ALBERT G. ROBINSON

Old Homes of New England Roderic H.

Blackburn, 2010-04-13 Old Homes of New England paints a stunning portrait of the charming and important old homes of the region, featuring storybook cottages in white clapboard as well as ancient mansions in brick and stone. Cherished for its intimate, community-centered spirit, New England lays claim to some of the most wonderful architecture of the country—and, significantly, its buildings are among the nation's very oldest. Featured here are twenty-five of the most beautiful examples, ranging from the storied House of the Seven Gables of 1668, in its magnificent colonial splendor, to the Corwin House of 1675, nicknamed the Witch House for its direct association to the infamous Salem witch trials, to the bucolic Cogswell farmhouse of 1728. Each house exemplifies its style, which range from early colonial Pilgrim, Puritan, and Shaker, to later Georgian, Federal, and Greek Revival. With richly crafted interiors formed from old woods, fine plasterwork, thoughtfully set beams, brick, and stonework, the houses return us to a more gracious time when the simple pleasures of staying at home were paramount, a time to which many of us, even now, long to return.

Windows on the Past Jane C. Nylander, 2009-12 The story of life in New England from before the American Revolution to the twentieth century.

Windows on the Past will take you on a tour of four centuries of home building, with fascinating interiors and furnishings; family ties to a wide variety of homes; advances in cooking, heating, plumbing, and lighting; the evolution of dining rituals; and classic landscapes, flower and kitchen gardens, and working farms. The book has been updated with new, richly illustrated chapters on the changing roles of servants in running the New England household and on the Historic New England Stewardship Program, which protects more than seventy-five privately owned historic properties. Through these windows on the past, discover Historic New England. Lavishly illustrated with 275 color and historic black-and-white photographs.

Great Houses of New England Roderic H. Blackburn, 2008 In the tradition of Rizzoli's Historic Houses of the Hudson Valley and The Houses of McKim, Mead & White, Great Houses of New England features a stunning array of newly photographed houses that range over four centuries and are distinctive examples of the architecture of the region—from the mid-seventeenth-century New England Colonial Judge Corwin House (Witches House) in Salem, MA., and the eighteenth-century Jeremiah Lee Mansion in Marblehead, MA., to the late-nineteenth-century McKim, Mead & White Shingle-Style Isaac Bell House in Newport, R.I. With lavish photography of sumptuously appointed interiors including many rarely seen rooms, wonderfully detailed house exteriors and gardens, and authoritative text by architectural historian Roderic H. Blackburn, Great Houses of New England

comprehensively considers the magnificent building styles of the region—including Early New England Colonial, Georgian, Federal, Greek Revival, Gothic Revival, Italianate, Shingle Style, Colonial Revival, and Tudor. *Great Houses of New England* is a landmark work of enduring interest to homeowners, architects, architecture historians, and all those who love fine architecture and interiors.

A Home Called New England Duo Dickinson, Steve Culpepper, 2017-11-15 New England is the oldest and most influential region of America. Although it has changed much through the centuries, it remains a place that even the Colonials may still recognize. Through a collection of photos, illustrations, history, and stories, this book explores the architectural history of New England

and how, although it has changed much through the centuries, it remains a place that even the Colonials might still recognize. The book begins with the influence of climate and geography on the architectural choices and follows with the basics of the well-known New England homes—the cape, the saltbox, the colonial—all of which were created to serve the very specific needs of this corner of America, the people, the land and the climate. We look at the earliest settlers, understanding the challenges they faced, and follow their descendants as they convert and adapt the traditional New England home into something still clearly New England but different, newer and, ultimately, even modern. We watch how the people and houses evolve and how they become what are still clearly identifiable as New England—and all over New England, from Connecticut's Gold Coast to the rocky shores of Maine. Sprinkled throughout the story of this evolution are sidebars such as A New England State of Mind and I Live Here, etc... where we meet the quintessential New England personalities and characters, who speak through letters, epitaphs, remembrances, books, newspapers, and others, and hear and see in their own words and images what they make or made of this place and life in it. People who buy this book will enjoy a very visual sense of what it's like to be a New Englander and what it's like to live in New England—whose houses have been copied and adapted in every state, city and neighborhood of America.

At Home in New England Richard Wills, 2013-12-06 The now venerable firm of Royal Barry Wills was founded in a one-room office on Boston's Beacon Street in 1925. Initially fueled by word of mouth and occasional newspaper exposure, the firm gained admiration for Wills's fresh take on various New England styles, including Georgian, Tudor, French Provincial, and Colonial American. Driven by the country's desire for both aesthetic appeal and practicality, the firm's popularity increased dramatically with its focus on the creation of modern homes inspired by the one-and-a-half-story Cape Cod houses, which perfectly balanced the classic and the new. Now run by his son, Richard Wills, the firm has been designing elegant private homes in the classically inspired Colonial New England tradition for more than eighty-five years. As time has passed, their Cape Cod-style homes have proven remarkably adaptable to the demands of contemporary life, while staying true to Wills's original flair for intermingling past and present. This book features examples of the firm's work from its founding to the present, with an emphasis on more recent houses that have been built throughout New England.
