Nomina Agentis in Old English, Vol. 1 Karl Kärre, 2018-02-09 Excerpt from *Nomina Agentis in Old English, Vol. 1: Introduction, Nomina Agentis With L-Suffix, Nomina Agentis in -End, With an Excursus on the Flexion of Substantival Present Participles Now*, of course, on account of the fragmentary character of the part of my treatise here offered to the public,

many questions attached to this problem have as yet only been touched upon. I had not foreseen that my study would assume such dimensions, and so I have, for many reasons, been obliged to divide the work a fact which I very much regret and to publish here only my researches on two agent-forming suffixes, viz. Prim. Tent. -(i)lo and O. E. -em. The material is collected also for the other suffixes and is only waiting for arrangement and treatment, a task which I propose to undertake as soon as time and opportunity allow. In a concluding chapter, I intend to make a comparative study of the use of different modes of agent-formation with particular regard to double forms, i. E. Different ag.-n. From the same verb, fo'rmed by means of different suffixes, and to summarize the results arrived at. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
