Mobile Marketing Daniel Rowles, 2013-11-03 *Mobile Marketing* provides an in-depth hardware and software review of mobile technology - including mobile platforms, app development, social media and location-based services - and information on how to exploit the software to boost marketing, communications and advertising strategies. It explains the dynamics between the key players and how these forces are shaping future developments in terms of service provision, media integration and content strategy. Supported by in-depth case studies such as Sony, L'Oreal and Ernst & Young which illustrate the potential pitfalls and rewards of mobile marketing initiatives, *Mobile Marketing* shows how our new mobile lifestyle can be a rewarding environment for those businesses willing to embrace new technology and, with imagination and creativity, develop mobile marketing strategies that can win customers, boost brand awareness, raise profile and increase profits.

All You Need is Rhythm and Grit Cory Wharton-Malcolm, 2024-01-11 'Everything Wharton-Malcolm does has the aim of helping people achieve the best version of themselves' Evening Standard 'In a world where expectations of others is making people drop out of sport, Cory hooks you back in. With his straight up communication and infectious sense of humour, Cory inspires people from all around the world to find the joy in running.' Chris Watt, Runner, Friend, Brand Director Think running isn't for you? Running coach Cory Wharton-

Malcolm challenges this idea head-on with this joyful love letter to running and motivational guide for beginners. Advocating running as an inclusive and community-focused activity, Cory shows us how to celebrate the incredible mind-body connection by getting your trainers on and starting your running journey from the couch to the end of the road and beyond. Sharing stories of his own mental and physical health challenges and the way running – both alone and with track buddies – lifted him up, *All You Need is Rhythm and Grit* includes advice on kit, running routes, pacing, good beats and the will to start and keep going. Cory believes you don't have to be a tall and slim superhuman to run and feel good doing it! For anyone who thinks running isn't for them, here is a vibrant and inclusive guide to one of the most egalitarian sports for people of all genders, all bodies, all identities and every class and colour.

Experiential Marketing Wided Batat, 2020-12-27 Experiential marketing has become an indispensable tool for all types of businesses across multiple sectors. This book provides an all-encompassing, practical, and conceptual map of contemporary experiential case studies, which together offer insights into this exciting approach to customer experience. Experiential Marketing incorporates 36 international case studies from 12 key sectors, from technology, consumer goods, and B2B to luxury, events, and tourism sectors. With a selection of case studies from leading brands, such as Coca-Cola, Nutella, Chanel, NASA, The New York Times, Pfizer, and Amtrak, the reader will learn and practice the experiential marketing tools and strategies through these examples. Expert testimonials, practical applied exercises, and the author's online videos provide both theoretical foundations and concrete application. This is a must-read for advanced undergraduate and postgraduate Marketing and Customer Experience students and an excellent teaching resource. It should also be of great use to practitioners – particularly those studying for professional qualifications – who are interested in learning experiential marketing strategies and developing knowledge about the way big brands in different sectors are designing the customer experience online and offline. Online material includes lecture slides, a test bank of questions, an instructor's manual, and explanatory videos.

Win at All Costs Matt Hart, 2020-10-06 After years of rumors and speculation, Matt Hart sets out to peel back the layers of secrecy that protected the most powerful coach in running. What he finds will leave you indignant—and wondering whether anything in the high-stakes world of Olympic sport has truly changed. —Alex Hutchinson, New York Times bestselling author of *Endure* *Game of Shadows* meets *Shoe Dog* in this explosive behind-the-scenes look that reveals for the first time the unsettling details of Nike's secret running program—the Nike Oregon Project. In May 2017, journalist Matt Hart received a USB drive containing a single file—a 4.7-megabyte PDF named “Tic Toc, Tic Toc. . . .” He quickly realized he was in possession of a stolen report prepared a year earlier by the United States Anti-Doping Agency (USADA) for the Texas Medical Board, part of an investigation into legendary running coach Alberto Salazar, a Houston-based endocrinologist named Dr. Jeffrey Brown, and cheating by Nike-sponsored runners, including some of the world's best athletes. The information Hart received was part of an unfolding story of deception which began when Steve Magness, an assistant to Salazar, broke the omertà—the Mafia-like code of silence about performance-enhancing drugs among those involved—and alerted USADA. He was soon followed by Olympians Adam and Kara Goucher who risked their careers to become whistleblowers on their former Nike running family in Beaverton, Oregon. Combining sports drama and business exposé, *Win at All Costs* tells the full story of Nike's running program, uncovering a corporate win-at-all-costs culture.

Pitch Perfect (movie tie-in) Mickey Rapkin, 2012-09-04 A musical tale of collegiate a cappella filled of high notes, high drama, and high jinks that inspired the hit films Pitch Perfect and Pitch Perfect 2. Get ready to be pitch slapped. The roots of unaccompanied vocal music stretch all the way back to Gregorian chants of the Middle Ages, and collegiate a cappella is over a century old. But what was once largely an Ivy League phenomenon has, in the past twenty years, exploded. And it's not what you think. Though the blue blazers and khakis may remain, a cappella groups at colleges across the country have become downright funky. In Pitch Perfect, journalist Mickey Rapkin follows a season in a cappella through all its twists and turns, covering the breathtaking displays of vocal talent, the groupies (yes, there are a cappella groupies), the rock-star partying, and all the bitter rivalries. Rapkin brings you into the world of collegiate a cappella characters—from movie-star looks and celebrity-size egos to a troubled new singer with the megawatt voice. Including encounters with a cappella alums like John Legend and Diane Sawyer and fans from Prince to presidents, Rapkin shows that a cappella isn't for the faint of heart—or lungs. Sure to strike a chord with fans of Glee and The Sing-Off, this raucous story of a cappella rock stars shows that sometimes, to get that perfect harmony, you have to embrace a little discord.

Winning Through Platforms Ted Moser, Charlotte Bloom, Omar Akhtar, 2023-12-10 Every company needs a platform to thrive. How can you succeed when your markets get platform-crowded? This book - a how-to-win playbook - shows you the way.

Retail Design Ann Petermans, Anthony Kent, 2016-12-01 The late twentieth century saw rapid growth in consumption and the expansion of retailing and services. This was reflected in the number and type of stores and locations, from regional shopping malls and out-of-town superstores to concept and flagship stores. Retail design became an essential part of its success by creating distinctive brands and formats. However, the economic recession in the developed world and competition for consumer goods from the developing world has led to a re-assessment of the growth-led conventions of the retail industry. In addition, the rapid advance of e-commerce and online shopping has created new challenges for physical stores and the communication and distribution of retail brands. The book will provide students, researchers and practitioners a detailed assessment of retail design, taking a distinctive global approach to place design practice and theory in context. Chapters are devoted to key issues in the visual and structural contribution of design to retail brands and format development, and to the role of design in communication. In the course of the book, the authors engage with problems of convergence between retailing and other services and between the physical and virtual worlds, and also changing patterns of use, re-use and ownership of retail spaces and buildings. Retail Design concerns designers and organisations but also defines its broader contribution to society, culture and economy.

Relentless Tim S. Grover, Shari Wenk, 2014-03-11 An award-winning trainer draws on experience with such top athletes as Michael Jordan, Kobe Bryant and Ken Griffey, Jr. to explain how to tap dark competitive reflexes in order to succeed regardless of circumstances, explaining the importance of finding internal resources and harnessing the power of personal fears and instincts.

No Limits Mukesh Bansal, 2022-07-18 Tech entrepreneur Mukesh Bansal has been a lifelong student of human performance optimisation. He has studied the science behind it, and worked closely with high performers across business, sports and entertainment, to understand what it takes to transcend apparent limitations and achieve true potential. Through his entrepreneurial experience and studying the field of health and fitness, Bansal came to understand the enormous power of plasticity: the ability of the human brain to rewire itself at will as we develop new skills. He also realised that high performers across domains rely on common tools that were embraced by ancient wisdom and are validated by modern science. Knowing that high performance is not a matter of genetics or luck is highly empowering. No Limits distils Bansal's findings on talent, deliberate practice, mindset, habit, willpower and learning. It is a guide to maximising one's potential with well-defined strategies. So, no matter what you do, you can be a superior version of yourself, performing at increasingly better levels, constantly reaching higher.

Seismic Digital Shift Yong Hu, 2024-01-18 This book is an in-depth study on the past, present and future of digitalization, an important contribution to the literature on the development of the digital economy in China. The technological revolution in telecommunications has brought a "seismic shift" - the periphery has moved to the center, accelerating the emergence of a new digital world. The adoption and integration of advanced digital technologies such as 5G mobile networks, the Internet of things (IoT), cloud computing, artificial intelligence, big data analysis and robotics means that the

traditional economy, with its organizational, productive and governance systems, is merging with the digital economy, with its innovative features in terms of business models, production, business organization and governance. This makes the digital transformation process highly dynamic and complex, thus challenging many aspects of economies and societies. The author discusses not only what digital transformation means for businesses, but also its impact on society at large, inspiring readers to understand China and the world and think about what digital future we would like to have.

The Digital-First Customer Experience Joe Wheeler, 2023-07-03 The definitive guide to designing digital-first experiences customers love. In his third book on the topic of customer experience, bestselling author and consultant Joe Wheeler tackles the challenges many organizations are facing as they attempt to design compelling experiences in a digital-first world. It features case studies of leading brands including Lemonade, Spotify, CEMEX, VMware, Starbucks, NIKE and Amazon. Part One introduces the new 3 Cs, key trends associated with technology convergence, competition and culture change in a post-pandemic world. Part Two takes a deep dive into seven design strategies, from designing emotional peaks across channels to empowering customers through immersive experiences that merge physical and digital assets. Part Three provides a playbook for how to design digital-first experiences, including how to solve the right problems, develop a measurable business case, design digital-first experiences customers love and execute the new design at scale.
