A Question of Ghosts Cate Culpepper,2012-07-01 Becca Healy always believed she understood the shameful circumstances of her mother's death—until the night her mother's spirit whispers a simple message out of the static of a radio: Not true. Becca turns to the terse Dr. Joanne Call, an expert in Electronic Voice Phenomenon—ghost voices—to unravel the mystery of this decades-old tragedy. Joanne can coax messages out of the silence of the grave, but coping with this feisty, emotional Healy person might be completely beyond her. Together, Becca and Jo must tackle childhood grief, a serial killer, Xena withdrawal, and a growing attraction between the two most mismatched women in Seattle.

Nights in Haunted Houses Peter Underwood,1994 The eerie quiet and disorientating darkness of the night have long been associated with the terror of the unknown. In the cold light of day it is all too easy for sceptics to dismiss apparently inexplicable events but in the dead of night, when faced with the evidence of their senses and those of other perfectly rational people, it is far more difficult to ignore the facts - however disturbing they may be. Peter Underwood is Britain's leading ghost hunter. For over thirty years, in his position as President and Chief Investigator of the Ghost Club of Great Britain, he was actively involved in undertaking night vigils and carrying out research into ghosts and paranormal activity in controlled, scientific conditions. In this unique volume of largely unpublished accounts of nocturnal investigations, he guides son a chilling tour of the most haunted houses in Great Britain. Among others, we encounter the headless Blue Lady and disturbing inexplicable odour of lavender of Bovey House in Devon; the happy spirits monk of Bromfield Manor, Shropshire, who chuckles with delight when noticed; and the strange disembodied voices, footsteps and unnatural coldness of Newark Park, Gloucestershire. In *Nights in Haunted Houses* Peter Underwood vividly records terrifying accounts of ghostly encounters in locations as diverse as a farmhouse, a church, a castle and a council house, and builds a convincing catalogue of evidence for the existence of ghosts.

Directing Michael Rabiger,2013-04-02 *Directing: Film Techniques and Aesthetics* is a comprehensive manual that teaches the essentials of filmmaking from the perspective of the director. Ideal for film production and directing classes, as well as for aspiring and current directors, *Directing* covers all phases of preproduction and production, from idea development to final cut. Thoroughly covering the basics, *Directing* guides the reader to professional standards of expression and control, and goes to the heart of what makes a director. The book outlines a great deal of practical work to meet this goal, with projects, exercises. The third edition emphasizes the connection between knowing and doing, with every principle realizable through projects and exercises. Much has been enhanced and expanded, notably: aspects of dramaturgy; beats and dramatic units; pitching stories and selling one's work; the role of the entrepreneurial producer; and the dangers of embedded moral values. Checklists are loaded with practical recommendations for action, and outcomes assessment tables help the reader honestly gauge his or her progress. Entirely new chapters present: preproduction procedures; production design; script breakdown; procedures and etiquette on the set; shooting location sound; continuity; and working with a composer. The entire book is revised to capitalize on the advantages offered by the revolutionary shift to digital filmmaking.

Just Lucky John M. Findley,2010-04 This is a very unusual book. It is full of stories of unexpected and sometimes hazardous experiences. It is an adventure book that will appeal to the young and old alike. Anyone who likes the outdoors and nature will enjoy reading this book. John writes the same way he speaks. The stories are told in a down to earth manner with just enough humor thrown in to make them enjoyable. If you ever had a desire to explore unknown territory or to hike a new trail, you will certainly enjoy the stories in this book. Editor's note: John Findley is a truly extraordinary man and has lived a life packed with more extraordinary experiences than any other ten people I know combined. He has written this book where he relives many of these experiences, and I have had the good fortune to help John with some of the construction of this book (but the words and style are his). John has detailed memories of his experiences which include skydiving in ways I wish I could have seen, spelunking in places I am glad I have missed, and attempting to swim through the Grand Canyon three times. You will like this book!

Silent Film Sound Rick Altman,2004 Based on extensive original research and filled with gorgeous illustrations, *Silent Film Sound* reconsiders all aspects of sound practices during the silent film period in America. Beginning with sound accompaniment and continuing through to the more familiar sound practices of the 1920s, renowned film historian Rick Altman discusses the variety of sound strategies cinema exhibitors used to differentiate their products. During the nickelodeon period prior to 1910, this variety reached its zenith with carnival-like music, automatic pianos, small orchestras, lecturers, synchronized sound systems, and voices behind the screen. In the 1910s, musical accompaniment began to support a film's narrative and emotional content, with large theaters and blockbuster productions driving the development of new instruments, new music-publication projects, and a new style of film music. A monumental achievement, *Silent Film Sound* challenges common assumptions about this period and reveals the complex and swiftly changing nature of silent American cinema.

The World Dream Book Sarvananda Bluestone,2002-12-01 A unique self-help guide to dream interpretation using techniques and icons from cultures around the world. • Challenges the assumption that all symbols universally signify the same thing to all dreamers. • Includes numerous stories, games, and exercises for inducing, recalling, interpreting, and utilizing dreams. • Extends beyond Jung and Freud to include dream theory from numerous world cultures, including the Temiar of Malaya, the African Ibans, the Lepchka of the Himalayas, and the Ute of North America. Dreaming can be used as a tool for understanding our own consciousness, enhancing creativity, receiving visions, conquering fears, interpreting recent events, healing the body, and evolving the soul. Tapping into the vast dreaming experiences and lore of the world's cultures--from the Siwa people of the Libyan desert to the Naskapi Indians of Labrador--Sarvananda Bluestone challenges the assumption that all symbols universally signify the same thing to all dreamers. *The World Dream*

Book encourages readers to develop their own, personalized symbols for understanding their consciousness and provides a series of stories, multicultural techniques, and games to help them do so. Playful explorations, such as the aboriginal Sipping the Water of the Moon, teach how to induce, recall, interpret, and utilize the power of dreams. Readers will discover how a stone under a pillow can help us remember a dream and will explore their own dormant artist and writer as they reclaim the power of their sleeping consciousness. Sarvananda Bluestone applies his uniquely engaging style to demonstrate that, with a few simple tools, everybody has the capacity to unleash their full dreaming potential.

Songs from Sweden Ola Johansson,2020-05-16 Songs from Sweden shows how Swedish songwriters and producers are the creative forces behind much of today’s international pop music. As Ola Johansson reveals, the roots of this “music miracle” can be found in Sweden’s culture, economy, and thriving music industry, concentrated in Stockholm. While Swedish writer-producers developed early global recognition for making commercially successful pop music, new Swedish writer-producers have continuously emerged during the last two decades. Global artists travel to Stockholm to negotiate, record, and co-write songs. At the same time, Swedish writer-producers are part of a global collaborative network that spans the world. In addition to concrete commercial accomplishments, the Swedish success is also a result of the acquisition of reputational capital gained through positive associations that the global music industry holds about Swedish music. Ultimately, pop songs from Sweden exhibit a form of cultural hybridity, drawing from both local and global cultural expressions.

The Jan & Dean Record Mark A. Moore,2016-02-18 Jan & Dean were among the most successful artists of the late 1950s through the mid-1960s, with hits including Baby Talk, Surf City, Dead Man's Curve and The Little Old Lady (From Pasadena). Slapstick humor and offbeat personas were a big part of their shtick, but Jan Berry was serious when it came to the studio. This book chronicles Jan's career as a songwriter and arranger--and his tenure as producer for Jan & Dean and other acts--with day-by-day entries detailing recording sessions, single and album releases, concerts and appearances, film and television projects, behind-the-scenes business and legal matters, chart positions and more. Extensive commentary from Berry's family, friends and colleagues is included. Studio invoices, contract details, tape box notes, copyright information and other particulars shed light on how music was made in the Hollywood studio system of the 1960s.

Field Notes on Science & Nature Michael R. Canfield,2012-07-09 Once in a great while, as the New York Times noted recently, a naturalist writes a book that changes the way people look at the living world. John James Audubon’s Birds of America, published in 1838, was one. Roger Tory Peterson’s 1934 Field Guide to the Birds was another. How does such insight into nature develop? Pioneering a new niche in the study of plants and animals in their native habitat, Field Notes on Science and Nature allows readers to peer over the shoulders and into the notebooks of a dozen eminent field workers, to study firsthand their observational methods, materials, and fleeting impressions. What did George Schaller note when studying the lions of the Serengeti? What lists did Kenn Kaufman keep during his 1973 “big year”? How does Piotr Naskrecki use relational databases and electronic field notes? In what way is Bernd Heinrich’s approach “truly Thoreauvian,” in E. O. Wilson’s view? Recording observations in the field is an indispensable scientific skill, but researchers are not generally willing to share their personal records with others. Here, for the first time, are reproductions of actual pages from notebooks. And in essays abounding with fascinating anecdotes, the authors reflect on the contexts in which the notes were taken. Covering disciplines as diverse as ornithology, entomology, ecology, paleontology, anthropology, botany, and animal behavior, Field Notes offers specific examples that professional naturalists can emulate to fine-tune their own field methods, along with practical advice that amateur naturalists and students can use to document their adventures.
