**Tenancy Law and Housing Policy in Europe** Christoph U. Schmid, 2018-01-26  
Tenancy law has developed in all EU member states for decades, or even centuries, but constitutes a widely blank space in comparative and European law. This book fills an important gap in the literature by considering the diverse and complex panorama of housing policies, markets and their legal regulation across Europe. Expert contributors argue that while unification is neither politically desired nor opportune, a European recommendation of best practices including draft rules and default contracts implementing a regulatory equilibrium would be a rewarding step forward.

**Broken Time Blues** Jaym Gates,Erika Holt,2014-07-19 Sandwiched between the horrors of the two Great Wars, the 1920s stand out as a glittering, transformative spectacle in history. Spurred by World War I, waves of immigration, innovation, and cultural change surged through America and the rest of the world. Not for nothing does that era bear the names the Roaring 20s, the Golden Twenties, and the Jazz Age. It was brief, glitzy, seedy, and marked by competing tensions; perhaps destined to crash in spectacular fashion. For fictional purposes, the grit and glamour of the decade combine into the headiest of potions. Flappers and jazz stars; ugly racial inequalities; veterans in hidden gin joints drowning their sorrows with cheap alcohol brought from the mountains by men with fast cars and faster tongues. Broken Time Blues captures the raging spirit of the times, both light and dark, and adds a twist of fantasy and science fiction. Come on a ride with us, through the speakeasies and the mountain stills. Grab a drink and read stories about things that might have been, or maybe were. Illustrated by Galen Dara and Evan Jensen. Within the Frame David duChemin, 2009-05-01 Within the Frame is a book about finding and expressing your photographic vision, specifically where people, places, and cultures are concerned. A personal book full of real-world wisdom and incredible images, author David duChemin (of pixelatedimage.com) shows you both the how and the why of finding, chasing, and expressing your vision with a camera to your eye. Vision leads to passion, and passion is a cornerstone of great photography. With it, photographs draw the eye in and create an emotional experience. Without it, a photograph is often not

worth—and can't capture—a viewer's attention. Both instructional and inspirational, *Within the Frame* helps you on your photographic journey to make better images of the places and people you love, whether they are around the world or in your own backyard. duChemin covers how to tell stories, and the technology and tools we have at our disposal in order to tell those narratives. Most importantly, he stresses the crucial theme of vision when it comes to photographing people, places, and cultures—and he helps you cultivate and find your own vision, and then fit it within the frame.

**The Comic Art of War** Christina M. Knopf, 2015-07-14 For military cartoonists the absurdity of war inspires a laugh-or-cry response and provides an endless source of un-funny amusement. Cartoons by hundreds of artists-at-arms from more than a dozen countries and spanning two centuries are included in this study--the first to consider such a broad range of military comics. War and military life are examined through the inside jokes of the men and women who served. The author analyzes themes of culture, hierarchy, enemies and allies, geography, sexuality, combat, and civilian relations and describes how comics function within a community. A number of artists included were known for their work with Disney, Marvel Comics, the New Yorker and Madison Avenue but many lesser known artists are recognized.

**The Biba Years** Barbara Hulanicki, Martin Pel, 2014-09-23 Founded as a boutique mail-order service in 1963, Biba--the brainchild of designer Barbara Hulanicki--quickly gained cult status, and outgrew several London premises before landing at 99-117 Kensington High Street in 1973 as Big Biba, the most beautiful store in the world. This book tells the story of the Biba years, from the first ensembles through the four London shops, to the eventual flourishing of a lifestyle brand that revolutionized British retail and fashion culture.

*Discounting Life* Jothie Rajah, 2022-11-03 Extrajudicial, extraterritorial killings of War on Terror adversaries by the US state have become the new

normal. Alongside targeted individuals, unnamed and uncounted others are maimed and killed. Despite the absence of law's conventional sites, processes, and actors, the US state celebrates these killings as the realization of 'justice.' Meanwhile, images, narrative, and affect do the work of law; authorizing and legitimizing the discounting of some lives so that others – implicitly, American nationals – may live. How then, as we live through this unending, globalized war, are we to make sense of law in relation to the valuing of life? Adopting an interdisciplinary approach to law to excavate the workings of necropolitical law, and interrogating the US state's justifications for the project of counterterrorism, this book's temporal arc, the long War on Terror, illuminates the profound continuities and many guises for racialized, imperial violence informing the contemporary discounting of life.

A Good Year for the Roses Gil McNeil, 2014-07-01 Life hasn't been a bed of roses for Londoner Molly Taylor lately. Newly divorced and struggling to find a new home and a way to support her three boys, she's stunned when her beloved Aunt Helena dies and leaves her Harrington Hall, a three-hundred-year-old manor house on the Devon coast, where Molly grew up. But does Molly really want to run a bed-and-breakfast in an old house where the only thing that doesn't need urgent attention is Aunt Helena's beautiful rose garden? Or care for Uncle Bertie, an eccentric former navy officer with a cliff-top cannon? Or Betty, his rude parrot that bites whomever annoys it? Yet Molly's

best friend Lola is all for the plan. My heart bleeds. Your very own beach, the beautiful house, and Helena's garden. All you have to do is grill a bit of bacon. But with Molly's conniving brother running the family hotel nearby, the return of a high school flame with ulterior motives, and three sons whose idea of a new country life seems to involve vast quantities of mud, this is not going to be easy. And then Harrington Hall begins to work its magic, and the roses start to bloom... Warm, witty, and chock-full of quintessential British charm, *A GOOD YEAR FOR THE ROSES* is a story for anyone who has ever dreamed of starting over...with or without bacon.

**Photographically Speaking** David duChemin, 2011-10-11 When looking at a photograph, too often a conversation starts—and, unfortunately, ends—with a statement such as, “I like it.” The logical next question, “Why?”, often goes unasked and unanswered. As photographers, we frequently have difficulty speaking about images because, frankly, we don’t know how to think about them. And if we don’t know how to think about a photograph and its “visual language”—how an image is constructed, how it works, and why it works—then, when we’re behind the camera, are we really making images that best communicate our vision, our original intent? Vision—crucial as it is—is not the ultimate goal of photography; expression is the goal. And to best express ourselves, it is necessary to learn and use the grammar and vocabulary of the visual language. *Photographically Speaking* is about learning photography’s visual language to better speak to why and how a photograph succeeds, and in

turn to consciously use that visual language in the creation of our own photographs, making us stronger photographers who are able to fully express and communicate our vision. By breaking up the visual language into two main components—"elements" make up its vocabulary, and "decisions" are its grammar—David duChemin transforms what has traditionally been esoteric and difficult subject matter into an accessible and practical discussion that photographers can immediately use to improve their craft. Elements are the "words" of the image, what we place within the frame—lines, curves, light, color, contrast. Decisions are the choices we make in assembling those elements to best express and communicate our vision—the use of framing, perspective, point of view, balance, focus, exposure. All content within the frame has meaning, and duChemin establishes that photographers must consciously and deliberately choose the elements that go within their frame and make the decisions about how that frame is constructed and presented. In the second half of the book, duChemin applies this methodology to his own craft, as he explores the visual language in 20 of his own images, discussing how the intentional choices of elements and decisions that went into their creation contribute to their success.

*A Tinker in Blue Anchor* James Haydock, 2014-04-23 After a checkered career at sea and on land Leo Mack settles down in Blue Anchor shortly before the Civil War. A solitary man living in Ida Crabtree's boarding house, he earns his living as a tinker but finds his worth and mission when the war begins.

As a traveling tinker he carries news of military events to isolated farmhouses and becomes in effect a broadcaster of war news. In time just about every person in the county knows Leo by name but nothing of his background. Isaac Brandimore takes it upon himself to tell Mack's story but dies before the work is finished. Emily Kingston comes forward to salvage the story and finish it, but not before Leo dies. Concluding the project, she observes that Leo Mack in tattered work clothes was "animated in good times and bad by blood and brain and spirit." His death, she tells us, diminished Blue Anchor.
