Watch Me Draw Nick Jr. 's the Backyardigans' Incredible Adventures Carlo Lo Raso, 2008-10 The Backyardigans make learning to draw an adventure of the imagination The expedition of a lifetime is only as far away as the backyard when it comes to the thrill-seeking characters of Nick Jr.'s popular animated TV show, The Backyardigans. The show features Uniqua, Pablo, Tyrone, Tasha, and Austin, who stretch their imaginations to the limit and go in search of mountains to climb, oceans to sail, and many more adventures, all while dancing and singing to a variety of music. With Watch Me Draw The Backyardigans Incredible Adventures, young explorers can follow the show's spirited characters on one adventure after another while learning to draw a range of exciting subjects. This colorful 24-page book features 11 easy drawing lessons, a flip-down paper pad with helpful drawing prompts, and a sheet of fun reward stickers. Young artists who can draw a square, a triangle, and a circle will soon be drawing a treasure chest, a boat, and a motorcycle--and creating their very own adventures in the process.

Growing Up With Technology Lydia Plowman,Christine Stephen,Joanna McPake,2010-04-05 Growing Up with Technology explores the role of technology in the everyday lives of three- and four-year-old children, presenting the implications for the children's continuing learning and development. Children are growing up in a world where the internet, mobile phones and other forms of digital interaction are features of daily life. The authors have carefully observed children's

experiences at home and analysed the perspectives of parents, practitioners and the children themselves. This has enabled them to provide a nuanced account of the different ways in which technology can support or inhibit learning. Drawing on evidence from their research, the authors bring a fresh approach to these debates, based on establishing relationships with children, families and educators to get insights into practices, values and attitudes. A number of key questions are considered, including: Which technologies do young children encounter at home and preschool? What kind of learning takes place in these encounters? How can parents and practitioners support this learning? Are some children disadvantaged when it comes to learning with technology? *Growing Up with Technology* is strongly grounded in a series of research projects, providing new ways of thinking about how children's learning with technology can be supported. It will be of great interest to undergraduate and postgraduate students on a range of courses including childhood studies, and those with a particular interest in the use of technology in education. Parents, practitioners and researchers will also find this a fascinating and informative read.

The Drinking Curriculum Elizabeth Marshall, 2024-01-02 A lively exploration into America's preoccupation with childhood innocence and its corruption In *The Drinking Curriculum*, Elizabeth Marshall brings the taboo topic of alcohol and childhood into the limelight. Marshall coins the term "the drinking curriculum" to describe how a paradoxical set of cultural lessons about childhood are fueled by adult anxieties and preoccupations. By analyzing popular and widely accessible texts in

visual culture—temperance tracts, cartoons, film, advertisements, and public-service announcements—Marshall demonstrates how youth are targets of mixed messages about intoxication. Those messages range from the overtly violent to the humorous, the moralistic to the profane. Offering a critical and, at times, irreverent analysis of dominant protectionist paradigms that sanctify childhood as implicitly innocent, *The Drinking Curriculum* centers the graphic narratives our culture uses to teach about alcohol, the roots of these pictorial tales in the nineteenth century, and the discursive hangover we nurse into the twenty-first.

Scribbles and Ink Ethan Long, 2023-07 Two artists, two styles, and one book that may not be big enough for the both of them. See, Ink (the mouse) likes things to be clean and precise. Scribbles (the cat) is the opposite. But while there should be plenty of room for each of them to make their art without getting in each others way, or on each others nerves, THEY CAN'T MANAGE THAT! And from there paint splatters, ink goops, pencils get broken and brushes go wild until... it's not a work of art, IT'S A MESS! Discovering that they are no longer having any fun, the duo tentatively tries to collaborate instead of clobber, and, thus, a disaster-piece becomes a masterpiece. With this much creative friction, will this disaster-piece ever become a masterpiece?

Părinte în era digitală. Învăță-ți copilul cum să folosească adecvat rețelele sociale și aparatele digitale Jodi Gold, 2017-04-18 La ce vârstă pot să-i dăruiesc celui mic o tabletă? Peste câți ani va avea nevoie de un telefon mobil? Jocurile video îl agită și-l fac oare dependent pe băiatul meu? Ce fel de fotografii poate afișa pe internet fiica mea adolescentă și cu cine se poate împrieteni pe Facebook? Specializată în psihiatria copilului și mamă a trei băieți, Jodi Gold punctează, pe un ton echilibrat, atât beneficiile educaționale și cognitive ale tehnologiilor digitale, cât și numeroasele capcane. Astfel, părinții noii generații de copii digitali vor afla ce aplicații și jocuri încurajează

creativitatea și inteligența copilului sau adolescentului, dar și ce limite trebuie impuse (ca durată, dar și la nivel de conținut), pentru a evita hărțuirea online, refugiarea nesănătoasă în lumea virtuală ori dezinteresul pentru școală și relațiile sociale din reală.
