*21 Days to Master Numerology* David A. Phillips, 2012-03-19 Studies have shown it takes only 21 days for a new habit to take root. If there's a spiritual interest you've always wanted to take advantage of, the answer is just 21 days away with the 21 Days to Mastery Series. We may not notice, but numbers are all around us, and far from being random, they often have deep significance that can show us the key to our present and act as a guide to our future. Now, for the first time, there is a practical, easy-to-use guide to the power of numbers in our lives. Written by numerological expert David A. Phillips, *21 Days to Master Numerology* lets you understand the underlying meaning of the numbers in your life and enables you to understand the connection between your numerological patterns and your degree of abundance, health and general wellbeing. Overall, delving into the world of numbers will provide you with a simple and accurate way to decipher your experiences in the same manner that a road map helps you to navigate a route that you haven't previously travelled. That road map is now available to you wherever you are and whenever you're wondering about the deeper significance of the numbers that surround us.

**Instant Numerology** Sandra Kovacs Stein, 1986

*Numerology for Nitwits* Jil Balie, 2000-12 This fascinating volume explains numerology. The author has studied hundreds of books on the subject and after finding more confusion than clarification, she has tried to set down the basics in a simple, easy-to-understand manner. Comparing the ancient Fadic system

with other numerology systems, she checked names and birthdays for several years before concluding the Fadic system was the most accurate. You don't have to accept reincarnation to understand numerology, but it helps. Our numbers tell us what we came here to do, indicate what our karma is, and what we will have to contend with in arriving at our destiny. Instead of proceeding haphazardly through life, numerology maps out a course for us to follow. This book can be the start of a new life for you and your family.

**Numerology** RoseMaree Templeton, 2011-01-17 At 17, RoseMaree Templeton began her lifelong journey with numerology and Pythagorean theory, studying under her grandmother, Hettie Templeton, Australia's foremost numerologist during the 1940s and 1950s. Hettie Templeton worked for years among children and adults. In 1940 she wrote Numbers and their Influence, which she updated in 1956 with A Philosophy of

Numbers. She realised her methods were unorthodox, but wrote and taught in the certainty that her knowledge could help parents to better understand their children. In *Numerology: Numbers and their Influence*, RoseMaree combines Hetties teachings with her own insights and experience, written in an uncomplicated form for both beginners and serious students. RoseMarees style is a return to the basics of self-help numerology. The clear, comprehensive explanations in this book show how to calculate and interpret the ruling number, day number, destiny number and personal year number for yourself, your family members and your friends. Learn how to draw up and read birthdate and name charts, arrows, and the pyramid charts that map peaks and troughs throughout the course of a lifetime. Learn to understand the vibrational power of numbers to understand strengths and weaknesses, and those of others, and how best to take advantage of circumstances, favourable and unfavourable, that will occur during our lives. Comprehensive readings for well-known figures make fascinating reading as well as providing excellent guidelines for readers who want to take their numerology studies further.

Numerology Hans Decoz, 2001-01-01 For lovers of tarot, astrology, and deepening your connection with yourself and others-- a divine roadmap to numerology Ever notice how some numbers seem to follow us throughout the course of our lives? Consider the numbers we choose when buying a lotto ticket--birth dates, anniversaries, ages, and addresses as well as other hopefully lucky numbers. They each have some personal meaning. Through the centuries, numerologists have been studying the significance of numbers and perfecting their art in the belief that numbers strongly influence both our behavior and our fate. They have learned that by understanding the meaning of numbers, we can gain greater insight into ourselves. In *Numerology: Key to Your Inner Self*, world-renowned numerologist Hans Decoz and accomplished writer Tom Monte have teamed together to produce an easy-to-understand guide that introduces the reader to the

basic concepts and applications of numerology. Presented here is a technique that relates the major questions of an individual's life--his talents, challenges, career, and personal growth--with the basic numeric facts of his existence--his birth date and name. The book begins with a fascinating explanation of what numerology is and an intriguing look at the philosophy that lies behind it. It then examines how numerology works, focusing on the numeric meanings of personal names, birth dates, and language in general. Included is a step-by-step guide to calculating your own numbers and interpreting them in chart form.

The Complete Book of Numerology David A. Phillips, Ph.D., 2005-11-01 Discover the science of self-discovery To the conventional scientist, numbers are merely symbols of comparative quantities, but in the broader, metaphysical sense, they assume a deeper, more profound significance. The Complete Book of Numerology reveals the underlying meaning behind the numbers in your life and enables you to understand the connection between your numerological patterns and your degree of abundance, health, and general well-being. Overall, delving into the world of numbers will provide you with a simple and accurate way to decipher your experiences in the same manner that a road map helps you navigate a route that you haven't previously traveled.
