The Survival Nexus Charles Weiss,2021-10-13 The impact of science and technology on world affairs is shaped by politics, economics, business, ethics, law, psychology, and culture. This nexus is a neglected aspect of international affairs. It cuts across and unites diverse issues critical to human survival: climate change, global health, nuclear weapons, Internet governance, cybersecurity, jobs, competitiveness, poverty, hunger, and the management of new technologies like autonomous weapons, hypersonic missiles, geoengineering, and gene drivers. Advances in science and technology promise both great benefits and critical threats. Appropriate policies can stimulate and guide scientific and technological advance to create new ways to achieve a healthy environment, sustainable energy systems, equitable growth, full employment, and reduced poverty. But we are allowing technology to push ourselves into uncharted and dangerous territory. Long-standing modes of international cooperation are under increasing pressure, and we are making too little effort to strengthen and update them. Nor are we building the strong global norms that we need to manage new technologies. Underlying all of the global problems discussed in this book are considerations of basic ethics: our willingness to respect scientific facts, to act today to forestall long-run dangers, and to ensure equitable sharing of the benefits, costs, and risks from advances in science and technology--

Finance for Sustainable Development in Africa Nicholas Mbaya Odhiambo,Erasmus Larbi Owusu,Simplice Anutechia Asongu,2023-07-18 Although a number of selected African countries have made efforts to implement various financial sector reforms, many countries have not fully implemented the requisite reforms required for sustainable development. Instead, they have focused mainly on bank-based financial reforms, thereby neglecting market-based financial reforms. This study provides a one-stop shop for understanding the history and evolution of the financial sector in Africa with a special focus on the sub-Saharan region where the financial system in many countries is still at a relatively nascent stage. The analysis is extensive and robust, and starts from financial repression to financial liberalisation (both internal and external), and its role in sustainable development and poverty alleviation. The book covers a range of important research issues pertaining to financial development in selected African countries, including interest rate and exchange rate reforms, the dynamics of bank-based and

market-based financial development; the role of the informal financial sector in sustainable development; the finance-growth nexus; bank-based versus market-based financial sectors in Africa; financial development and information and communication technology; and financial development and gender equality, among other topics. The book also considers the relationship between the COVID-19 global pandemic and financial development, and concludes by presenting a forecast of the future trends of financial and sustainable development on the African continent in general and sub-Saharan Africa in particular. The chapters are authored by prominent scholars and researchers in the field of finance and banking, applied econometrics and development economics, with a deep understanding and knowledge of financial development and the local situations in African countries. This book provides crucial reference material for academics, researchers, policymakers and students of all levels and is a must-read for anyone wishing to understand the nature of finance and sustainable development in Africa in relation to the rest of the world. It covers African countries, but with more emphasis on the sub-Saharan African region where the financial systems in many of the countries are still relatively underdeveloped.

Corporate Finance and Financial Development Shame Mugova,Joseph Olorunfemi Akande,Odunayo Magret Olarewaju,2022-07-08 This book addresses key issues in corporate finance and explores them from financial development and financial stability perspectives in emerging markets. Emerging economies are susceptible to rapidly changing financial sectors and products as well as financial upheavals. In this light, the growing interdependence of states and capital markets, and the risk of crises have an impact on the financing of firms. The chapters in this book highlight how companies and policies in emerging markets are affected and deal with the current post-crisis world. By combining academic and industry insights, the critical issues in corporate finance, financial development, and the preparedness of emerging markets are explored.

The Language of Money and Debt Annabelle Mooney,Evi Sifaki,2017-07-13 This book analyses the language that ordinary people employ when discussing money, debt and financial behaviour. It documents and critiques this

language from an array of disciplinary perspectives, with chapters on children's books, government infomercials, television poverty porn, the emotional experience of being indebted, and more. In doing so, it addresses common underlying questions concerning definitions of money and value, and scrutinises how people construct, negotiate and articulate meaning in these domains. This wide-ranging edited collection will be of interest to students and scholars of linguistics, sociology, communication, literature and anthropology.

Alan S. Milward and Contemporary European History Fernando Guirao, Frances M.B. Lynch, 2015-10-14 Alan S. Milward was a renowned historian of contemporary Europe. In addition to his books, as well as articles and chapters in edited books, he also wrote nearly 250 book reviews and review articles, some in French and German, which were published in journals world-wide. Taken together they reveal a remarkable degree of theoretical consistency in his approach to understanding the history of Europe since the French Revolution. This book brings together these previously unexamined pieces of historical analysis in order to trace and shed light on key intellectual debates taking place in the second half of the 20th century. Many of these discussions continue to influence us today, such as the role of Germany in Europe, the economic, social and political foundations of European integration, the European rescue of the nation-state, the reasons for launching the single currency, the conditions for retaining the allegiance of European citizens to the notions of nation and supra-nation, and ultimately the issue of democratic governance in a global environment. In bringing together these reviews and review articles, the book provides an introduction to the main scholarly achievements of Milward, in his own words. Fernando Guirao and Frances M.B. Lynch provide an introduction to the volume, which both guides the reader through many of the academic debates embedded within the text while underlining their contemporary relevance. By introducing and bringing together this hitherto overlooked treasure trove of historical analysis, this book maps a close itinerary of some of the most salient intellectual debates of the second half of the 20th century and beyond. This unique volume will be of great interest to scholars of economic history, European history and historiography.

Financial Inclusion Regulatory Practices in SADC Howard Chitimira, Tapiwa Victor Warikandwa, 2023-05-25 Against a background of calls to prioritise the improvement of financial inclusion in Africa, this book provides an analysis of current financial inclusion measures in Southern Africa. Evaluating the existing strengths and weaknesses of financial inclusion in Africa, it identifies opportunities to improve inclusive financial services and aid poverty reduction in the region. With a focus on South Africa, Namibia, Botswana, and Zimbabwe as case studies for assessing current financial inclusion in the context of particular challenges faced by unbanked and underbanked customers, who are easy targets for cybercriminals due to low levels of digital literacy, it looks into the regulation and promotion of financial inclusion in Southern Africa. The book explores financial inclusion in the context of digital transformation in the 21st century, examining the regulation and promotion of financial inclusion in the context of digital transformation, as well as the challenges related to financial inclusion. Suggesting improvements to aspects of company law, securities and financial markets in the Southern African Development Community region, the book offers a comprehensive study on the regulation and promotion of financial inclusion in the Southern African Development Community region. It will be essential reading for students and academics researching financial inclusion, international economic law and development.

Former Foster Youth in Postsecondary Education Jacob P. Gross, 2019-05-15 This book examines the attainment gap between foster youth and their peers. Specifically focusing on post-secondary access and success for foster youth,

Gross points out the challenges foster youth face in the primary and secondary school context, such as being less likely to complete high school. These barriers to former foster youth continue once enrolled in post-secondary education, and can manifest as lack of institutional support, financial barriers, and limited to no familial support. The author discusses what policy makers and practitioners need to know to better support the educational attainment of former foster youth.
