**A Unified Theory of Cats on the Internet** E.J.

White,2020-07-21 This cultural history reveals how cats became the undisputed mascot of the internet—"an essential look at life online" (Ryan Milner, author of *The World Made Meme*). Journalists and their readers seem to need no explanation for the line, "The internet is made of cats." Everyone understands the joke, but few know how it started. *A Unified Theory of Cats on the Internet* is the first book to explore the history of how the cat became the internet's best friend. Internet cats can differ in dramatic ways, from the goth cats of Twitter to the glamourpusses of Instagram to the giddy, nonsensical silliness of Nyan Cat. But they all share common traits and values. Bringing together fun anecdotes, thoughtful analyses, and hidden histories of the communities that built the internet, Elyse White shows how japonisme, punk culture, cute culture, and the battle among different communities for the soul of the internet informed the sensibility of online felines. Internet cats offer a playful and useful way to understand how culture shapes—and is shaped by—technology. Western culture has used cats for centuries as symbols of darkness, pathos, and alienation. The communities that helped build the internet represented themselves as outsiders, with snark and alienation at the core of their identity. Thus cats became the *sine qua non* of cultural literacy for the Extremely Online, as well as an everyday medium of expression for the rest of us. Whatever direction the internet takes next, the "series of tubes" is likely to remain cat-shaped.

The Routledge Comedy Studies Reader Ian Wilkie, 2019-10-10 The Routledge Comedy Studies Reader is a selection of the most outstanding critical analysis featured in the journal Comedy Studies in the decade since its inception in 2010. The Reader illustrates the multiple perspectives that are available when analysing comedy. Wilkie's selections present an array of critical approaches from interdisciplinary scholars, all of whom evaluate comedy from different angles and adopt a range of writing styles to explore the phenomenon. Divided into eight unique parts, the Reader offers both breadth and depth with its wide range of interdisciplinary articles and international perspectives. Of interest to students, scholars, and lovers of comedy alike, The Routledge Comedy Studies Reader offers a contemporary sample of general analyses of comedy as a mode, form, and genre.

Journal of Interdisciplinary Science Topics, Volume 2 Cheryl Hurkett, 2014-05-30 The Journal of Interdisciplinary Science Topics (JIST) forms part of the 'Science in Content' module in the third year of both the BSc and MSci Interdisciplinary Science degrees. It is intended to provide students with hands-on experience of, and insight into, the academic publishing process. The activity models the entire process from paper writing and submission, refereeing other students' papers, sitting on the editorial board that makes final decisions on the papers, to finally publishing in an online journal. This book is a compilation of the papers written by undergraduate students that were published during the 2012/2013 academic year.

**Don't Use Your Words!** Jane Juffer, 2019-05-28 How children are taught to control their feelings and how they resist this emotional management through cultural production Today, even young kids talk to each other across social media by referencing memes, songs, and movements, constructing a common vernacular that resists parental, educational, and media imperatives to name their feelings and thus control their bodies. Over the past two decades, children's television programming has provided a therapeutic site for the processing of emotions such as anger, but in doing so has enforced normative structures of feeling that, Jane Juffer argues, weaken the intensity and range of children's affective experiences. Don't Use Your Words! seeks to challenge those norms, highlighting the ways that kids express their feelings through cultural productions including drawings, fan art, memes, YouTube videos, dance moves, and conversations while gaming online. Focusing on kids between ages five and nine, Don't Use Your Words! situates these productions in specific contexts, including immigration policy referenced in drawings by Central American children just released from detention centers and electoral politics as contested in kids' artwork expressing their anger at Trump's victory. Taking issue with the mainstream tendency to speak on behalf of children, Juffer argues that kids have the agency to answer for themselves: what does it feel like to be a kid?

**Cat Is Art Spelled Wrong** Caroline Casey, Chris Fischbach, Sarah Schultz, 2015-09-07 "Fourteen writers take on perhaps the most important cultural issue of our time: figure out what we're talking about when we're talking about cat videos." —New York magazine Are cat videos art? This essay collection, funded by a Kickstarter campaign, addresses not just our fascination with cat videos, but also how we decide what is good or bad art, or art at all; how taste develops, how that can change, and why we love or hate something. It's about people and technology and just what it is about cats that makes them the

internet's cutest despots. This lively essay collection is intended as "an earnest attempt to uncover more about human nature—especially in today's internet-driven world." —Cool Hunting Contributors include: Sasha Archibald, Will Braden, Stephen Burt, Maria Bustillos, David Carr, Matthea Harvey, Alexis Madrigal, Joanne McNeil, Ander Monson, Kevin Nguyen, Elena Passarello, Jillian Steinhauer, Sarah Schultz, and Carl Wilson. "This clever collection is highly recommended for people who watch cat videos, which is apparently nearly everyone." —Publishers Weekly "A delight." —Chicago Tribune

**Videocracy** Kevin Allocca, 2018-01-25 From YouTube's Head of Culture and Trends, a rousing and illuminating behind-the-scenes exploration of internet video's massive impact on our world. Whether your favorite YouTube video is a cat on a Roomba, "Gangnam Style," the "Bed Intruder" song, an ASAPscience explainer, Rebecca Black's "Friday," or the "Evolution of Dance," Kevin Allocca's Videocracy reveals how these beloved videos and famous trends--and many more--came to be and why they mean more than you might think. YouTube is the biggest pool of cultural data since the beginning of recorded communication, with four hundred hours of video uploaded every minute. (It would take you more than sixty-five years just to watch the vlogs, music videos, tutorials, and other content posted in a single day!) This activity reflects who we are, in all our glory and ignominy. As Allocca says, if aliens wanted to understand our planet, he'd give them Google. If they wanted to understand us, he'd give them YouTube. In Videocracy, Allocca lays bare what YouTube videos say about our society and how our actions online--watching, sharing, commenting on, and remixing the people and clips that captivate us--are changing the face of entertainment, advertising, politics, and more. Via YouTube, we are fueling social movements, enforcing human rights, and redefining art--a lot more than you'd expect from a bunch of viral clips.

**NFTs** Alyssa Place, Rebecca Pry, 2023-05-02 NFTs - "non-

fungible tokens” representing digital assets traded in cryptocurrency - aren’t going anywhere. And now, for the first time ever, there’s a handy pocket field guide! NFTs: An Illustrated Field Guide is a beautifully illustrated guide to NFTs—a must-have for anyone interested in entering the NFT universe and learning about this incredible new trend that, for many people, may seem futuristic and obscure at first! Non-fungible tokens, so called because they are uniquely coded files “tokenized,” or stored on a blockchain ledger, are a new way to create, sell, trade, and collect unique digital assets. Each NFT can be traced by anyone to its owner by an imbedded digital code within it. Why “non-fungible”? Because, unlike a “fungible” form of currency like the US dollar, NFTs cannot be swapped any one for any other. Instead, each unique NFT must be purchased with cryptocurrencies like Bitcoin and Ethereum, and on a special online trading platform. Written by finance expert Alyssa Place, and beautifully illustrated by Rebecca Pry, this field guide will walk you through the various categories of NFTs, like collectibles, art, land, sports, and more. Inside this elegant paperback, you’ll find profiles on individual NFTs, each showcasing a full-page illustration, plus definitions of NFT terms, information on how and where to find NFTs, and how to collect them. It’s a complicated but excited world out there, and this visually stunning field guide will help you join the fun!?

**Screening Scarlett Johansson** Janice Loreck, Whitney Monaghan, Kirsten Stevens, 2019-12-03 Screening Scarlett Johansson: Gender, Genre, Stardom provides an account of Johansson's persona, work and stardom, extending from her breakout roles in independent cinema, to contemporary blockbusters, to her self-parodying work in science-fiction. Screening Scarlett Johansson is more than an account of Johansson's career; it positions Johansson as a point of reference for interrogating how femininity, sexuality, identity and genre play out through a contemporary woman star and the textual manipulations of her image. The chapters in this collection cast a critical eye over the characters Johansson has portrayed, the personas she has inhabited, and how the two intersect and influence one another. They draw out the multitude of meanings generated through and inherent to her performances, specifically looking at processes of transformation, metamorphosis and self-deconstruction depicted in her work.
