This book can also be used by Music Teachers or Parents who want to teach their children to 'Read Music Fast'. You can use these videos to guide your children in this Music Note Attack Method. Children learn much faster in this way as they learn to visualize these notes in their brain. ***** Reading Music: Traditional Way vs Non-Traditional Way It is FUN to learn to read music. There are some basic music fundamentals that you need to learn in order to be able to start reading music. You need to understand the music staff, the grand staff, the lines, the spaces, the alphabets, the letter names, treble clef, bass clef & middle C. I show you the Traditional Method of how students are taught to read music. The Traditional method WORKS but it is slow going. It is good for you to know the Traditional Method. We don't want to throw away what works. We want to improve on 'what works' to make it 'more fun' for beginners to overcome the frustrations of reading music! This is how my Note Attack & Say It Method got developed as I saw the joy of seeing students gaining confidence in these drills and exercises of moving from Level 1 (The Note Attack Method) to Level 2 (Application of the Note Attack Method) & then onto Level 3 (Drilling Exercises with Speed). Rosa's Music Note Attack Method: 1. Intuitive Visual Recognition 2. Visual Memory in the Brain 3. Say it out Loud to store in Brain 4. Practice Smart - Exercises You only need to know 7 alphabet letters: A B C D E F G. Once you learn to read these letters forward and backward using my Unique method, you will tap into the power of reading music notes quickly with

confidence. This will help you overcome all the years of fear and frustrations in reading music, and the reward you receive is for a life time. You learn to see the notes and read them like you read the names of your friends.

***** This is a UNIQUE Method that I develop for BEGINNERS who wants to learn how to read notes and to read them QUICKLY! We are dealing specifically in the area of reading the music notes on music staff in both the Treble Clef and Bass Clef. We are NOT dealing with reading other music symbols, rhythm, or value and duration of notes. Have Fun! Rosa

A Note in Time Paula Manwaring,2018-03-29 Learning to recognize the notes on a music staff can be challenging. 'A Note in Time' simplifies this process by learning just five notes at a time. If you are learning to read notes for the first time or reviewing them to strengthen your sight reading skills, *A Note in Time* keeps it simple. The exercises start with Middle C-G five finger hand position, then moves to Bass C-G, Treble C-G, Low G-D, Bass G-D, Treble G-D, Bass F-C, Treble F-C, and ends with All Treble and All Bass Notes. You don't have to go in order. Work with the group that is the most challenging for you as you learn or refreshen your memory of note recognition. Included with each group of five notes are timed note reading exercises, followed by melodic five-note pieces. As you complete each section, sight reading skills are greatly strengthened. By recognizing notes on the staff, learning new pieces will become easier and overall more fun to play!
