Stop Reading the News Rolf Dobelli,2021-01-07 News is to the mind what sugar is to the body. In 2013 Rolf Dobelli stood in front of a roomful of journalists and proclaimed that he did not read the news. It caused a riot. Now he finally sets down his philosophy in detail. And he practises what he preaches: he hasn't read the news for a decade. Stop Reading the News is Dobelli's manifesto about the dangers of the most toxic form of information - news. He shows the damage it does to our concentration and well-being, and how a misplaced sense of duty can misdirect our behaviour. From the author of the bestselling The Art of Thinking Clearly, Rolf Dobelli's book offers the reader guidance about how to live without news, and the many potential gains to be had: less disruption, more time, less anxiety, more insights. In a world of increasing disruption and division, Stop Reading the News is a welcome voice of calm and wisdom.

Ugly War, Pretty Package Deborah L. Jaramillo,2009-09-25 Deborah L. Jaramillo investigates cable news' presentation of the Iraq War in relation to high concept filmmaking. High concept films can be reduced to single-sentence summaries and feature pre-sold elements; they were considered financially safe projects that would sustain consumer interest beyond their initial theatrical run. Using high concept as a framework for the analysis of the 2003 coverage of the Iraq War -- paying close attention to how Fox News and CNN packaged and promoted the U.S. invasion of Iraq -- Ugly War, Pretty Package offers a new paradigm for understanding how television news reporting shapes our perceptions of events.

Television Networks David Blevins,2006 This work offers a comprehensive listing of more than 750 channels and networks widely available in the U.S. and Canada. Programming genres vary widely and include news, sports, movies, music, religion, and more. The alphabetically arranged entries give channel name, contact information, launch date and first broadcast day--Provided by publisher.

The Rise of 24-hour News Television Stephen Cushion,Justin Lewis,2010 De-westernising journalism studies in an intelligent way, this book deserves to be read around the world.---Professor James Curran, Goldsmiths, University of London, United Kingdom --

Primetime Pundits Lynn Letukas,2014-09-04 Primetime Pundits explores the ascent of punditry and offers a new approach for understanding how social issues are covered in the changing media landscape. Based on extensive research of primetime news coverage of social issues, Letukas analyzes how pundits have come to dominate our national political dialogue over the past thirty years.

Television News Ivor Yorke,1995 Formerly The Technique of Television News, this third edition is almost completely rewritten with new illustrations to take account of developments from both a technological and an editorial perspective. It covers a wide range of techniques including the writing and construction of TV news reports, and leads the reader through basic journalistic skills to a detailed description of how a typical newscast is transmitted.

Interpreting News Graham Meikle,2017-09-16 This core introductory text offers a comprehensive overview of how news has been theorised and understood in key media studies traditions. It explores how news is constructed, distributed and received and includes up-to-date examples and discussion of contemporary issues such as the uses of new technologies in news media.

Red Fighting Blue David A. Hopkins,2017-09-25 The national electoral map has split into warring regional bastions of Republican red and Democratic blue, producing a deep and enduring partisan divide in American politics. In Red Fighting Blue, David A. Hopkins places the current partisan

and electoral era in historical context, explains how the increased salience of social issues since the 1980s has redefined the parties' geographic bases of support, and reveals the critical role that American political institutions play in intermediating between the behavior of citizens and the outcome of public policy-making. The widening geographic gap in voters' partisan preferences, as magnified further by winner-take-all electoral rules, has rendered most of the nation safe territory for either Democratic or Republican candidates in both presidential and congressional elections - with significant consequences for party competition, candidate strategy, and the operation of government.

Journalism, fake news & disinformation Ireton, Cherilyn, Posetti, Julie, 2018-09-17

Managing Television News B. William Silcock, Don Heider, Mary T. Rogus, 2009-03-04 Managing Television News provides a practical introduction to the television news producer, one of the most significant and influential roles in a newscast. Recognizing the need for formal training in this key role, authors B. William Silcock, Don Heider, and Mary T. Rogus have combined their expertise and experience to shape this essential resource on the responsibilities, demands, and rewards of the news producer position. Their book provides a strategic approach to producing newscasts and serves as an in-depth guide to creating quality, audience-friendly newscasts working within the realistic limitations of most newsrooms. It helps the student and the professional producer sort through the various deadline-driven challenges of creating a 30-minute newscast. Filled with real-world examples and advice from news directors, producers, and anchors currently in the business, and photographs illustrating the varied perspectives in the position, Managing Television News provides critical skill sets to help resolve ethical dilemmas, as well as keen and fresh insights on how to win the ratings without compromising news quality. Career concerns are also addressed. This resource is a pioneering book for the professional television newsroom and the individual reader interested in starting or expanding a producing career. It is an excellent text for the college classroom, as its structure fits neatly into a semester schedule, and it is a must-have resource for both seasoned and novice producers, as well as students in broadcast news.

News Framing Effects Sophie Lecheler, Claes H. de Vreese, 2018-09-03 News Framing Effects is a guide to framing effects theory, one of the most prominent theories in media and communication science. Rooted in both psychology and sociology, framing effects theory describes the ability of news media to influence people's attitudes and behaviors by subtle changes to how they report on an issue. The book gives expert commentary on this complex theoretical notion alongside practical instruction on how to apply it to research. The book's structure mirrors the steps a scholar might take to design a framing study. The first chapter establishes a working definition of news framing effects theory. The following chapters focus on how to identify the independent variable (i.e., the news frame) and the dependent variable (i.e., the framing effect). The book then considers the potential limits or enhancements of the proposed effects (i.e., the moderators) and how framing effects might emerge (i.e., the mediators). Finally, it asks how strong these effects are likely to be. The final chapter considers news framing research in the light of a rapidly and fundamentally changing news and information market, in which technologies, platforms, and changing consumption patterns are forcing assumptions at the core of framing effects theory to be re-evaluated.

Summary of Corrections, 1977

Telecommunications Lynne S. Gross, 1995 Provides a straightforward account of the radio and television industries and their history, structure, programming practices, equipment, distribution networks, business practices and the laws and regulations surrounding the industry.

The News and Public Opinion Maxwell McCombs, 2011-10-10 The daily news plays a major role in the continuously changing mix of thoughts, feelings and behavior that defines public opinion. The News & Public Opinion details these effects of the news media on the sequence of outcomes that collectively shape public opinion, beginning with initial attention to the various news media and their contents and extending to the effects of this exposure on the acquisition of information, formation of attitudes and opinions and to the consequences of all these elements for participation in public

life. Sometimes called the hierarchy of media effects, this sequence of outcomes describes the communication process involved in the formation of public opinion. Although the media landscape is undergoing rapid change, key elements remain the same, and The News & Public Opinion emphasizes these basic principles of communication established over decades of empirical social science investigations into the impact of mass communication on public opinion. The primary audience for this book is students, both advanced undergraduates and graduate students, as well as members of the general public who want to understand the role of the news media in our civic life.

The Power of Partisanship Joshua J. Dyck,Shanna Pearson-Merkowitz,2023 In The Power of Partisanship, Joshua J. Dyck and Shanna Pearson-Merkowitz argue that the growth in partisan polarization in the United States, and the resulting negativity voters feel towards their respective opposition party, has far-reaching effects on how Americans behave both inside and outside the realm of politics. In fact, no area of social life in the United States is safe from partisan influence. As a result of changes in the media landscape and decades of political polarization, voters are stronger partisans than in the past and are more likely to view the opposition party with a combination of confusion, disdain, and outright hostility. Yet, little of this hostility is grounded in specific policy preferences. Even ideology lacks meaning in the United States: conservative and liberal are what Republicans and Democrats have labeled conservative and liberal. Dyck and Pearson-Merkowitz show how partisanship influences the electorate's support for democratic norms, willingness to engage in risk related to financial and healthcare decisions, interracial interactions, and previously non-political decisions like what we like to eat for dinner. Partisanship prevents people from learning from their interactions with friends or the realities of their neighborhoods, and even makes them oblivious to their own economic hardship. The intensity and pervasiveness of partisanship in politics today has resulted in political knowledge becoming an endogenous feature of strong partisanship and a poor proxy for anything but partisan behavior. Dyck and Pearson-Merkowitz present evidence that pure independents are, in fact, very responsive to information because they are not biased by partisan elite cues and important and relevant political information is often local, contextual, and personal. Drawing on a series of original surveys and experiments conducted between 2014 and 2020, Dyck and Pearson-Merkowitz show how the dominance of partisanship as a decision cue has fundamentally transformed our understanding of both political and non-political behavior.

News Flash Bonnie Anderson,2004-06-11 As someone who has worked both as a broadcast reporter and a network executive, Anderson has seen the good, the bad, and the ugly in the industry. Using investigative reporting and personal memoir, she now chronicles the decline of television journalism into infotainment.
