Civilizing the Internet Joseph Migga Kizza,1998-01-01 Besides creating a virtual utopian landscape, the Internet has given new exposure and to some extent a veiled degree of legitimacy to all sorts of human vices. Misdeeds upon the Internet have caught many people, communities, and governments off guard, and many are struggling to come up with policies and censorship mechanisms to regulate an Internet they see as going out of control. The most affected domains are telecommunications, broadcasting, and computer services. In essence, this book discusses the convergence of the three media. It looks at the historical development of the Internet, its globalization, the concerns it has raised, and the tools available to deal with these concerns on a variety of levels. Also analyzed are the attempts being made around the globe to regulate the Internet. Students in computer, engineering, and library studies will find the book particularly helpful. It also serves those working in information-sensitive areas such as insurance and banking.

Travellers, Merchants and Settlers in the Eastern Mediterranean, 11th-14th Centuries David Jacoby,2023-05-31 This collection of studies (the eighth by David Jacoby) covers a period witnessing intensive geographic mobility across the Mediterranean, illustrated by a growing number of Westerners engaging in pilgrimage, crusade, trading and shipping, or else driven by sheer curiosity. This movement also generated western settlement in the eastern Mediterranean region. A complex encounter of Westerners with eastern Christians and the Muslim world occurred in crusader Acre, the focus of two papers; a major emporium, it was also the scene of fierce rivalry between the Italian maritime powers. The fall of the crusader states in 1291 put an end to

western mobility in the Levant and required a restructuring of trade in the region. The next five studies show how economic incentives promoted western settlement in the Byzantine provinces conquered by western forces during the Fourth Crusade and soon after. Venice fulfilled a major function in Latin Constantinople from 1204 to 1261. The city's progressive economic recovery in that period paved the way for its role as transit station furthering western trade and colonization in the Black Sea region. Venice had also a major impact on demographic and economic developments in Euboea, located along the maritime route connecting Italy to Constantinople. On the other hand, military factors drove an army of western mercenaries to establish in central Greece a Catalan state, which survived from 1311 to the 1380s.

Dysfunction Dennis McConaghy, 2017-01-21 #1 Calgary Herald Bestseller An investigation of the history and demise of the most controversial North American energy infrastructure project. In 2015, President Barack Obama denied approval for TransCanada's Keystone XL pipeline, which would have carried crude oil from the Canadian oil sands to the U.S. Gulf Coast, providing great economic benefit to Canada. Over seven years of regulatory process, environmental activism, and media attention, the project had become infamous, a cause célèbre for North America's ENGO movement and a test of Obama's bona fides in the face of global climate change risk. As one of TransCanada's senior executive group, Dennis McConaghy provides an insider's

perspective of Keystone XL's history and demise. How did this routine infrastructure acquire iconic status? Why couldn't government and industry find some accommodation to salvage the project? And most importantly, what must Canada learn from Keystone XL's demise? Can the country find common ground between economic value and credible carbon policy?

National Security in International and Domestic Investment Law Yuwen Li, Feng Lin, Cheng Bian, 2023-10-20 This book offers a dynamic introduction to the new developments on national security review of foreign direct investment (FDI) from the perspectives of both domestic law and international investment law. COVID-19 and the Russian invasion of Ukraine have intensified FDI screening to an unprecedented scale, yet its purposes, scope and potential impact remain ambiguous and controversial. The book first attests the legitimacy of FDI screening by using the theory of National Security Constitution. Part I explicates the national security, public order and public health exceptions clauses in international investment law and the novel EU Regulation on FDI screening. Part II provides an in-depth analysis of FDI screening in China, France, Germany, Italy, the Netherlands, Poland and the UK, which have either witnessed momentous changes in domestic law recently or have adopted new laws to cope with the growing security concerns. The book illustrates how States and the EU are using legal instruments to tackle exigent and emerging challenges and the complexity of national security emanated from foreign investment, in the context of evolving disruptive digital technologies and the structural change of the global economy. The volume will be of great value to a wide range of audiences including academics in investment and trade law, legal practitioners, in-house counsels, policymakers, business professionals and law and business

students at the graduate level.

Cyberspace Sovereignty Binxing Fang, 2018-05-29 This book is the first one that comprehensively discusses cyberspace sovereignty in China, reflecting China's clear attitude in the global Internet governance: respecting every nation's right to independently choose a development path, cyber management modes and Internet public policies and to participate in the international cyberspace governance on an equal footing. At present, the concept of cyberspace sovereignty is still very strange to many people, so it needs to be thoroughly analyzed. This book will not only help scientific and technical workers in the field of cyberspace security, law researchers and the public understand the development of cyberspace sovereignty at home and abroad, but also serve as reference basis for the relevant decision-making and management departments in their work.

Unraveled Maxine Bedat, 2021-06-01 Longlisted for the FT/McKinsey Business Book of the Year Award A groundbreaking chronicle of the birth--and death--of a pair of jeans, that exposes the fractures in our global supply chains, and our relationships to each other, ourselves, and the planet Take a look at

your favorite pair of jeans. Maybe you bought them on Amazon or the Gap; maybe the tag says Made in Bangladesh or Made in Sri Lanka. But do you know where they really came from, how many thousands of miles they crossed, or the number of hands who picked, spun, wove, dyed, packaged, shipped, and sold them to get to you? The fashion industry operates with radical opacity, and it's only getting worse to disguise countless environmental and labor abuses. It epitomizes the ravages inherent in the global economy, and all in the name of ensuring that we keep buying more while thinking less about its real cost. In *Unraveled*, entrepreneur, researcher, and advocate Maxine Bédât follows the life of an American icon--a pair of jeans--to reveal what really happens to give us our clothes. We visit a Texas cotton farm figuring out how to thrive without relying on fertilizers that poison the earth. Inside dyeing and weaving factories in China, where chemicals that are banned in the West slosh on factory floors and drain into waterways used to irrigate local family farms. Sewing floors in Bangladesh and Sri Lanka are crammed with women working for illegally low wages to produce garments as efficiently as machines. Back in America, our jeans get stowed, picked, and shipped out by Amazon warehouse workers pressed to be as quick as the robots primed to replace them. Finally, those jeans we had to have get sent to landfills--or, if they've been donated, shipped back around the world to Africa, where they're sold for pennies in secondhand markets or buried and burned in mountains of garbage. A sprawling, deeply researched, and provocative tour-de-force, *Unraveled* is not just the story of a pair of pants, but also the story of our global economy and our role in it. Told with piercing insight and unprecedented reporting, *Unraveled* challenges us to use our relationship with our jeans--and all that we wear--to reclaim our central role as citizens

to refashion a society in which all people can thrive and preserve the planet for generations to come.

National Assembly and Legislative Effectiveness in Nigeria's Fourth Republic Adebola Rafiu BAKARE,2023-07-28 This book evaluates the legislative effectiveness of Nigeria's National Assembly under the Fourth Republic. The assessment covers five Assemblies (4th-8th) and focuses specifically on lawmaking, cost of running the National Assembly, and the budget making process. It empirically assesses the effectiveness of the Nigerian national legislature beyond previous emotional and sentimental evaluations of the institution. It has developed a model 'Institutional Legislative Effectiveness Score' used in assessing the institutional performance of the National Assembly from two perspectives: first, by comparing the performances of the two chambers in the same Assembly; and second, by comparing the performances of the institution across Assemblies. Aside lawmaking, the book also covers the major topical issues that characterized public evaluation of the institution. These include: size of the institution, budgeting process, cost of funding the institution, and the debate on the appropriate way in reforming the National Assembly.
