**National Institute of Standards and Technology (U.S.)**

50 Billion Dollar Boss Kathey Porter,Andrea Hoffman,2016-01-26 This book looks at several successful African American women and chronicles their success, obstacles, challenges, and lessons learned. The authors have first person access to each of these women and break down their stories to help other aspiring entrepreneurs achieve their dreams of starting or owning their own business.

The Fire Line Fernanda Santos,2016-05-03 A haunting, beautiful and moving portrait of the Granite Mountain Hotshots, an uncontrollable wildfire and the greatest loss of firefighters' lives since 9/11.

*Enhancing the Community College Pathway to Engineering Careers* National Research Council,National Academy of Engineering,Policy and Global Affairs,Board on Higher Education and Workforce,Committee on Engineering Education,Committee on Enhancing the Community College Pathway to Engineering Careers,2006-01-01 Community colleges play an important role in starting students on the road to engineering careers, but students often face obstacles in transferring to four-year educational institutions to continue their education. Enhancing the Community College Pathway to Engineering Careers, a new book from the National Academy of Engineering and the National Research Council, discusses ways to improve the transfer experience for students at community colleges and offers strategies to enhance partnerships between those colleges and four-year engineering schools to help students transfer more smoothly. In particular, the book focuses on challenges and opportunities for improving transfer between community colleges and four-year educational institutions, recruitment and retention of students interested in engineering, the curricular content and quality of engineering programs, opportunities for community colleges to increase diversity in the engineering workforce, and a review of sources of information on community college and transfer students. It includes a number of current policies, practices, and programs involving community college–four-year institution partnerships.

**Engineering Studies at Tribal Colleges and Universities** National Academy of Engineering, Steering Committee for Engineering Studies at the Tribal Colleges, 2006-02-14 This study was designed to provide expert, objective, independent advice to 11 tribal colleges that are working together to offer engineering programs. The chief data-gathering activity was a one and one-half day workshop. Reasons for establishing a four-year engineering program at a TCU were outlined in the workshop—making it possible for American Indian students to complete a four-year engineering degree entirely within the tribal college system; reducing the high attrition rate of American Indian students who attend mainstream educational institutions; and providing an engineering program that is culturally relevant to tribal students.

**Success Through Diversity** Carol Fulp, 2018-10-09 Explores how investing in a racially and ethnically diverse workforce will help make contemporary businesses more dynamic, powerful, and profitable In our fast-changing demographic landscape, companies that proactively embrace diversity in all areas of their operations will be best poised to thrive. Renowned business leader and visionary Carol Fulp explores staffing trends in the US and provides a blueprint for what businesses must do to maintain their competitiveness and customer base, including hiring in new ways, aligning managers around diversity, providing new kinds of leadership development, and engaging employees to embrace differences. Using detailed case histories of corporate cultures such as the NFL, Eastern Bank, John Hancock, Hallmark Health, and PepsiCo, as well as her own experiences in the workplace and in advising companies on diversity practice, Fulp demonstrates how people of different races and ethnicities represent an essential asset to contemporary companies and organizations.
