Building the Black Arts Movement Jonathan

Fenderson,2019-03-30 As both an activist and the dynamic editor of Negro Digest, Hoyt W. Fuller stood at the nexus of the Black Arts Movement and the broader black cultural politics of his time. Jonathan Fenderson uses historical snapshots of Fuller's life and achievements to rethink the period and establish Fuller's important role in laying the foundation for the movement. In telling Fuller's story, Fenderson provides provocative new insights into the movement's international dimensions, the ways the movement took shape at the local level, the impact of race and other factors, and the challenges--corporate, political, and personal--that Fuller and others faced in trying to build black institutions. An innovative study that approaches the movement from a historical perspective, *Building the Black Arts Movement* is a much-needed reassessment of the trajectory of African American culture over two explosive decades.

The Routledge Companion to the British and North American Literary Magazine Tim Lanzendörfer,2021-12-30

Encompassing a broad definition of the topic, this Companion provides a survey of the literary magazine from its earliest days to the contemporary moment. It offers a comprehensive theorization of the literary magazine in the wake of developments in periodical studies in the last decade, bringing together a wide variety of approaches and concerns. With its distinctive chronological and geographical scope, this volume sheds new light on the possibilities and difficulties of the concept of the literary magazine, balancing a comprehensive overview of key themes and examples with greater attention to new approaches to magazine research. Divided into three main sections, this book offers: • Theory—it investigates definitions and limits of what a literary magazine is

and what it does. • History and regionalism—a very broad historical and geographic sweep draws new connections and offers expanded definitions. • Case studies—these range from key modernist little magazines and the popular middlebrow to pulp fiction, comics, and digital ventures, widening the ambit of the literary magazine. The Routledge Companion to the British and North American Literary Magazine offers new and unforeseen cross-connections across the long history of literary periodicals, highlighting the ways in which it allows us to trace such ideas as the “literary” as well as notions of what magazines do in a culture.

Resource Exploitation in Native North America Bruce E. Johansen, 2016-01-11 This wide-ranging survey of the environmental damage to Native American lands and peoples in North America—in recent times as well as previous decades—documents the continuing impact on the health, wellness, land, and communities of indigenous peoples. Beginning in the early 1950s, Native peoples were recruited to mine yellow dust—uranium—and then, over decades, died in large numbers of torturous cancers. Uranium-induced cancers have become the deadliest plague unleashed upon Native peoples of North America—one with grave consequences impacting generations of American Indian families. Today, resource-driven projects such as the Keystone XL pipeline continue to put the health and safety of American Indians at risk. Authored by an expert with 40 years of experience in the subject, this book documents the environmental provocations afflicting Native American peoples in the United States: from the toll of uranium mining on the Navajos to the devastation wrought by dioxin, PCBs, and other pollutants on the agricultural economy of the Akwesasne Mohawk reservation in northernmost New York. The detailed personal stories of human suffering will enable readers to grasp the seriousness of the injustices levied against Native peoples as a result of corporations' and governments' greed for natural resources.

Muslim Women in Contemporary North America Meena Sharify-Funk,2022-12-06 Muslim Women in Contemporary North America is a provocative study of how strongly held and divergent opinions, values, and beliefs, as well as misconceptions, overgeneralizations, and political agendas pertaining to Muslim women in the region, enter the public frame of reference. Interrogating contested topics in a series of case studies from both Canada and the United States, this book probes below the surface in pursuit of deeper understanding and more productive dialogue. Chapters analyze controversies over clash literature, dissident reformists, female religious leadership, veils, and the nature of emancipation in a compelling examination of the ways in which Muslim, American, and Canadian identities and values are being defined, differentiated, and projected. By pinpointing both sources of dissonance and unexpected patterns of resonance among complex, composite, and at times overlapping identity constellations, this book uncovers the impact of controversies on broader cultural negotiations in the United States and Canada. Transforming controversy and cliché into genuine conversation, Muslim Women in Contemporary North America is an invaluable resource for scholars and students in the fields of Islamic and Muslim Studies, Gender Studies, International Relations, Political Science, and Sociology.

The American Nightmare Thomas A. Hockin,2003 This text offers an insight into the political challenges to free trade and US trade policy and explores the fragile ecosystem of multinational trade alliances in the face of insurgent political protests from both the left and the right. It also takes a close look at WTO obstacles such as the failure of member countries to follow dispute settlement arrangements; conflict surrounding the imminent membership of China; and the mercurial administration of trade law in the US. The author presents a case for the incoherence of American trade policy but also analyzes the systematic problems involved in free trade and suggests solutions.
