Syracuse Television Christie Casciano Burns,Tim Fox,Lou Gulino,2013 Central New Yorkers have been treated to many memorable television moments since December 1, 1948, when WHEN-TV Channel 8 signed on the air for the first time. In a record 16 days after equipment arrived at its 101 Court Street site, the station was miraculously up and running. Syracuse's pioneer broadcasters were eager to explore this bold, new world with programs that would entertain, educate, and inform. Syracuse Television features the zaniness of Baron Daemon, lessons from the Magic Toy Shop, and live fun from Jim Deline and the Gang and The Markert Place. Over the years, personalities and programs became familiar to Central New Yorkers. There was news coverage from Fred Hillegas, Ron Curtis, Rod Wood, and Carrie Lazarus and weather forecasts from Stormy Meredith, Big Al Roker, Dave Eichorn, and Wayne Mahar.

Summer Fury Gary Travers,2014-01-20 Considered the finest local TV news anchor in the business, Sue McPhee walked away from a great job at Channel 6 in Los Angeles. She's taken an offer at Channel 9 in Miami, and it's for less money - but she's just seeking a lifestyle change at this point. Sue thought making the move from the number two media market to number sixteen would bring her a slower pace and a little of that Margaritaville state of mind. But not a chance. NewsChannel 9 is staffed by the people anyone who has ever worked in TV news will instantly recognize. For the reader who's only been a consumer of this product, get ready to see the grit behind the glamour - as ambition, lust, ego, manipulation and deceit run rampant. Add in the county medical examiner who thinks Florida's 'presumed consent' law lets him do anything he wishes with bodies in his custody, plus a vindictive and violent ex-husband and a vicious narco-terrorist who's among the FBI's Ten Most Wanted. It's set against the exotic backdrop of Miami, 'America's Casablanca', just as a hurricane with winds equal to an EF5 tornado mysteriously explodes into existence. Summer Fury is filled with unforgettable characters, and offers the most realistic look you will ever have at the inner workings of a TV newsroom, courtesy of an author who spent over 20 years as a TV weatherman in Miami. The attention to detail in the story is painstaking, and the reader will also learn many interesting facts from this tale as well, about the TV news business, Miami, hurricanes, and more. Between 1981 and 2004, author Gary Travers was on-air, at separate times, for WPLG Channel 10 (ABC), WFOR Channel 4 (CBS), and WTVJ Channel 6 (NBC).

The Comic Con Jake Bell,2011 Nate, Teddy, and Fiona are preparing for one of the biggest days of the year--Kanigher Kon, their city's annual comic convention. Meanwhile, Nate and Ultraviolet hear that someone has been auditioning supervillains for a big job. The challenge is to pull off the world's biggest heist. The day of the convention arrives and Nate and his friends discover that a group of supervillains have formed an alliance in an attempt to steal a valuable comic book. Who will swoop in to save the day?--P. [4] of cover.

The Political Economy of the Spectacle and Postmodern Caste John Asimakopoulos,2019-10-01 In The Political Economy of the Spectacle and Postmodern Caste, John Asimakopoulos analyzes the political economy of the spectacle conceptualized by philosophers like Guy Debord through a broad interdisciplinary-nonsectarian approach concluding every society is a caste system legitimized by ideology.

Protecting Whiteness Cameron D. Lippard,J. Scott Carter,David G. Embrick,2020-12-15 The standoff at Cliven Bundy's ranch, the rise of white identity activists on college campuses, and the viral growth of white nationalist videos on YouTube vividly illustrate the resurgence of white supremacy and overt racism in the United States. White resistance to racial equality can be subtle as well—like art museums that enforce their boundaries as elite

white spaces, “right on crime” policies that impose new modes of surveillance and punishment for people of color, and environmental groups whose work reinforces settler colonial norms. In this incisive volume, twenty-four leading sociologists assess contemporary shifts in white attitudes about racial justice in the US. Using case studies, they investigate the entrenchment of white privilege in institutions, new twists in anti-equality ideologies, and “whitelash” in the actions of social movements. Their examinations of new manifestations of racist aggression help make sense of the larger forces that underpin enduring racial inequalities and how they reinvent themselves for each new generation.

Outdoor Lighting for Pedestrians Frank Markowitz, 2021-12-30 Outdoor Lighting for Pedestrians shows how outdoor lighting is important for pedestrians’ safety, personal security, and comfort, with major impacts on street, path, and park aesthetics and neighborhood sense of place. Providing clear, basic technical background (accessible to non-engineers), the book focuses especially on planning and policy concerns. It covers the fundamentals of lighting technology; benefits, costs, and possible adverse impacts of lighting enhancements; traditional and innovative approaches; planning and policy documents and practices; aesthetics and placemaking; and technology trends in lighting design. This book is aimed primarily at practicing transportation planners and engineers, generalist urban planners, safety advocates and researchers, and university students. However, lighting designers and other professionals will also find it useful. It considers how lighting can be coordinated with other potential improvements to enhance the pedestrian environment for better walkability.

Rethinking the Color Line Charles A. Gallagher, 2021-12-16 Rethinking the Color Line is a collection of theoretically-informed and empirically-grounded readings on race and race relations that illustrate how race and ethnicity influence aspects of social life in ways that are often made invisible by culture, politics and economics.

More After the Break Jen Maxfield, 2022-07-12 A reporter uncovers the rest of the story In More After the Break, Jen Maxfield revisits ten memorable stories from her career as a TV news reporter, describing in heart-pounding detail how the events unfolded and revealing what happened after the cameras went away. She introduces readers to unforgettable people who will inspire you with their hopefulness, even when confronting life’s greatest heartbreaks: a young man who lost both legs in a ferry crash, an endurance athlete with stage-four lung cancer, a fifth grader on a doomed field trip, an Ivy League undergrad sentenced to decades in prison, a young woman who gave her life for an animal, a Wall Street executive on an ill-fated bike ride, a preschooler whose health hinged on an immigration battle, a family who lost everything in a hurricane, a mother who fought back against domestic violence, and a man who stood up for his rights while seated in his wheelchair. Returning to find these people years—even decades—after she featured their stories on the news gives Maxfield an opportunity to ask the burning questions she had always pondered: What happened after the live truck pulled away? What is the rest of the story?

Donald Trump and the 2018 Midterm Battle for Central New York Luke Perry, 2019-03-19 Luke Perry’s inaugural Pivot in the Palgrave Studies in US

Elections series examines the impact of Donald Trump on the 2018 midterm campaigns in Central New York, particularly competitive campaigns for NY-19, NY-22, and NY-24. Providing a contextual foundation for these races—considering factors such as incumbency advantage, history of party control of the seat, registered party members, statewide electoral norms, fundraising, and polling—Donald Trump and the 2018 Midterm Battle for Central New York then analyzes the positions and rhetoric of these GOP reelection campaigns, paying particular attention to the continuity and variance in relation to Trump’s personal, populist, and negative campaign style. When examined alongside the results of the midterm election, the outcomes illustrated how the president hurt more than helped House GOP incumbents, revealed the quality of candidates, proved how campaigns and grassroots organizing matter, and demonstrated that moderate Democrats were more successful than progressive ones.

Undivided Patricia Raybon, Alana Raybon, 2015-04-28 “Mom, I have something I need to tell you...” They didn’t talk. Not for ten years. Not about faith anyway. Instead, a mother and daughter tiptoed with pain around the deepest gulf in their lives – the daughter’s choice to leave the church, convert to Islam and become a practicing Muslim. *Undivided* is a real-time story of healing and understanding with alternating narratives from each as they struggle to learn how to love each other in a whole new way. Although this is certainly a book for mothers and daughters struggling with interfaith tensions, it is equally meaningful for mothers and daughters who feel divided by tensions in general. An important work for parents whose adult children have left the family’s belief system, it will help those same children as they wrestle to better understand their parents. *Undivided* offers an up close and personal look at the life of an Islamic convert—a young American woman—at a time when attitudes are mixed about Muslims (and Muslim women in particular), but interest in such women is high. For anyone troubled by the broader tensions between Islam and the West, this personal story distills this friction into the context of a family relationship—a journey all the more fascinating. *Undivided* is a tremendously important book for our time. Will Patricia be able to fully trust in the Christ who “holds all things together?” Will Alana find new hope or new understanding as the conversation gets deeper between them? And can they answer the question that both want desperately to experience, which is “Can we make our torn family whole again?”

The Soushari Saga Book 1 R. L. Dube, 2022-05 Kianna Smythe was never one to shy away from a mystery to solve. Even as a young girl, she delighted in the challenge of gathering clues and deducing the ins and outs of the happenings in her world. But, the case that found its way to her burgeoning investigative practice was beyond irresistible—it would call on every innate and cultivated skill she had to save the very existence of the world. In the 22nd Century, the South has re-segregated and seceded from the rest of the country, creating a culture where the progress in race relations has been reverted to fierce division and enmity. And yet, there is a live-and-let-live in separation way of being that has been working for everyone. That is, until a cyber invasion threatens to disrupt their delicate equilibrium. As a mysterious hacker is attempting to play the factions against one another and seems to have access to every aspect of their lives—even the most private and personal ones—Kianna and her unlikely but capable and trusted assistant must root out the man . . . or woman . . . behind the subterfuge and prevent a rift that will have global repercussions.
