Lessons in Integration Erica Frankenberg, Gary Orfield, 2007-11-29 Segregation is deepening in American schools as courts terminate desegregation plans, residential segregation spreads, the proportion of whites in the population falls, and successful efforts to use choice for desegregation, such as magnet schools, are replaced by choice plans

with no civil rights requirements. Based on the fruits of a collaboration between the Civil Rights Project at Harvard University and the Southern Poverty Law Center, the essays presented in *Lessons in Integration: Realizing the Promise of Racial Diversity in American Schools* analyze five decades of experience with desegregation efforts in order to discover the factors accounting for successful educational experiences in an integrated setting. Starting where much political activity and litigation, as well as most previous scholarship, leaves off, this collection addresses the question of what to do--and to avoid doing--once classrooms are integrated, in order to maximize the educational benefits of diversity for students from a wide array of backgrounds. Rooted in substantive evidence that desegregation is a positive educational and social force, that there were many successes as well as some failures in the desegregation movement, and that students in segregated schools, whether overwhelmingly minority or almost completely white, are disadvantaged on some important educational and social dimensions when compared to their peers in well-designed racially diverse schools, this collection builds on but also goes beyond previous research in taking account of increasing racial and ethnic diversity that distinguishes present-day American society from the one addressed by the *Brown* decision a half-century ago. In a society with more than 40 percent nonwhite students and thousands of suburban communities facing racial change, it is critical to learn the lessons of experience and research regarding the effective operation of racially diverse and inclusive schools. *Lessons in Integration* will make a significant contribution to knowledge about how to make integration work, and as such, it will have a positive effect on educational practice while providing much-needed assistance to increasingly beleaguered

proponents of integrated public education.

Education Reform in New York City Jennifer A. O'Day,Catherine S. Bitter,Louis M. Gomez,2011 Written in an accessible style, the papers in this volume document and analyse particular components of the Children First reforms, including governance, community engagement, finance, accountability, and instruction. Aimed at instituting evidence-based practices to produce higher and more equitable outcomes for all students, the policies that comprise the Children First initiative represent an attempt at organisational improvement and systemic learning.

The Leader in Me Stephen R. Covey,2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective

People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you

should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

"Why We Drop Out" Deborah L. Feldman, Antony T. Smith, Barbara L. Waxman, 2017-07-14 These engaging narratives and unique insights will help readers to better understand the interplay of school-related and personal factors that lead students to drop out of school. It is essential reading for K-12 educators, school principals, counselors, psychologists, and everyone concerned with our nation's dropout crisis.

Organizing Schools for Improvement Anthony S. Bryk, Penny Bender Sebring, Elaine Allensworth, John Q. Easton, Stuart Luppescu, 2010-03-15 In 1988, the Chicago public school system decentralized, granting parents and communities significant resources and authority to reform their schools in dramatic ways. To track the

effects of this bold experiment, the authors of *Organizing Schools for Improvement* collected a wealth of data on elementary schools in Chicago. Over a seven-year period they identified one hundred elementary schools that had substantially improved—and one hundred that had not. What did the successful schools do to accelerate student learning? The authors of this illuminating book identify a comprehensive set of practices and conditions that were key factors for improvement, including school leadership, the professional capacity of the faculty and staff, and a student-centered learning climate. In addition, they analyze the impact of social dynamics, including crime, critically examining the inextricable link between schools and their communities. Putting their data onto a more human scale, they also chronicle the stories of two neighboring schools with very different trajectories. The lessons gleaned from this groundbreaking study will be invaluable for anyone involved with urban education.

Mining of Massive Datasets Jure Leskovec, Anand Rajaraman, Jeffrey David Ullman, 2014-11-13 Now in its second edition, this book focuses on practical algorithms for mining data from even the largest datasets.

Integrating Schools in a Changing Society Erica Frankenberg, Elizabeth H. Debray, 2011 In this comprehensive volume, a roster of leading scholars in educational policy and related fields offer eighteen essays seeking to illuminate new ways for American public education to counter persistent racial and socioeconomic inequality in our society. Drawing on extensive research, the contributors reinforce the key benefits of racially integrated schools, examine remaining options to pursue multiracial integration, and discuss case examples that suggest how to build support for those efforts--
