**NATO and Transatlantic Relations in the 21st Century** Michele Testoni, 2020-12-30 This book explores the evolution and future relevance of NATO from the perspective of the member-states. Addressing the overarching question of the relevance of transatlantic relations in the 21st century, the volume has three core objectives. The first is to reinforce the view that international alliances serve not only an external-oriented goal, but also a domestic-oriented aim, which is to control others' behaviour. The second is to show that tensions amongst NATO allies have become more acute and, therefore, more dangerous. The third is to discuss current transatlantic relations through the adoption of a second image perspective; that is, one that emphasizes the multiple vertical linkages that connect NATO to the politics and the policies of each ally. The chapters presented here are built on a dual approach: on the one hand, they look at the place the Alliance occupies in the domestic public debate and the strategic culture of specific member states; on the other, they analyze how each of these countries contributes to NATO's operations and what interests and visions they share for the Alliance's future. This book will be of much interest to students of NATO, international organizations, foreign policy, and security studies in general.

**Norway's EU Experience and Lessons for the UK** John Erik Fossum, Christopher Lord, Fay Madeleine Farstad, Arild Aurvåg Farsund, Merethe Dotterud Leiren, Espen D. H. Olsen, Marianne Riddervold, Johanne Døhlle Saltnes, Øyvind Svendsen, Jarle Trondal, 2023-10-13 This book examines Norway's affiliation to the EU and systematically assesses the potential suitability of this arrangement for the UK as a viable EU affiliation post-Brexit. Framing the book within the framework of the broader European context, the authors ask how much autonomy and room to manoeuvre tightly integrated non-member states have under this arrangement. They present an in-depth assessment of Norway's close EU affiliation and provide insight into what this may reveal to us about the post-Brexit European political order. The book's analytical framework centred on autonomy under complex interdependence has relevance well beyond the confines of the Norway case. This includes the UK, not least since the EU-UK Trade and Cooperation Agreement (TCA) leaves considerable uncertainty. It contains transitory elements; there will be implementation reviews, and there may be many more bilateral and multilateral agreements before the trade relationship is fully defined. This book will be of key interest to scholars and students of European Union politics, Norwegian politics, British politics, European integration, and, more broadly, to European studies and international relations.

**Advancing a Circular Economy** Stephen M Jones, 2021-03-01 This book explores an escalating modern-day crisis; managing waste in a sustainable way. The central question posed is whether advancing a circular economy provides a way to shift waste management practices towards more sustainable approaches. It begins with an in-depth analysis of the nature of waste management and the prevailing crisis, followed by a discussion about the circular economy in terms of its requirements and the challenges of implementation. The book then moves on to propose a framework that sets out how to establish the policy changes needed to advance a circular approach to waste management. Next, the book outlines complex issues in multilevel systems for advancing a circular economy through examining the contemporary situation in Belgium and Norway. It ends by bringing together the issues revealed in these case studies and draws insights for governments advocating circular approaches. The book will be a valuable resource to scholars, students, practitioners and policy makers interested in developing more sustainable methods of waste management.

**Norske tabuer** Sanna Sarromaa, 2016-09-30 Norsk skole stiller for få krav, nordmenn er flinkere til å jobbe enn til å jobbe og hva skal vi egentlig med distriktene? Forfatter Sanna Sarromaa er kjent for sine friske aviskronikker og har vakt mediestorm med sine utspill om norske mødre, nynorsk og det norske likhetstyranniet. Med boka Norske tabuer ønsker hun å rokke ved konformiteten og kollektivismen som hun mener truer med å gjøre oss alle akkurat like – og like dumme – i dette landet. Hun utfordrer våre etablerte sannheter med sitt finsk-norske blikk på samfunnet, men gjør det med kjærlighet til norske menn i bunad, til dugnad og alt som er bra med verdens beste land.

**Rethinking National Identity in the Age of Migration** Migration Policy Institute, Bertelsmann Stiftung, 2012-11-30 Greater mobility and migration have brought about unprecedented levels of diversity that are transforming communities across the Atlantic in fundamental ways, sparking uncertainty over who we are in a society. As publics fear loss of their national identity and values, the need is greater than ever to reinforce the bonds that tie communities together. Yet, while a consensus may be emerging as to what has not worked well, little thought has been given to developing a new organizing principle for community cohesion. Such a vision needs to smooth divisions between immigration's winners and losers, blunt extremism, and respond smartly to changing community and national identities. This volume will examine the lessons that can be drawn from various approaches to immigrant integration and managing diversity in North America and Europe. The book delivers recommendations on what policymakers must do to build and reinforce inclusiveness given the realities on each side of the Atlantic. It offers insights into the next generation of policies that can (re)build inclusive societies and bring immigrants and natives together in pursuit of shared futures.

**New Challenges and Solutions for Renewable Energy** Paul Midford, Espen Moe, 2021-02-12 This book identifies second stage challenges and opportunities for expanding renewable energy into a mainstay of electricity generation that can replace fossil fuels and nuclear power, comparing Japan with several countries in East Asia and Northern Europe. Environmentally sustainable renewable energy technologies have now overtaken fossil fuel and nuclear technologies in terms of total global investment, and the costs of these technologies and related ones (e.g. storage batteries) are rapidly falling. Yet renewable energy use varies greatly from country to country. Major second stage obstacles to replacing fossil and nuclear-fueled electricity generation include the lack of electricity grid capacity and storage assets. Opportunities and solutions include expanding grids regionally and internationally, building flexible smart grids that offer better demand management, and policies that promote the expansion of storage assets, especially grid batteries and hydrogen. In addition, two key factors – electricity market restructuring through unbundling transmission from electricity generating companies; and electricity market liberalization, especially for retail customers – allow consumers to choose power companies based not only on price, but also on method of generation, especially fossil or nuclear generation versus renewable energy.

**Political Communication and COVID-19** Darren Lilleker, Ioana A. Coman, Miloš Gregor, Edoardo Novelli, 2021-03-18 This edited collection compares and analyses the most prominent political communicative responses to the outbreak and global spread of the COVID-19 strain of coronavirus within 27 nations across five continents and two supranational organisations: the EU and the WHO. The book encompasses the various governments' communication of the crisis, the

role played by opposition and the vibrancy of the information environment within each nation. The chapters analyse the communication drawing on theoretical perspectives drawn from the fields of crisis communication, political communication and political psychology. In doing so the book develops a framework to assess the extent to which state communication followed the key indicators of effective communication encapsulated in the principles of: being first; being right; being credible; expressing empathy; promoting action; and showing respect. The book also examines how communication circulated within the mass and social media environments and what impact differences in spokespersons, messages and the broader context has on the success of implementing measures likely to reduce the spread of the virus. Cumulatively, the authors develop a global analysis of the responses and how these are shaped by their specific contexts and by the flow of information, while offering lessons for future political crisis communication. This book will be of great interest to students and researchers of politics, communication and public relations, specifically on courses and modules relating to current affairs, crisis communication and strategic communication, as well as practitioners working in the field of health crisis communication. **Preventing Crime** Tore Bjørge, 2016-01-26 Traditional schools of crime prevention, like the criminal justice model, social crime prevention or situational crime prevention, have proved to be too narrow and do not combine well with other approaches. However, each of these models provides important insights and contributions for reducing crime. By extracting the main preventive mechanisms of these diverse approaches, this book develops a more holistic, general model that consists of nine preventive mechanisms: building normative barriers to crime, reducing recruitment, deterrence, disruption, incapacitation, protecting vulnerable targets, reducing benefits of crime, reducing harm, and facilitating desistance. The measures to activate the preventive mechanisms may differ according to the type of crime, as may the actors in charge of implementing the relevant measures. However, Tore Bjørge demonstrates how his model of crime prevention can be effectively applied to diverse forms of crime, from domestic burglaries to criminal youth gangs and driving under the influence to organized crime and terrorism. In doing so, this important book will be of interest to scholars and students of policing, security studies and criminology, as well as practitioners and policy-makers.

**Undoing Homogeneity in the Nordic Region** Suvi Keskinen, Unnur Dís Skaptadóttir, Mari Toivanen, 2019-06-03 Chapter 1 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

[https://tandfbis.s3-us-west-2.amazonaws.com/rt-files/docs/Open+Access+Chapters/9781138564275\\_oachapter1.pdf](https://tandfbis.s3-us-west-2.amazonaws.com/rt-files/docs/Open+Access+Chapters/9781138564275_oachapter1.pdf) This book critically engages with dominant ideas of cultural homogeneity in the Nordic countries and contests the notion of homogeneity as a crucial determinant of social cohesion and societal security. Showing how national identities in the Nordic region have developed historically around notions of cultural and racial homogeneity, it exposes the varied histories of migration and the longstanding presence of ethnic minorities and indigenous people in the region that are ignored in dominant narratives. With attention to the implications of notions of homogeneity for the everyday lives of migrants and racialised minorities in the region, as well as the increasing securitisation of those perceived not to be part of the homogenous nation, this volume provides detailed analyses of how welfare state policies, media, and authorities seek to manage and govern cultural, religious, and racial differences. With studies of national minorities, indigenous people and migrants in the analysis of homogeneity and difference, it sheds light on the agency of minorities and the intertwining of securitisation policies with notions of culture, race, and religion in the government of difference. As such it will appeal to scholars and students in social sciences and humanities with interests in race and ethnicity, migration, postcolonialism, Nordic studies, multiculturalism, citizenship, and belonging.

**Arven etter Erna** Wegard Harsvik, 2021-04-16 Hvordan har Norge blitt forandret etter nesten åtte år med en høyreregjering? I denne boken gjør forfatter Wegard Harsvik opp status: Vi har fått et samfunn med økende ulikhet og mer privatisering. Harsvik viser hvordan budsjettkutt og reformer har påvirket livene til eldre, uføre og arbeidsledige. Han dokumenterer hvordan Solbergregjeringenes skatteuttak til de rikeste skaper større forskjeller og ikke vekst og jobber i økonomien. Han drøfter også hvordan det har påvirket den politiske kulturen og ordskiftet at et høyrepopulistisk parti ble sluppet inn i regjeringen, og ser dette også i en historisk og internasjonal sammenheng. Under ledelse av statsminister Erna Solberg har landet vårt blitt endret - Arven etter Erna gir stoff til ettertanke for alle som er opptatt av hvor vi som samfunn er på vei. Wegard Harsvik (f. 1967) leder for samfunnskontakt og strategi i LO. Han har lang politisk erfaring, blant annet som statssekretær, politisk rådgiver og stortingsrepresentant (Ap). Harsvik har cand.mag. i sosialøkonomi, sosiologi og historie fra UiO, og har skrevet flere bøker, blant annet Blåkopi (2013) og Ord er makt, med Sara Gunnerud, (2015).

**Electronic Participation** Robert Krimmer, Marius Rohde Johannessen, Thomas Lampoltshammer, Ida Lindgren, Peter Parycek, Gerhard Schwabe, Jolien Ubacht, 2023-01-07 This book constitutes the proceedings of the 14th IFIP WG 8.5 International Conference on Electronic Participation, ePart 2022, held in Linköping, Sweden, during September 6–8, 2022, in conjunction with IFIP WG 8.5 Electronic Government (EGOV 2022), and the Conference for E-Democracy and Open Government Conference (CeDEM 2022). The 12 full papers presented were carefully reviewed and selected from 26 submissions. The papers are clustered under the following topical sections: E-democracy and e-participation; ICT & sustainability; digital and social media; legal informatics; and digital society.

**Exporting Global Jihad** Tom Smith, Hussein Solomon, 2020-06-11 This timely 2 volume edited collection looks at the extent and nature of global jihad, focusing on the often-exoticised hinterlands of jihad beyond the traditionally viewed Middle Eastern 'centre'. As ISIS loses its footing in Syria and Iraq and al-Qaeda regroup this comprehensive account will be a key work in the on-going battle to better understand the dynamics of the jihads global reality. Critically examining the global reach of the jihad in these peripheries has the potential to tell us much about patterns of both local mobilisation, and local rejection of a grander centrally themed and administered jihad. Has the periphery been receptive to an exported jihad from the centre or does the local rooted cosmopolitanism of the jihad in the periphery suggest a more complex glocal relationship? These questions and challenges are more pertinent than ever as the likes of ISIS and many commentators, attempt to globally rebrand the jihad and as the centre reasserts its claims to the exotic periphery. Edited by Tom Smith (Portsmouth), Kirsten E. Schulze (LSE) and Hussein Solomon (UFS) the two volumes critically examine the various claims of connections between jihadist terrorism in the 'periphery', remote Islamist insurgencies of the 'periphery' and the global jihad. Each volume draws on experts in each of the geographies in question. The global nature of the jihad

is too often taken for granted; yet the extent of the global connections deserve focused investigation. Without such inquiry we risk a reductive understanding of the global jihad, further fostering Orientalist and Eurocentric attitudes towards local conflicts and remote violence in the periphery. This book will therefore draw attention to those who overlook and undermine the distinct and rich particularities of the often-contradictory and cosmopolitan global jihad. In many of the peripheries, particularly those with intensive large-scale insurgencies, there is extensive international military alliance. The Bush doctrine to 'fight them over there, so we don't have to fight them over here' certainly looks to be alive and well in places like Somalia, the Philippines and Niger amongst many others. Crucially we must ask - is such reasoning sound – is the threat global and if so in what way? Furthermore - is action in the peripheries under the guise of combating the global jihad overlooking the local issues and threatening to make a wider threat where it was otherwise contained? Diagnosing nations or regions as 'breeding grounds' or 'sanctuaries' of global jihad carries the spectre of having to choose sides in a battle of civilisations, which looms over a number of developing nations reliant on good western relations.

**Lone Wolf and Autonomous Cell Terrorism** Jeffrey Kaplan, Heléne Löw, Leena Malkki, 2017-10-02 President Obama has declared that the greatest terrorist threat which America faces is attacks by lone wolf terrorists. This volume expands the lone wolf rubric to include autonomous cells: small groups of terrorists who cooperate, but operate independently. The challenge presented by lone wolves and autonomous cells, unlike the threat emanating from established terrorist groups like Al Qaeda, has proven intractable because of the difficulty of gathering intelligence on these actors or effectively countering their actions. Lone wolves operate under the radar, staging deadly attacks such as that at the Boston Marathon, and the 2011 attacks in Norway. This volume includes Theory and Policy Studies, individual case studies and the technological impacts of chemical, biological and nuclear weapons as well as the impact of social media in the process of recruitment and radicalization. This book was originally published as a special issue of *Terrorism & Political Violence*.

**Contemporary Christian-Cultural Values** Cecilia Nahnfeldt, Kaia S. Rønnsdal, 2021-05-31 This book reconstructs the connection between religion and migration, drawing on post-colonial perspectives to shed light on what religion can contribute to migrant encounters. Examining the resources and motives for hospitality as lived in Christian contexts in the Nordic region, it addresses the content of talk about religion in public discourse, the concept having become something of an empty signifier in debates surrounding migration. Multidisciplinary in approach, this volume demonstrates that religion is not, in fact, an empty signifier, but gains substance through practice and interpretation. Considering the undeveloped potentiality of religion and the manner in which the unseen religious perspective in secularity becomes manifest in practice, this volume will appeal to social scientists and scholars of religion with interests in migration, refugee studies, theology, and Christian practice.

**Reindeer and Caribou** Morten Tryland, Susan J. Kutz, 2018-11-09 This book is a comprehensive presentation of health and diseases in reindeer and caribou, or just Rangifer, a key Circumarctic species with broad social and ecological value. It is an essential reference for anyone interested in the biology and health of wild or semi-domesticated reindeer and caribou, and is more broadly relevant for those with interests in other species of free-ranging and captive cervids. Beginning with a general introduction to Rangifer as a species, it then focuses on Rangifer health as a concept and describes the determinants of health at an individual and population level. Chapters cover a range of topics from nutrition and feeding to stress, non-infectious and infectious diseases, meat hygiene, capture and restraint, diagnosis and treatment of health issues, and finally, potential impacts of climate change on health of Rangifer. *Reindeer and Caribou: Health and Disease* compiles extensive research and experience-based information on issues ranging from drug doses for chemical immobilization, blood chemistry values, and raising an orphaned calf. In addition, it contains hundreds of high quality colour illustrations that contribute to its value as a diagnostic resource for recognizing various parasites, pathogens and signs of disease, both in live and dead animals. Each chapter is followed by a comprehensive list of references and a list of contact information for all the contributors, identifying world experts in the different areas of health for this circumpolar and fascinating species. This book is compulsory reading and an indispensable resource for anyone dealing with health in reindeer and caribou, including veterinarians, wildlife biologists and managers, reindeer herders/game ranchers, zoological husbandry personnel, and students with wildlife health.

**Innovation in Public Planning** Aksel Hagen, Ulla Høgdem, 2020-07-10 This book contributes to the discourse on planning theory by accentuating the perspective of public innovation. Extending planning theory's traditional two major perspectives - 'Communicate' and 'Calculate' - the book argues that contemporary planning theory should incorporate 'Innovate' as a third perspective. It highlights the multitude of new perspectives that innovative planning can bring to bear on planning theory, as well as showing how the interplay between the three perspectives - 'Communicate', 'Calculate' and 'Innovate' - can help to address vital issues in contemporary societal development.

**Media and Terrorism in the 21st Century** Ismayil, Elnur, Karadogan Ismayil, Ebru, 2022-04-22 Media plays a specific role within modern society. It has been and continues to be a tool for spreading terrorist messages. However, it can just as easily be used as a tool for countering terrorism. During these challenging times where both international and domestic terrorism continue to threaten the livelihoods of citizens, it is imperative that studies are undertaken to examine the media's role in the spread of terrorism, as well as to explore strategies and protocols that can be put in place to mitigate the spread. *Media and Terrorism in the 21st Century* presents the emerging ideas and insights from experts, academicians, and professionals on the role media and new media plays in terrorist propaganda from a critical international perspective. It examines the historical relation between media and terror and analyzes the difficulties and obstacles presented by the relation in the 21st century. Covering topics such as AI-based dataveillance, media development trends, and virtual terrorism, this book is an indispensable resource for government officials, communications experts, politicians, security professionals, sociologists, students and educators of higher education, researchers, and academicians.
