Protocols for Micropropagation of Woody Trees and Fruits S.Mohan Jain,H. Häggman,2007-09-18 Micropropagation has become a reliable and routine approach for large-scale rapid plant multiplication, which is based on plant cell, tissue and organ culture on well defined tissue culture media under aseptic conditions. A lot of research efforts are being made to develop and refine micropropagation methods and culture media for large-scale plant multiplication of several number of plant species. However, many forest and fruit tree species still remain recalcitrant to in vitro culture and require highly specific culture conditions for plant growth and development. The recent challenges on plant cell cycle regulation and the presented potential molecular mechanisms of recalcitrance are providing excellent background for understanding on totipotency and what is more development of micropropagation protocols. For large-scale in vitro plant production the important attributes are the quality, cost effectiveness, maintenance of genetic fidelity, and long-term storage. The need for appropriate in vitro plant regeneration methods for woody plants, including both forest and fruit trees, is still overwhelming in order to overcome problems facing micropropagation such as somaclonal variation, recalcitrant rooting, hyperhydricity, polyphenols, loss of material during hardening and quality of plant material. Moreover, micropropagation may be utilized, in basic research, in production of virus-free planting material, cryopreservation of endangered and elite woody species, applications in tree breeding and reforestation.

Recent Technologies for Disaster Management and Risk Reduction Praveen Kumar Rai,Prafull Singh,Varun Narayan Mishra,2021-08-21 This book explains to governments, decision makers and disaster professionals the potential uses of recent technologies for disaster monitoring and risk reduction based on the knowledge and experience of prominent experts/researchers in the relevant fields. It discusses the application of recent technological developments for emerging disaster risks in today's societies and deliberates on the various aspects of disaster risk reduction strategies, especially through sustainable community resilience and responses. This book consists of selected invited papers on disaster management, which focus on community resilience and responses towards disaster risk reduction based on experiences, and closely examines the coordinated research activities involving all stakeholders, especially the communities at risk. Many regions of the world and aspects of disaster risk and its management are covered. It is described how recent technologies will support better understanding and action to reduce the number and impact of disasters in future. The principal audience for this book is researchers, urban planners, policy makers, as well as students.

Continuing Vietnamese Binh Nhu Ngo,2021-02-16 Quite simply the most serious early intermediate textbook currently available for thoughtful American students at the university level.-- Professor Stephen O'Harrow, Director, Center for Southeast Asian Studies, University of Hawai'i at Manoa This is a second-year, intermediate Vietnamese language course designed for high school, college or self-study. Continuing Vietnamese is your next step toward master; it follows the best-selling, linguistically-based Elementary Vietnamese, and helps you progress to an intermediate level of communicating in Vietnamese. Invaluable for anyone planning to travel, study or work in Vietnam, this complete language course has been extensively tested at Harvard University. The accompanying native-speaker audio helps to develop listening comprehension and ensure correct pronunciation. The book contains ten lessons, each composed of two parts. Part 1, the dialogue part, introduces the learner to conversational Vietnamese as it's currently spoken in Hanoi so that the learner will be able to participate in engaging conversation on a variety of topics. Part 2, the narrative part, includes written materials that are characteristic of formal Vietnamese. It aims to develop the learner's reading and writing skills as well as speaking skills. The lessons focus on various aspects of life in present-day Vietnam, including topics such as culture, history, geography, economy, theater, music, tourism, literature, poetry, cinema and sports. Each lesson helps you to learn Vietnamese by building your Vietnamese proficiency using several complementary elements to thoroughly develop your skills in reading, writing, listening and speaking. Key features of Continuing Vietnamese include: Online audio recordings offering native speakers' renditions of all the dialogues and narratives, vocabulary, grammar and usage explanations, everyday Vietnamese expressions, pronunciation drills and exercises, and even some popular Vietnamese proverbs. Exercises and practice activities which hone your skills throughout the learning process. Cultural notes that help bring Vietnam to life. A contemporary focus on today's Vietnamese speech patterns. A format that sharpens all four language skills: listening, speaking, writing and reading. All media content is alternatively accessible on the Tuttle Publishing website.

Properties of Expanding Universes Stephen W. Hawking,2017-10-27 Some implications and consequences of the expansion of the universe are examined. The conclusion is reached that galaxies cannot be formed as a result of the growth of perturbations that were initially small.

Conceptual Design of Chemical Processes James Merrill Douglas,1988 This text explains the concepts behind process design. It uses a case study approach, guiding readers through realistic design problems, and referring back to these cases at the end of each chapter. Throughout, the author uses shortcut techniques that allow engineers to obtain the whole focus for a design in a very short period (generally less than two days).

Unspoken Taboo Sympol the Poet,2021-10-29 I'm back with my second book. Some say that I've still gone too far. However, this go-round my book is not as dark as my first. This is the more somewhat Sunny side of me. Although, there will be a few scattered thunderstorms that will come your way. Hey! Life is just like the weather (unpredictable). God knows I can't please everyone. Although, I definitely know how to please myself (stop being nasty) and I'm definitely pleased with this second piece of art. I hope you enjoy and love, laugh, and cry on this journey. - Sympol the Poet
