**Management of Cardiovascular Disease in Women**

Hanna Z. Mieszczanska, Gladys P. Velarde, 2014-03-24

Cardiovascular disease is the leading cause of death in women in the US, with more women dying from heart disease than men. Women may have different presentation from men and often need a different approach to diagnosis and treatment. There are also unique topics of management of heart disease in women, including issues during pregnancy, lactation, and menopause. Many different health care providers, as well as cardiologists are involved in treating these patients. A manual reviewing diagnosis and treatment of cardiac disease in women would help providers without specific cardiology training to deliver care with greater efficiency. A practical and comprehensive guide geared towards these providers would be a highly practical and valuable resource that would be utilized in everyday practice in offices that include urban clinics, general medicine offices, obstetrics and gynecology offices, as well as in the surgical subspecialties. This book will be a highly practical resource that can be directly applied to the issues that arise in everyday practice. There is no available book on the market that focuses on a broader approach to cardiac disease in women or focuses on non-cardiology providers (and their trainees) who have the need to know more about treatment of cardiovascular disease in women.□

**History of Technology Volume 10** Norman Smith,2016-09-30 The technical problems confronting different societies and periods, and the measures taken to solve them form the concern of this annual collection of essays. Volumes contain technical articles ranging widely in subject, time and region, as well as general papers on the history of technology. In addition to dealing with the history of technical discovery and change, History of Technology also explores the relations of technology to other aspects of life -- social, cultural and economic -- and shows how technological development has shaped, and been shaped by, the society in which it occurred.

*Reform Cinema in Iran* Blake Atwood,2016-11-08 It is nearly impossible to separate contemporary Iranian cinema from the Islamic revolution that transformed film production in the country in the late 1970s. As the aims of the revolution shifted and hardened once Khomeini took power and as an eight-year war with Iraq dragged on, Iranian filmmakers confronted new restrictions. In the 1990s, however, the Reformist Movement, led by Mohammad Khatami, and the film industry, developed an unlikely partnership that moved audiences away from revolutionary ideas and toward a discourse of reform. In *Reform Cinema in Iran*, Blake Atwood examines how new industrial and aesthetic practices created a distinct cultural and political style in Iranian film between 1989 and 2007. Atwood analyzes a range of popular, art, and documentary films. He provides new readings of internationally recognized films such as Abbas Kiarostami's *Taste of Cherry* (1997) and Mohsen Makhmalbaf's *Time for Love* (1990), as well as those by Rakhshan Bani, Masud Kiami, and other key Iranian directors. At the same time, he also considers how filmmakers and the film industry were affected by larger political and religious trends that took shape during Mohammad Khatami's presidency (1997-2005). Atwood analyzes political speeches, religious sermons, and newspaper editorials and pays close attention to technological developments, particularly the rise of video, to determine their role in democratizing

filmmaking and realizing the goals of political reform. He concludes with a look at the legacy of reform cinema, including films produced under Mahmoud Ahmadinejad, whose neoconservative discourse rejected the policies of reform that preceded him.

Best Travel Series of the Year, 2008. Hooper, Brad  
(author). FEATURE. First published September 15,  
2008 (Booklist). We select the Little Black Travel  
Books as our travel guide series of the year. The  
main reasons for designating these guides as best  
of the year are their portability and user  
friendliness....each volume has a neat, tidy, and  
nicely detailed foldout map to the particular area  
under discussion. The chapters in each volume  
correspond to the geographical areas into which  
the authors divide the city for the tourist. Each  
chapter gives basics on places to see, available  
art, and entertainment venues, places to eat and  
drink, where to shop, and where to stay. You can  
study a range of guides before your actual trip,  
but this is definitely a commendable candidate for  
carrying with you on site. --Booklist (American  
Library Association)
