*Student Ministry 101* Stewart Flageolle, 2023-02-04 Anger, frustration, and confusion. Chaos, and stress. Joy, love, and grace. All of these are the emotions I have felt in student ministry. Even right now as I sit here in my office writing, I find myself planning and preparing for the emotions that will come from student ministry. Preparing my mind, and my heart, for any of these or a mixture of them all, I know I will experience them. In this book we will navigate what student ministry looks like, and how to handle everything that comes with it.

*101 Ideas for Making Disciples in Your Youth Group* C. Kent Julian, 2008-11-04 As youth workers, we all have our vision—the plan we hope to make real in our ministries—to change the lives of teenagers as we introduce them to Jesus. But how often have you found yourself wondering if your picture is just wrong—or thinking you just don't know how to make your ministry match what you envision? In *101 Ideas for Making Disciples in Your Youth Group* you'll explore the idea of ACTS to create a disciple-making ministry with the elements needed to create an environment necessary to cultivate this mission. ACTS represents everything a missional youth ministry needs to be about: • Adoration—More than an act, this is a lifestyle that is fleshed out in expressions of prayerful dependence, deep gratitude, and expectancy in what God can do. • Community—This is an atmosphere of genuine caring, authentic relationships, and unity based on Christ's love for his Church and the Church's love for one another. • Truth-and-Grace—The basis of everything that is taught and valued, this is a setting where God's Word is the standard and central to belief and behavior. • Serving-and-Sharing—As a way of life, serving involves helping the whole person by ministering to both believers and the lost by meeting their needs, as well as verbally sharing God's message of grace. As you dig into each aspect of ACTS, you'll discover Jesus' style and see how he cultivated each element in his own ministry. Then you'll explore the youth ministry style of each aspect, where you'll find 25 hands-on, easy-to-implement ideas on how to cultivate the same element in your context in order to create an environment of disciple-making that finally fits your ministry.

**A New Vision for SBC Student Ministry** Richard Ross, 2021-11-15

**From Reconciliation to Revolution** David P. Cline, 2016-09-19 Conceived at the same conference that produced the Student Nonviolent Coordinating Committee (SNCC), the Student Interracial Ministry (SIM) was a national organization devoted to dismantling Jim Crow while simultaneously advancing American Protestant mainline churches' approach to race. In this book, David P. Cline details how, between the founding of SIM in 1960 and its dissolution at the end of the decade, the seminary students who created and ran the organization influenced hundreds of thousands of community members through its various racial reconciliation and economic justice projects. From inner-city ministry in Oakland to voter registration drives in southwestern Georgia, participants modeled peaceful interracialism nationwide. By telling the history of SIM—its theology, influences, and failures—Cline situates SIM within two larger frameworks: the long civil rights movement and the even longer tradition of liberal Christianity's activism for social reform. Pulling SIM from the shadow of its more famous twin, SNCC, Cline sheds light on an understudied facet of the movement's history. In doing so, he provokes an appreciation of the struggle of churches to remain relevant in swiftly changing times and shows how seminarians responded to institutional conservatism by challenging the establishment to turn toward political activism.

*Revolution (The Sixties Trilogy #2)* Deborah Wiles, 2014-05-27 \*A 2014 NATIONAL BOOK AWARD FINALIST\* It's 1964, and Sunny's town is being invaded. Or at least that's what the adults of Greenwood, Mississippi, are saying. All Sunny knows is that people from up north are coming to help people register to vote. They're calling it Freedom Summer. Meanwhile, Sunny can't help but feel like her house is being invaded, too. She has a new stepmother, a new brother, and a new sister crowding her life, giving her little room to breathe. And things get even trickier when Sunny and her brother are caught sneaking into the local swimming pool -- where they bump into a mystery boy whose life is going to become tangled up in theirs. As she did in her groundbreaking documentary novel COUNTDOWN, award-winning author Deborah Wiles uses stories and images to tell the riveting story of a certain time and place -- and of kids who, in a world where everyone is choosing sides, must figure out how to stand up for themselves and fight for what's right.

*Educating Egypt* Linda Herrera, 2022-03-01 The everyday practices, policy ideas, and ideological and political battles that have shaped Egyptian education, from the era of nation-building in the twentieth century to the age of digital disruption in the twenty-first. From the 1952 revolution onward, a main purpose of formal education in Egypt was to socialize children and youth into adopting certain attitudes and behaviors conducive to the regimes in power. Control by the state over education was never entirely hegemonic. National education came increasingly under pressure due to a combination of the growing privatization of the education sector, the growth of political Islam, and rapidly changing digital technologies. *Educating Egypt* traces the everyday practices, policy ideas, and ideological and political and economic contests over education from the era of nation-building in the twentieth century to the age of global change and digital disruption in the twenty-first. Its overarching theme is that schooling and education, broadly defined, have consistently mirrored larger debates about what constitutes the model citizen and the educated person. Drawing on three decades of ethnographic research inside Egyptian schools and among Egyptian youth, Linda Herrera asks what happens when education actors harbor fundamentally different ideas about the purpose, provision, and meaning of education. Her research shows that, far from serving as a unifying social force, education is in reality an ongoing battleground of interests, ideas, and visions of the good society.

The Jesus Club Brian Barcelona, 2017-02-14 How a Simple Act of Obedience Is Igniting Revival in Our Nation's Schools What happens when a

teenage convert from atheism hears a challenge from the Lord--and decides to act on it? This true story is the catalyst for a move of God that is taking the high schools of America for Jesus. Brian Barcelona, a dynamic leader on the forefront of youth evangelism, recounts how he answered God's call on his life with dramatic and miraculous results. Just a few months out of high school, Brian obeyed God's directive to return to his alma mater and preach the gospel to the kids in the Bible club. Suddenly lives began to be changed. Hearts were saved. Numbers grew. Soon other schools joined in, sparking a youth revival in which thousands of teens are letting Jesus heal their lives. This remarkable story will inspire you to reach out to others, particularly young people, and believe that God will equip you for the call he gives you. Let your heart be energized through simple acts of obedience and watch as God does mighty things!

**The Origins of the Cultural Revolution** Roderick MacFarquhar, 1983 The second volume in a trilogy which examines the politics, economics, culture and international relations of China from the mid-1950s to the mid-1960s, this volume tells the story of the Great Leap Forward--Mao's utopian attempt to propel China economically and socially into the twenty-first century by mobilizing his nation's greatest asset: its disciplined, manpower. The effort produced economic disaster and political dissension, and helped to precipitate the Sino-Soviet split. Today's leaders point to it as the beginning of two decades of national trauma, which ended only after the death of Mao and the purge of the Gang of Four. Those leaders have recently authorized the release of a mass of new documentation in the form of political reminiscences, economic statistics, and leaders' speeches. This volume is the first scholarly work to use the new material comprehensively, weaving it into the narrative along with the contemporary record and the revelations published in Red Guard newspapers during the cultural revolution. The result is the most detailed account and analysis to date of what went wrong and why.

**Nineteen Eighty-Four** George Orwell, 1949 Nineteen Eighty-Four: A Novel, often published as 1984, is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, Nineteen Eighty-Four centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

**The Imaginary Revolution** Michael M. Seidman, 2004 The events of 1968 have been seen as a decisive turning point in the Western world. The author takes a critical look at May 1968 and questions whether the events were in fact as revolutionary as French and foreign commentators have indicated. He concludes the student movement changed little that had not already been challenged and altered in the late fifties and early sixties. The workers' strikes led to fewer working hours and higher wages, but these reforms reflected the secular demands of the French labor movement. May

1968 was remarkable not because of the actual transformations it wrought but rather by virtue of the revolutionary power that much of the media and most scholars have attributed to it and which turned it into a symbol of a youthful, renewed, and freer society in France and beyond.

**Red Legacies in China** Jie Li, Enhua Zhang, 2020-10-26 What has contemporary China inherited from its revolutionary past? How do the realities and memories, aesthetics and practices of the Mao era still reverberate in the post-Mao cultural landscape? The essays in this volume propose “red legacies” as a new critical framework from which to examine the profusion of cultural productions and afterlives of the communist revolution in order to understand China’s continuities and transformations from socialism to postsocialism. Organized into five parts—red foundations, red icons, red classics, red bodies, and red shadows—the book’s interdisciplinary contributions focus on visual and performing arts, literature and film, language and thought, architecture, museums, and memorials. Mediating at once unfulfilled ideals and unmourned ghosts across generations, red cultural legacies suggest both inheritance and debt, and can be mobilized to support as well as to critique the status quo.

**Class, Ideologies and Educational Futures** D W. Livingstone, 2012-05-16 This book provides a systematic and detailed analysis of class relations in advanced capitalist societies as a basis for understanding both class differences in educational practices and the relative effects of class and other social background factors on public attitudes toward education. Secondly, the book offers an empirically-grounded summary of the contending educational ideologies in advanced capitalism, through a discourse analysis of the public statements of spokes-persons for major class groupings. Thirdly, using the data from several public opinion surveys in Ontario, profiles of public attitudes on critical education issues are interpreted in terms of the actual effects of class and other social background factors, as well as the mediating influences of contending ideologies. Finally a general approach and array of tactics for creating practical alternative educational and social futures are illustrated through the book.

**Women in Christianity in the Modern Age** Lisa Isherwood, Megan Clay, 2021-12-30 Women in Christianity in the Modern Age examines the role of women in Christianity in the 20th and early 21st Centuries. This edited volume includes eight important contributions from academics in the field. The modern era has been an age of social and religious upheaval, and the ravages of global warfare and changes to women’s role in society have made the examination of the place of women in religion a key question in theology. From theological concerns - engagements with the biblical texts by feminist and anti-feminist theologians, the modern role of Mary and women saints - to political and social debates on women’s ministry and place in society, and cultural shifts as expressed through theologically inspired artwork by women, Women in Christianity in the Modern Age provides an overview and in-depth studies of a tumultuous and changing era. This insightful text will be of key interest to students and scholars in Religion and Cultural Studies.

**Women and Revolution in Nicaragua** Helen Collinson,1990 The dramatic and significant changes that affected Nicaraguan women in the late 1980s are examined in this comprehensive presentation of the realities of women's lives in conditions of war and economic crisis. Written just prior to the February 1990 elections, this book covers things relevant to women in any Third World political climate and throws a new light on some aspects of issues that engage Western women's own concerns. Included are chapters dealing with women's movements; single mothers; reproduction and abortion; machismo and male violence; the double day; and survival in the face of the US economic blockade. The role of education, of the church and unions in women's liberation; women workers, rural and urban; women's involvement in defense; and debates around pornography are also explored. The central role of women in the peace and autonomy plans for the Atlantic Coast region is the focus of one chapter. Personal testimonies, case studies, interviews in quotations from Nicaragua newspapers, graphically highlight the viewpoints of the women themselves. How far the political changes consequent upon the 1990 election results will affect the Nicaraguan people remains to be seen, but that the women, who have demonstrated so much courage and initiative, will continue to work for the realization of their aspirations for a better life seems in no doubt.--Back cover.
