Nfpa 30 National Fire Protection Association,2007-01-01 Trust NFPA 30's protocols to minimize the hazards of flammable and combustible liquids. Adopted by most states and enforceable under OSHA, NFPA 30: Flammable and Combustible Liquids Code presents the best guidance on the safe storage, handling, and use of dangerous liquids. It provides the criteria you need to design facilities for better protection, comply with sprinkler rules, and use safe operating practices. Changes and additions in the 2003 edition affect: * Siting of storage tanks * Spill control, normal breather vents, and emergency relief vents for storage tanks * Design of liquids storage cabinets, inside storage areas, and liquid warehouses * Sprinkler design rules for storage of all types of liquids * And more When you work with flammable and combustible liquids, even a seemingly minor oversight or mistake can have major repercussions. Don't compromise safety--insist on NFPA 30!

Fire Inspector: Principles and Practice Student Workbook William Jenaway,2011-08-12
The Complete Fire Inspector I and II Training Solution! Fire inspectors need to know how to interpret and apply national and local codes and standards in the office and in the field. Fire Inspector: Principles and Practice is designed to prepare fire inspectors to ensure the highest standards of fire and life safety in their communities. The National Fire Protection Association (NFPA) and the International Association of Fire Chiefs (IAFC) are pleased to bring you Fire Inspector: Principles and Practice, a modern integrated teaching and learning

system for the fire inspector. This textbook meets and exceeds the job performance requirements for level I and II fire inspectors from Chapters 4 and 5 of NFPA 1031, Standard for Professional Qualifications for Fire Inspector and Plan Examiner, 2009 Edition. Fire Inspector: Principles and Practice is built on a solid foundation of the basics: building construction, fire growth, and types of occupancies. This fundamental knowledge is presented in a concise, understandable writing style that is easy to digest and recall. The solid foundation of fire and building knowledge then branches out to show the fire inspector how abstract concepts and codes will be concretely applied on a daily basis. This is the text that truly prepares fire inspectors for the real world.
