*Homeland Security and Criminal Justice* Everette B. Penn,2013-10-18 No event has shaped international events of recent years more than the terrorist attacks of September 11, 2001. Tragically, less than four years later, Hurricane Katrina devastated the Gulf Coast. In less than five years, the United States has experienced its worst terrorist attack and worst natural disaster, both in terms of the number of lives lost and in the costs needed for reconstruction. Both events have clearly indicated that there are tremendous threats to the security and well-being of Americans in their own country. Furthermore, these events have demonstrated the importance of criminal-justice agencies who are the first responders to threats to the United States. Since the threats of further terrorist attacks, natural disasters, epidemics, and cybercrime continue to lurk as potential dangers to the United States homeland, the American Criminal Justice System must be committed to mitigating, preparing for, responding to, and recovering from these tragic events. In addition, its commitment must be steadfast and ubiquitous. This highly topical book analyzes the nexus of homeland security to the discipline of criminal justice by addressing, in depth, issues and challenges facing criminal-justice students, practitioners, and faculty in the burgeoning field of homeland security. This book was previously published as a special issue of Criminal Justice Studies.

*Mil Mi-24 Hind Gunship* Alexander Mladenov,2012-07-20 With its distinctive double-cockpit design, the Mi-24 'Hind' is arguably the most recognizable war machine of the Cold War, and has achieved near-legendary status in the annals of military history. The first Soviet helicopter to function as both a gunship and an assault transport, it served extensively in Afghanistan, and is now employed by militaries across the world. Written by an expert on the 'Hind', an drawing on manufacturing and military sources, this book presents the Mi-24 in all of its brutal glory, from design and development to deployment and combat. **Soviet T-10 Heavy Tank and Variants** James Kinnear,Stephen Sewell,2017-06-29 When it was introduced into service in 1953, the T-10 represented a return to the “classic” Soviet heavy tank. Although considered a major threat to NATO tank forces, it also represented the end of an era. All gun heavy tanks like the T-10 would eventually be made effectively redundant by later models like the T-62 which had powerful next generation armament and new ammunition types. The tank was gradually withdrawn from service in the 1970s, though the last tanks would only leave Russian service, by decree of the President of the Russian Federation, in 1997. As such the T-10 outlived the Soviet state that had created it. Never exported outside of the Soviet Union and rarely used in combat, the T-10 has remained a mysterious tank, with many of its variants unknown in the West until very recently. This study, written from original Russian and Ukrainian primary source documents that have only recently been made available, uncovers the history of this enigmatic tank using 130 stunning contemporary and modern photographs of the T-10 as well as full colour side-view artwork.
