Urban Lighting, Light Pollution and Society Josiane Meier,Ute Hasenöhrl,Katharina Krause,Merle Pottharst,2014-10-24 After decades in the shadows, urban lighting is re-emerging as a matter of public debate. Long-standing truths are increasingly questioned as a confluence of developments affects lighting itself and the way it is viewed. Light has become an integral element of place-making and energy-saving initiatives alike. Rapidly evolving lighting technologies are opening up new possibilities, but also posing new challenges to planners, and awareness is growing that artificial illumination is not purely benign but can actually constitute a form of pollution. As a result, public policy frameworks, incentives and initiatives are undergoing a phase of innovation and change that will affect how cities are lit for years to come. The first comprehensive compilation of current scientific discussions on urban lighting and light pollution from a social science and humanities perspective, *Urban Lighting, Light Pollution and Society* contributes to an evolving international debate on an increasingly controversial topic. The contributions draw a rich panorama of the manifold discourses connected with artificial illumination in the past and present – from early attempts to promote new lighting technologies in the late 19th and early 20th centuries to current debates on restricting its excessive usage in public space and the protection of darkness. By bringing together a cross-section of current findings and debates on urban lighting and light pollution from a wide variety of disciplines, it reflects that artificial lighting is multifaceted in its qualities, utilisation and interpretation. Including case studies from the United States, Europe, and the UK, *Urban Lighting, Light Pollution and Society* is one of the first to take a serious assessment of light, pollution, and places and is a valuable resource for planners, policy makers and students in related subjects.

Attracting Songbirds to Your Backyard Sally Roth,2012-05-08 The best ways to attract melodic birds, with insight into their rapidly changing habits The American robin and northern cardinal are two of the best-loved songbirds, but newer backyard arrivals, like rose-breasted grosbeaks and scarlet tanagers, quickly captivate with their vivid colors and unique songs. Bird lovers will learn to attract new visitors by offering treats that songbirds like best, such as soft, easy-to-peck foods that closely mimic caterpillars, their top food preference. And planting just a few carefree perennials and shrubs can provide opportunities for cover and nesting. Sally Roth's *Attracting Songbirds to Your Backyard* draws on the latest science and 50 years of observation to reveal these fascinating details: • In the wee hours, it's the robins that sing first, followed by the babble of house wrens and the whistle of cardinals • Some birds learn birdsongs throughout their lives, while others stop learning once they can mimic their parents' song • It's Dad, not Mom, who teaches the young birds to sing Simple tips, ideas, and recipes, as well as an understanding of why songbirds are coming from the treetops into the backyard, will help any bird enthusiast create a songbird sanctuary.

Securing Our Children's Future Gary S. Katzmann,2004-05-13 A nation of great resources, the United States is confronted all too often with headlines about shootings in schools and with the unsettling reality that homicide rates for juveniles far exceed that of other industrialized nations. The challenge of reducing youth violence has prompted a flurry of commentary, legislative activity, and scholarly studies—much of it skewed by lurid pronouncements, alarmist sentiments, and misleading categorizations. Focusing on the role of institutions in combating youth violence, this volume seeks to reflect its complex and multidimensional character. Copublished by the Governance Institute and the Brookings Institution, the book brings together a wide range of skilled professionals and academics across disciplines to focus on the coordination and implementation of youth anti-violence strategies. The work redefines the way we think institutionally about youth violence and collaborative initiatives, providing a pragmatic roadmap for constructive change. The essays constitute a new framework to guide key players in the juvenile justice system: prosecutors, the defense bar, the courts, correction and probation departments, faith-based institutions, schools, the media, nonprofit institutions, and the private sector.

The Curious Incident of the Dog in the Night-Time Mark Haddon,2009-02-24 A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
