**Words are Weapons** Philippe-Joseph Salazar, 2017-01-01 The first book to offer a rigorous, sophisticated analysis of ISIS's rhetoric and why it is so persuasive ISIS wages war not only on the battlefield but also online and in the media. Through a close examination of the words and images ISIS uses, with particular attention to the digital caliphate on the web, Philippe-Joseph Salazar theorizes an aesthetic of ISIS and its self-presentation. As a philosopher and historian of ideas, well versed in both the Western and the Islamic traditions, Salazar posits an interpretation of Islam that places speech--the profession of faith--at the center of devotion and argues that evocation of the simple yet profound utterance of faith is what gives power to the rhetoric that ISIS and others employ. At the same time, Salazar contends that Western discourse has undergone a rhetorical disarmament. To win the fight against ISIS and Islamic extremism, Western democracies, their media, politicians, and counterterrorism agencies must consider radically changing their approach to Islamic extremism.

Language Variation on Jamaican Radio Michael Westphal, 2017-12-14 This volume presents an in-depth analysis of language variation in Jamaican radio newscasts and talk shows. It explores the interaction of global and local varieties of English with regard to newscasters' and talk show hosts' language use and listeners' attitudes. The book illustrates the benefits of an integrated approach to mass media: the analysis takes into account radio talk and the perception of the audience, it is context-sensitive, paying close attention to variation within and between genres, and it combines quantitative and qualitative approaches to demonstrate the complexity of language in the media. The book contributes to our understanding of the dynamics of World Englishes in the 21st century and endonormative stabilization processes in linguistically heterogeneous postcolonial speech communities, and shows how mass media both challenge and reproduce sociolinguistic stratification. This volume will be relevant for researchers interested in the fields of sociolinguistics, language attitudes, and language in the media.

**Methods of Historical Analysis in Electronic Media** Donald G. Godfrey, 2006-08-15 *Methods of Historical Analysis in Electronic Media* provides a foundation for historical research in electronic media by addressing the literature and the methods--traditional and the eclectic methods of scholarship as applied to electronic media. It is about history--broadcast electronic media history and history that has been broadcast, and also about the historiography, research written, and the research yet to be written. Divided into five parts, this book: \*addresses the challenges in the application of the historical methods to broadcast history; \*reviews the various methods appropriate for electronic-media research based on the nature of the object under study; \*suggests new approaches to popular historical topics; \*takes a broad topical look at history in broadcasting; and \*provides a broad overview of what has been accomplished, a historian's challenges, and future research. Intended for students and researchers in broadcast history, *Methods of Historical Analysis in Electronic Media* provides an understanding of the qualitative methodological tools necessary for the study of electronic media history, and illustrates how to find primary sources for electronic media research.

Taking Flight Kristen Alexander, 2016-03-01 From her first taste of the air when she joined Bert Hinkler in the cockpit for a joy ride in 1928, Lores Bonney was hooked. With her aviation licence and the support of her husband, she took to Australian and international skies and braved the challenge of long-distance flying. *Taking Flight* draws from the National Library of Australia's rich archives and manuscript collection to present the tale of Lores Bonney, the first woman to circumnavigate the Australian continent by air, the first woman acknowledged to fly from Australia to England, and the first solo pilot to fly from Australia to Cape Town, South Africa. Aviation writer Kristen Alexander intimately illuminates the woman behind the audacious pilot, exploring her highs and lows and struggle to gain and maintain her place as one of Australia's great aviation pioneers.

**In Other Words, Leadership** Shannon A. Mullen, 2023-06-20 "A remarkable story of work, worry, art, faith, community, life, and hope. An instant classic." — Heather Cox Richardson A heartfelt and moving story . . . Just as important, it's also a well-timed lesson in civics. — Richard Russo, author of *Empire Falls* Two unforgettable women from opposite poles of power in Maine forge an uplifting bond through good, old-fashioned letter writing that helps them navigate the COVID crisis Both women bring civility, grace, wit, and wisdom to the challenge of protecting those who depend on them — in other words, leadership This trip to the "Vacationland" of Maine — where the state motto is I Lead — offers an inspiring tale of civility and purpose, of doing the right thing and not just surviving, but prevailing. The first woman to serve as governor of Maine, Janet Mills, had been in office a year when COVID-19 reached the United States. The recently-widowed 72-year-old wrote in her journal there is "no playbook for a pandemic" as she imposed unprecedented restrictions on her state. When early support for the governor's response curdled to rampant opposition, a young mother named Ashirah Knapp sent a letter of support from a remote homestead in the woods of Maine. Ashirah's handwritten dispatch detailed how the public health emergency was upending her family's life and livelihood, and she promised to keep writing "every week until we are through this time" to remind the governor how many Mainers supported her despite the disruption. Ashirah's letters, with their simple wisdom and striking penmanship, stood out in a flood of correspondence Governor Mills was receiving that ranged in tone from appreciative to furious. They helped keep her grounded as she made wrenching, often unpopular choices. Shannon A. Mullen weaves from these two women's letters and the governor's journal, which were never intended for publication, an intimate and compelling true story that is a celebration of civility and compassion in the face of rancor and of resolve in the face of

adversity.

**The Oxford Handbook of Apocalyptic Literature** John J. Collins, 2014-03-17 Apocalypticism arose in ancient Judaism in the last centuries BCE and played a crucial role in the rise of Christianity. It is not only of historical interest: there has been a growing awareness, especially since the 2001 terrorist attacks on the United States, of the prevalence of apocalyptic beliefs in the contemporary world. To understand these beliefs, it is necessary to appreciate their complex roots in the ancient world, and the multi-faceted character of the phenomenon of apocalypticism. The Oxford Handbook of Apocalyptic Literature is a thematic and phenomenological exploration of apocalypticism in the Judaic and Christian traditions. Most of the volume is devoted to the apocalyptic literature of antiquity. Essays explore the relationship between apocalypticism and prophecy, wisdom and mysticism; the social function of apocalypticism and its role as resistance literature; apocalyptic rhetoric from both historical and postmodern perspectives; and apocalyptic theology, focusing on phenomena of determinism and dualism and exploring apocalyptic theology's role in ancient Judaism, early Christianity, and Gnosticism. The final chapters of the volume are devoted to the appropriation of apocalypticism in the modern world, reviewing the role of apocalypticism in contemporary Judaism and Christianity, and more broadly in popular culture, addressing the increasingly studied relation between apocalypticism and violence, and discussing the relationship between apocalypticism and trauma, which speaks to the underlying causes of the popularity of apocalyptic beliefs. This volume will further the understanding of a vital religious phenomenon too often dismissed as alien and irrational by secular western society.

How the News Media Fail American Voters Kenneth Dautrich, Thomas H. Hartley, 1999 It is often noted that the public is frustrated with the news media. But what do American voters really think about how the media present political information? While studies have examined how the news shapes opinions as well as what people respond to and remember, this is the first book to provide an in-depth analysis of how voters use and evaluate the news media in political elections and the impact these trends have on their use of the news. Kenneth Dautrich and Thomas H. Hartley performed a four-wave national panel survey of voters during the 1996 presidential campaign. They found that although voters are profoundly dissatisfied with the usefulness of news in helping them make decisions, they are unlikely to stop using the news media or switch media (from network news to public broadcasting, for instance). Thus the media have little incentive to adjust to the needs or wishes of voters. Here is an important contribution to the debate about the responsibilities of the news media raging among pundits and policymakers.
