The New Destroyer: Guardian Angel Warren Murphy,James Mullaney,2007-05-01 THE DESTROYER NEVER DIES . . . VIVA LA REVOLUCION! When a dozen border patrol volunteers are murdered in New Mexico, apparent victims of Mexican nationals, Dr. Harold W. Smith of the super-secret agency CURE worries the first salvo in a new border dispute has been fired. His worst fears are realized with the appearance of the charismatic Santa Ana, a uniformed, would-be despot with a silver tongue and a thirst for bloody revolution. General Santa Anna has redrawn the border between the U.S. and Mexico to fit his own twisted version of reality, and thousands of illegal aliens are drawn to his message of liberation. The Southwest is on fire, and as the revolution explodes the entire nation is at risk. It seems the brazen general has planned for every eventuality. Except one... Mostly MIA for the past four years, Remo Williams, CURE's one man enforcement arm, has returned to the U.S. just in time to prevent Armageddon. With his Korean mentor Chiun, the Master of Sinanju, at his side, America just might live to see mañana. But it turns out Santa Anna is not the only threat to The Destroyer. Remo not only must save the United States from civil war, he must square off against the only woman who ever killed him... The Birthright Lottery Ayelet Shachar,2009-04-30 The vast majority of the global population acquires citizenship purely by accidental circumstances of birth. There is little doubt that securing membership status in a given state bequeaths to some a world filled with opportunity and condemns others to a life with little hope. Gaining privileges by such arbitrary criteria as one's birthplace is discredited in virtually all fields of public life, yet birthright entitlements still dominate our laws when it comes to allotting membership in a state. In *The Birthright Lottery*, Ayelet Shachar argues that birthright citizenship in an affluent society can be thought of as a form of property inheritance: that is, a valuable entitlement transmitted by law to a restricted group of recipients under conditions that perpetuate the transfer of this prerogative to their heirs. She deploys this fresh perspective to establish that nations need to expand their membership boundaries beyond outdated notions of blood-and-soil in sculpting the body politic. Located at the intersection of law, economics, and political philosophy, *The Birthright Lottery* further advocates redistributive obligations on those benefiting from the inheritance of membership, with the aim of ameliorating its most glaring opportunity inequalities.

Journeys North Barney Scout Mann,2020-08-01 2020 Banff Mountain Book Competition Finalist in Adventure Travel In *Journeys North*, legendary trail angel, thru hiker, and former PCTA board member Barney Scout Mann spins a compelling tale of six hikers on the Pacific Crest Trail in 2007 as they walk from Mexico to Canada. This ensemble story unfolds as these half-dozen hikers--including Barney and his wife, Sandy--trode north, slowly forming relationships and revealing their deepest secrets and aspirations. They face a once-in-a-generation drought and early severe winter storms that test their will in this bare-knuckled adventure. In fact, only a third of all the hikers who set out on the trail that year would finish. As the group approaches Canada, a storm rages. How will these very different hikers, ranging in age, gender, and background, respond to the hardship and suffering ahead of them? Can they all make the final 60-mile push through freezing temperatures, sleet, and snow, or will some reach their breaking point? *Journeys North* is a story of grit, compassion, and the relationships people forge when they strive toward a common goal.

Creating Mexican Consumer Culture in the Age of Porfirio Díaz Steven B. Bunker,2012-12-15 In Gabriel García Márquez's novel *One Hundred Years of Solitude*, a character articulates the fascination goods, technology, and modernity held for many Latin Americans in the early twentieth century when he declares that "incredible things are happening in this world." The modernity he marvels over is the new availability of cheap and useful goods. Steven Bunker's study shows how goods and consumption embodied modernity in the time of Porfirio Díaz, how they provided proof to Mexicans that "incredible things are happening in this world." In urban areas, and especially Mexico City, being a consumer increasingly defined what it meant to be Mexican. In an effort to reconstruct everyday life in Porfirian Mexico, Bunker surveys the institutions and discourses of consumption and explores how individuals and groups used the goods, practices, and spaces of urban consumer culture to construct meaning and identities in the rapidly evolving social and physical landscape of the capital city and beyond. Through case studies of tobacco marketing, department stores, advertising, shoplifting, and a famous jewelry robbery and homicide, he provides a colorful walking tour of daily life in Porfirian Mexico City. Emphasizing the widespread participation in this consumer culture, Bunker's work overturns conventional wisdom that only the middle and upper classes participated in this culture.

Angel of the Anzacs Carole Van Grondelle,2000 Nora Luxford's life spanned the twentieth century and circled the globe, taking her from turn-of-the-century Hawke's Bay, to Hollywood's golden age, and the elite circles of New York society. She became well-known in New Zealand for her radio broadcasts, but it was the Anzac club, which touched the lives of thousands of young New Zealand and Australian servicemen, that she considered was her greatest achievement.

Angel Fire Christine Pope, The winter brings more than just a chill... When strange forces begin to threaten her hometown, it's up to Kirsten Swenson to save her friends and family from certain destruction. Agreeing to work with a mysterious Man in Black proves to be more than Kirsten ever bargained for, because Agent Martin Jones is far more than he seems. With his ability to awaken the powers that have lain dormant within her, Martin draws out the shocking secrets that were buried in Kirsten's past, while also encouraging her to give in to her heart. But when the aliens force her to make the ultimate sacrifice, Kirsten realizes that sometimes following her heart isn't enough. The Endless Periphery Stephen J. Campbell,2019-11-26 While the masterpieces of the Italian Renaissance are usually associated with Italy's historical seats of power, some of the era's most characteristic works are to be found in places other than Florence, Rome, and Venice. They are the product of the diversity of regions and cultures that makes up the country. In *Endless Periphery*,

Stephen J. Campbell examines a range of iconic works in order to unlock a rich series of local references in Renaissance art that include regional rulers, patron saints, and miracles, demonstrating, for example, that the works of Titian spoke to beholders differently in Naples, Brescia, or Milan than in his native Venice. More than a series of regional microhistories, *Endless Periphery* tracks the geographic mobility of Italian Renaissance art and artists, revealing a series of exchanges between artists and their patrons, as well as the power dynamics that fueled these exchanges. A counter history of one of the greatest epochs of art production, this richly illustrated book will bring new insight to our understanding of classic works of Italian art.

How Did God Do It? A Symphony of Science and Scripture Walt Huber, Rose Huber, 2013-12 Have you ever wondered... How Did God Do It? How did God perform the many miracles and supernatural events described in the Holy Bible - without violating the laws of physics and chemistry that He Himself put into place? And without conflicting with the basic tenets of Judaism and Christianity? This book proposes a theory that marries faith and rationality in a symphony of science and scripture....

Angels of the Americlypse: An Anthology of New Latin@ Writing Carmen Giménez Smith, John Chávez, 2014-06-18 The contemporary literary moment the anthology *Angels of the Americlypse: New Latin@ Writing* attempts to capture is one defined by diversity, various points of view, literary styles and voices, topical concerns, and senses of self. Not only have these writers widened the field, they have forged new inquiry into their own experiences of the world, as they live in it and understand it. Writing in forms of lyric, short short fiction, nonfictional prose, and in various degrees and forms of experimentation, this collection represents one of the first efforts, in years, to include a critical introduction to the writers' poetry or prose, their literary work, and their own aesthetic statements meant to express their distinct literary presence in American letters.
