Big Time Jen Spyra,2022-07-05 The debut collection of raucous, dark, strange, satirical stories from the former Late Show with Stephen Colbert writer and New Yorker contributor, featuring a foreword by Stephen Colbert “Jen Spyra’s stories are shocking, silly, smart, and absurdly funny. Underline both those words, I don’t care how much it costs!”—Tina Fey A bride so desperate to get in shape for her wedding that she enrolls in a new kind of workout program that promises the moon but costs more than she bargained for. A snowman who, on the wish of a child, comes to life in a decidedly less savory way than in the childhood classic. And in the title story, a time-hopping 1940s starlet tries to claw her way to the top in modern-day Hollywood, despite being ridiculously unwoke. In this uproarious, addictive debut, Jen Spyra takes a culture that seems almost beyond parody and holds it up to a funhouse mirror, immersing the reader in a world of prehistoric influencers, woodland creatures plagued by millennial neuroses, and an all-out birthday bash determined to be the most lavish celebration of all time, by any means necessary. Welcome, brave soul, to the world of Jen Spyra.

NISSAN – The GTP & Group C Racecars 1984-1993 John Starkey,2022-01-11 When Don Devendorf and John Knepp got together to form Electramotive Engineering of El Segundo, California, little did they realise that they were setting in motion a train of events which would sooner, rather than later, bring to them and the mighty Nissan GTP cars that they promoted, developed and raced, no less than four IMSA Camel GT Championships. Here, for the first time, is the story of Nissan in racing from 1984 to 1993, the GTP era. The full story of Electramotive and NPTI is told, with interviews with Don Devendorf, John Knepp, Geoff Brabham, Trevor Harris, Kas Kastner, Ashley Page, and many other members of the crew that won the IMSA Camel GT Championship from 1988 to 1991. The story of the European Group C Nissans, using chassis from March and Lola, from 1985 to 1992 is also told, along with interviews from many of the drivers and technicians involved, such as Mark Blundell, Julian Bailey, Dave Price and Bob Bell.

Nissan 300ZX and 350Z Brian Long,2004-05 The Datsun 240Z was a landmark in automotive history--some say the Japanese E-type Jaguar--and by the time the first generation of Z--cars came to an end in 1978, everyone around the world knew the name Datsun and that the company was serious about sports cars.

Shift Carlos Ghosn,2007-12-18 In Shift, Carlos Ghosn, the brilliant, audacious, and widely admired CEO of Nissan, recounts how he took the reins of the nearly bankrupt Japanese automotive company and achieved one of the most remarkable turnarounds in automotive--and corporate--history. When Carlos Ghosn (pronounced like "phone") was named COO of Nissan in 1999, the company was running out of gas and careening toward bankruptcy. Eighteen short months later, Nissan was back in the black, and within several more years it had become the most profitable large automobile company in the world. In SHIFT, Ghosn describes how he went about accomplishing the seemingly impossible, transforming Nissan once again into a powerful global automotive manufacturer. The Brazilian-born, French-educated son of Lebanese parents, Ghosn first learned the management principles and practices that would shape his decisions at Nissan while rising through the ranks at Michelin and Renault. Upon his arrival at Nissan, Ghosn began his new position by embarking on a three-month

intensive examination of every aspect of the business. By October 1999 he was ready to announce his strategy to turn the company around with the Nissan Revival Plan. In the plan, he consistently challenged the tradition-bound thinking and practices of Japanese business when they inhibited Nissan's effectiveness. Ghosn closed plants, laid off workers, broke up long-standing supply networks, and sold off marginal assets to focus on the company's core business. But slashing costs was just the first step in Nissan's recovery. In fact, Ghosn introduced changes in every corner of the company, from manufacturing and engineering to marketing and sales. He updated Nissan's car and truck lineup, took risks on dynamic new designs, and demanded improvements in quality—strategies that quickly burnished Nissan's image in the marketplace, and re-established the company in the minds of consumers as a leader in innovation and engineering. Like the best-selling memoirs of Jack Welch, Lou Gerstner, and Larry Bossidy, SHIFT is a fascinating behind-the-scenes look at what it takes to transform and re-create a world-class company. Written by one of the world's most successful and acclaimed CEOs, SHIFT is an invaluable guide for business readers everywhere.

Nissan 350z John Lamm, 2003 An ultimate inside look at one of 2003's hottest new cars, the Nissan 350Z. Featuring the brilliant text and photography of John Lamm, this book is written in cooperation with the Nissan Corporation, which has pledged full access to archives, design drawings, mockups, and key players within the company. With its reasonable price, high power, and gorgeous looks, Nissan has hit the bull's eye and created a car that is sure to be revered by a legion of fans.

A History of Japan's Government-Business Relationship Phyllis A. Genther, 1990-01-01 Despite the economic and political importance of the U.S.-Japan relationship and the extensive attention paid to automotive trade, few American scholars or policy makers are familiar with the history of Japanese government-business relations, either generally or for specific industries such as passenger cars. This book hopefully helps in a small way to fill that gap in our knowledge and, thus, to help strengthen the foundation from which we make public policy decisions about bilateral trade. [ix]

Z Pete Evanow, 2005 Some 35 years ago Datsun (now Nissan) introduced the 1970 Datsun 240Z sports car, emphatically disproving the perception that Japanese automakers could only produce

economy cars. Designed specifically to appeal to the American market, the Z car has enjoyed long-term popularity with its sporty styling and impressive performance. Z car fans are loyal and numerous. Over 1.4 million Z cars have been sold worldwide, including 1 million-plus in the U.S. The five generations of Z cars include the latest version, the 350Z introduced in 2003, which has refueled interest in Z cars. This book will thoroughly cover the history of this breakthrough Japanese sports car, and will include official Datsun/Nissan photography and memorabilia such as advertising and international marketing materials.
