Lacustrine Sandstone Reservoirs and Hydrocarbon Systems

Olive W. Baganz, Yuval Bartov, Kevin M. Bohacs, Dag Nummedal, 2012-11-20 Many publications on lacustrine systems concentrate on reconstructing paleo-environments, deciphering paleoclimate or estimating hydrocarbon source potential. This is the first memoir to give attention to describing the occurrence, distribution and character of sandstones in various lake settings. The memoir is divided into four sections beginning with a global overview, and followed by two sections covering lacustrine systems in compressional and extensional regimes, and concludes with a series of papers on modern lake regimes.

The End of Loser Liberalism Dean Baker, 2011 Progressives need a fundamentally new approach to politics. They have been losing not just because conservatives have so much more money and power, but also because they have accepted the conservatives' framing of political debates. They have accepted a framing where conservatives want market outcomes whereas liberals want the government to intervene to bring about outcomes that they consider fair. This puts liberals in the position of seeming to want to tax the winners to help the losers. This loser liberalism is bad policy and horrible politics. Progressives would be better off fighting battles over the structure of markets

so that they don't redistribute income upward. This book describes some of the key areas where progressives can focus their efforts in restructuring the market so that more income flows to the bulk of the working population rather than just a small elite.

Tip and Trade Mark Coakley,2011-04-01 The story of a friendship that started in law school and ended with the largest insider trading scandal in Canadian history, this eye-opening chronicle reveals for the first time how Gil Cornblum and Stan Grmovsek worked together to rip off Wall Street and Bay Street--the Canadian Wall Street equivalent--for over \$10 million. Cornblum would scout around his law offices in the middle of the night, looking for confidential information on mergers or takeovers. When he found something, he would tip off Grmovsek, who would make the stock market trades that would gain them illegal profits. From the joint internal investigation by the Ontario Securities Commission, the U.S. Securities and Exchange Commission, and the Royal Canadian Mounted Police Integrated Market Enforcement Team to Cornblum's resultant suicide and Grmovsek's 39-month prison sentence, Tip and Trade covers the discovery of the double lives of the twosome and their inevitable downfall. First-person interviews, conducted with Grmovsek from prison, give insight into what case prosecutors called a classic Hollywood insider trading history.

To help lawyers meet this challenge, this book draws on the perspectives of lawyers and creative specialists to analyze the concept and life cycle of legal innovations, techniques and services, whether related to legislation, legal engineering, legal services, or legal strategies, as well as the role of law as a source of creativity and interdisciplinary collaboration.
