How to Open & Operate a Financially Successful Notary Business Kristie Lorette, Mick Spillane, 2011 Book & CD-ROM. According to the National Notary Association, there are 4.8 million notaries working in the U.S. Depending upon state regulations, notaries can perform marriages, witness and authenticate the signing of real estate mortgage loan documents and other legal contracts, and take and certify depositions. Notaries can make an average of \$10 to \$200 per signing, depending on the document type. Each state has individual guidelines that one must follow when first applying to become a notary and specific restrictions that a practising notary must abide by, including the amount a notary can charge per signing. With all of these rules, it can be quite a confusing process, and along with the frustration of opening your own business, it can quickly become a nightmare. Fortunately, with this book, you will have a comprehensive toolkit on not only how to become a notary, but on how to open your own notary business and cash in on the booming market as well. Whether you will be a mobile signing agent or you are looking to buy or rent office space, this book can help you with a wealth of start-up information, from how to form and name your business to deciding if this will be a joint venture or if you would rather work solo. Valuable information on forming a partnership, LLC, corporation, or becoming a sole proprietor, the four types of business formations, is included, and also the legal implications of each. You will learn the ins and outs of the application process state-by-state, including which states require training sessions and exams, and also information on the appointment process and individual state laws that govern the practice of notaries. Beyond providing you with the information on becoming a notary, you will be supplied with a wealth of information about opening your own notary business, including working as a mobile signing agent, where you travel to your customers, or operating a full-scale notary business managing other notaries. A special chapter on services you can offer and average prices charged for those services will be included, and also information on charging for travel fees, appointment no-shows, emergency notarisations, and many other services that can be offered for a fee. This complete manual will arm you with everything you need, including sample business forms, leases, and contracts; worksheets and check-lists for planning, opening, and running day-to-day operations; plans and layouts; and dozens of other valuable, time-saving tools of the trade that no business owner should be without. A special section on the importance of keeping your notary journal up-to-date is included, and also information on your notary stamp. You will learn how to draw up a winning business plan (the companion CD-ROM has the actual business plan you can use in Microsoft and about basic cost control systems, copyright and trademark issues, branding, management, legal concerns, sales and marketing techniques, and pricing formulas. Idaho Notary Public Handbook Idaho Secretary of State,2019-04-06 Everybody knows what a notary public does, right? Actually, there is much misunderstanding and confusion about what the proper role and duty of a notary is. A notary public does not legalize documents, or verify the accuracy or truthfulness of the content or statements made in a document, and yet the role that a notary plays in ascertaining the identity of the person who signs a document, placing that person under oath, if required, and determining the signer's intent and willingness to consent to the transaction is vital in modern society. A notary public is a public official commissioned by the Secretary of State to administer oaths and affirmations, take acknowledgments, witness signatures, and perform other duties as permitted by state law. A notary should be familiar with the Idaho notary laws and to follow the standards of reasonable care for performing a notarial act.

Indiana Notary Public Guide Indiana Secretary of State,2019-04-06 A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.
