides a perspective on the internal dynamics of caste and language of this region and their possible impact on consolidating ethnic identities in Nepal.

Contemporary Environmental Problems in Nepal Keshav Bhattarai, Dennis Conway, 2020-11-23 This monograph examines contemporary environmental challenges facing Nepal, this landlocked country's representativeness in the wider South Asian context is both distinct and generalizable. In large part, this is because of its extremes of physiographical structure- plains, hill ranges, mountainous massifs - and wide range of altitudinal terrains, which represent and replicate South Asian and East Asian continental conditions differing as markedly as

humid tropical lowlands, sub-tropical hill ranges and temperate to sub-arctic mountainous environments. Associated forest regimes, in which deforestation and reforestation patterns have evolved in recent times, and differing densities of settlement and cleared agricultural landscapes in each of these altitudinal zones, add to the environmental diversity of Nepal. Associated fauna and exotic species are in various states of endangerment especially Bengal tigers, one horned rhinos, wild elephants, crocodile, musk deer, and peacocks, to name a few- so that their forested and mountainous habitats as 'Wild Life Reserves' also deserve our attention, and are featured in this monograph's remit.
