William H. Frey

Hurricane Hazel Hazel McCallion, Robert Brehl, 2014-10-28

Throughout her ground-breaking career in business and politics, Hurricane Hazel McCallion has seen it all. In 1978, she defeated a popular incumbent to win election as mayor of Mississauga, a rising city near Toronto that was, until then, a collection of towns, villages and farms. No one would have foreseen that the indomitable Hurricane Hazel would become so wildly popular she would remain mayor until 2014, retiring at age 93. Within months of taking office, Mayor McCallion orchestrated the largest Canadian peacetime evacuation at the time after a train derailed and put almost 250,000 Mississauga residents in harm's way of deadly chlorine gas. The incident made her an international media star and cemented her reputation as a plain-speaking, decisive political leader. She's been courted by federal and provincial parties over the years but turned them all down, declaring, I could never toe the party line. I'd wear out the carpet crossing the floor. In her memoir, McCallion writes about her early years as the feisty mayor of a growing city; battles with politicians and business leaders; her love of hockey and abhorrence of on-ice violence; where the feminist movement misses its mark; and how she watched and dealt with

her beloved husband's fall into the grip of Alzheimer's. Hazel's run as the leader of one of the fastest-growing cities in Canada has been nothing short of remarkable. The book is the story of Hazel's political, personal and business life, with all of its bumps and bruises along the way, as honest, bold and straightforward as the woman herself.

American Mirror: The Life and Art of Norman Rockwell

Deborah Solomon, 2013-11-05 The long-awaited biography of the defining illustrator of the twentieth century by a celebrated art critic-

One Damn Thing After Another William P. Barr, 2022-03-08

INSTANT #1 NEW YORK TIMES BESTSELLER The former attorney general provides a candid account of his historic tenures serving two vastly different presidents, George H.W. Bush and Donald J. Trump. William Barr's first tenure as attorney general under President George H.W. Bush was largely the result of chance, while his second tenure under President Donald Trump a deliberate and difficult choice. In this candid memoir, Barr takes readers behind the scenes during seminal moments of the 1990s, from the LA riots to Pan Am 103 and Iran Contra. Thirty years later, Barr faced an unrelenting barrage of issues, such as

Russiagate, the COVID outbreak, civil unrest, the impeachments, and the 2020 election fallout. *One Damn Thing After Another* is vivid, forthright, and essential not only to understanding the Bush and Trump legacies, but also how both men viewed power and justice at critical junctures of their presidencies.

Power Wars Charlie Savage, 2015-11-03 Pulitzer Prize-winning journalist Charlie Savage's penetrating investigation of the Obama presidency and the national security state. Barack Obama campaigned on changing George W. Bush's global war on terror but ended up entrenching extraordinary executive powers, from warrantless surveillance and indefinite detention to military commissions and targeted killings. Then Obama found himself bequeathing those authorities to Donald Trump. How did the United States get here? In *Power Wars*, Charlie Savage reveals high-level national security legal and policy deliberations in a way no one has done before. He tells inside stories of how Obama came to order the drone killing of an American citizen, preside over an unprecedented crackdown on leaks, and keep a then-secret program that logged every American's phone calls. Encompassing the first comprehensive history of NSA surveillance over the past forty years as well as new information about the Osama bin Laden

raid, *Power Wars* equips readers to understand the legacy of Bush's and Obama's post-9/11 presidencies in the Trump era.

Confidence Man Maggie Haberman, 2022-10-05 From the Pulitzer Prize-winning New York Times reporter who has defined Donald J. Trump's presidency like no other journalist: a magnificent and disturbing reckoning that chronicles his life and its impact, from his rise in New York City to his tortured postpresidency. All of Trump's behavior as president had echoes in what came before. In this revelatory and news-making book, Haberman brings together the events of his life into a single mesmerizing work. It is the definitive account of one of the most norms-shattering and consequential eras in American political history.

It's Even Worse Than It Looks Thomas E. Mann, Norman J. Ornstein, 2016-04-05 Hyperpartisanship is as old as American democracy. But now, acrimony is not confined to a moment; it's a permanent state of affairs and has seeped into every part of the political process. Identifying the overriding problems that have led Congress—and the United States—to the brink of institutional collapse, *It's Even Worse Than It Looks* profoundly altered the debate about why America's government has become so dysfunctional. Through a new preface and afterword, Thomas

Mann and Norman Ornstein bring the story forward, examining the 2012 presidential campaign and exploring the prospects of a less dysfunctional government. As provocative and controversial as ever, *It's Even Worse Than It Looks* will continue to set the terms of our political debate in the years to come.

Better Living Through Criticism A. O. Scott, 2017-02-07 The New York Times film critic shows why we need criticism now more than ever Few could explain, let alone seek out, a career in criticism. Yet what A.O. Scott shows in *Better Living Through Criticism* is that we are, in fact, all critics: because critical thinking informs almost every aspect of artistic creation, of civil action, of interpersonal life. With penetrating insight and warm humor, Scott shows that while individual critics--himself included--can make mistakes and find flaws where they shouldn't, criticism as a discipline is one of the noblest, most creative, and urgent activities of modern existence. Using his own film criticism as a starting point--everything from his infamous dismissal of the international blockbuster *The Avengers* to his intense affection for Pixar's animated *Ratatouille*--Scott expands outward, easily guiding readers through the complexities of Rilke and Shelley, the origins of Chuck Berry and the Rolling Stones, the power of Marina

Abramovich and 'Ode on a Grecian Urn.' Drawing on the long tradition of criticism from Aristotle to Susan Sontag, Scott shows that real criticism was and always will be the breath of fresh air that allows true creativity to thrive. The time for criticism is always now, Scott explains, because the imperative to think clearly, to insist on the necessary balance of reason and passion, never goes away.

Buried by the Times Laurel Leff, 2005-03-21 An in-depth look at how The New York Times failed in its coverage of the fate of European Jews from 1939–45. It examines how the decisions that were made at The Times ultimately resulted in the minimizing and misunderstanding of modern history's worst genocide. Laurel Leff, a veteran journalist and professor of journalism, recounts how personal relationships at the newspaper, the assimilationist tendencies of The Times' Jewish owner, and the ethos of mid-century America, all led The Times to consistently downplay news of the Holocaust. It recalls how news of Hitler's 'final solution' was hidden from readers and - because of the newspaper's influence on other media - from America at large. *Buried by The Times* is required reading for anyone interested in America's response to the Holocaust and for anyone curious about how journalists determine what is newsworthy.

Last Call at the Hotel Imperial Deborah Cohen, 2022-03-15

winning historian's "effervescent" (The New Yorker) account of a close-knit band of wildly famous American reporters who, in the run-up to World War II, took on dictators and rewrote the rules of modern journalism "High-speed, four-lane storytelling . . . Cohen's all-action narrative bursts with colour and incident."—Financial

Times NEW YORK TIMES EDITORS' CHOICE • **WINNER OF**

THE GOLDSMITH BOOK PRIZE • **FINALIST FOR THE PROSE**

AWARD ONE OF THE BEST BOOKS OF THE YEAR: The New

Yorker, Vanity Fair, NPR, BookPage, Booklist They were an

astonishing group: glamorous, gutsy, and irreverent to the bone. As

club reporters in the 1920s, they roamed across a war-ravaged

world, sometimes perched atop mules on wooden saddles,

sometimes gliding through countries in the splendor of a first-class

sleeper car. While empires collapsed and fledgling democracies

faltered, they chased deposed empresses, international financiers,

and Balkan gun-runners, and then knocked back doubles late into

the night. Last Call at the Hotel Imperial is the extraordinary story

of John Gunther, H. R. Knickerbocker, Vincent Sheean, and

Dorothy Thompson. In those tumultuous years, they landed

exclusive interviews with Hitler and Mussolini, Nehru and Gandhi, and helped shape what Americans knew about the world. Alongside these backstage glimpses into the halls of power, they left another equally incredible set of records. Living in the heady afterglow of Freud, they subjected themselves to frank, critical scrutiny and argued about love, war, sex, death, and everything in between. Plunged into successive global crises, Gunther, Knickerbocker, Sheean, and Thompson could no longer separate themselves from the turmoil that surrounded them. To tell that story, they broke long-standing taboos. From their circle came not just the first modern account of illness in Gunther's *Death Be Not Proud*—a memoir about his son's death from cancer—but the first no-holds-barred chronicle of a marriage: Sheean's *Dorothy and Red*, about Thompson's fractious relationship with Sinclair Lewis. Told with the immediacy of a conversation overheard, this revelatory book captures how the global upheavals of the twentieth century felt up close.

The Age of Acrimony Jon Grinspan, 2021-04-27 A penetrating, character-filled history “in the manner of David McCullough” (WSJ), revealing the deep roots of our tormented present-day politics. Democracy was broken. Or that was what many Americans

believed in the decades after the Civil War. Shaken by economic and technological disruption, they sought safety in aggressive, tribal partisanship. The results were the loudest, closest, most violent elections in U.S. history, driven by vibrant campaigns that drew our highest-ever voter turnouts. At the century's end, reformers finally restrained this wild system, trading away participation for civility in the process. They built a calmer, cleaner democracy, but also a more distant one. Americans' voting rates crashed and never fully recovered. This is the origin story of the “normal” politics of the 20th century. Only by exploring where that civility and restraint came from can we understand what is happening to our democracy today. The Age of Acrimony charts the rise and fall of 19th-century America's unruly politics through the lives of a remarkable father-daughter dynasty. The radical congressman William “Pig Iron” Kelley and his fiery, Progressive daughter Florence Kelley led lives packed with drama, intimately tied to their nation's politics. Through their friendships and feuds, campaigns and crusades, Will and Florie trace the narrative of a democracy in crisis. In telling the tale of what it cost to cool our republic, historian Jon Grinspan reveals our divisive political system's enduring capacity to reinvent itself.

Nobrow John Seabrook, 2001-02-06 From John Seabrook, one of our most incisive and amusing cultural critics, comes *Nobrow*, a fascinatingly original look at the radical convergence of marketing and culture. In the old days, highbrow was elite and unique and lowbrow was commercial and mass-produced. Those distinctions have been eradicated by a new cultural landscape where “good” means popular, where artists show their work at K-Mart, Titanic becomes a bestselling classical album, and Roseanne Barr guest edits *The New Yorker*: in short, a culture of *Nobrow*. Combining social commentary, memoir, and profiles of the potentates and purveyors of pop culture—entertainment mogul David Geffen, MTV President Judy McGrath, Snoop Doggy Dogg, *Nobrow* high-priest George Lucas, and others—Seabrook offers an enthralling look at our breakneck society where culture is ruled by the unpredictable Buzz and where even aesthetic worth is measured by units shipped.

Hacks Donna Brazile, 2017-11-07 NEW YORK TIMES
BESTSELLER Explosive... A blistering tell-all.---Washington Post
People should sit up, take notes and change things.---Ace Smith,
Los Angeles Times Brazile most certainly has a story to tell....
Vivid.---The Guardian From Donna Brazile, former DNC chair and

legendary political operative, an explosive and revealing new look at the 2016 election: the first insider account of the Russian hacking of the DNC and the missteps by the Clinton campaign and Obama administration that enabled a Trump victory. In the fallout of the Russian hacking of the Democratic National Committee--and as chaos threatened to consume the party's convention--Democrats turned to a familiar figure to right the ship: Donna Brazile. Known to millions from her frequent TV appearances, she was no stranger to high stakes and dirty opponents, and the longtime Democratic strategist had a reputation in Washington as a one-stop shop for fixing sticky problems. What Brazile found at the DNC was unlike anything she had experienced before--and much worse than is commonly known. The party was beset by infighting, scandal, and hubris, while reeling from a brazen and wholly unprecedented attempt by a foreign power to influence the presidential election. Plus, its candidate, Hillary Clinton, faced an opponent who broke every rule in the political playbook. Packed with never-before-reported revelations about what went down in 2016, *Hacks* is equal parts campaign thriller, memoir, and roadmap for the future. With Democrats now in the wilderness after this historic defeat, *Hacks* argues that staying silent about what went wrong helps no one.

Only by laying bare the missteps, miscalculations, and crimes of 2016, Brazile contends, will Americans be able to salvage their democracy.

The Room Where It Happened John Bolton, 2024-01-30 As President Trump's National Security Advisor, John Bolton spent many of 453 days in the room where it happened, and the facts speak for themselves. The result is a "scathing and revelatory" (The New Yorker) White House memoir that is the most comprehensive and substantial account of the Trump Administration, and one of the few to date by a top-level official. With almost daily access to the President, John Bolton has produced a precise rendering of his days in and around the Oval Office. What Bolton saw astonished him: a President for whom getting reelected was the only thing that mattered, even if it meant endangering or weakening the nation. "I am hard-pressed to identify any significant Trump decision during my tenure that wasn't driven by reelection calculations," he writes. In fact, he argues that the House committed impeachment malpractice by keeping its prosecution focused narrowly on Ukraine when Trump's Ukraine-like transgressions existed across the full range of his foreign policy—and Bolton documents exactly what those were, and

attempts by him and others in the Administration to raise alarms about them. He shows a President addicted to chaos, who embraced our enemies and spurned our friends, and was deeply suspicious of his own government. In Bolton's telling, all this helped put Trump on the bizarre road to impeachment. "The differences between this presidency and previous ones I had served were stunning," writes Bolton, who worked for Reagan, Bush 41, and Bush 43. He discovered a President who thought foreign policy is like closing a real estate deal—about personal relationships, made-for-TV showmanship, and advancing his own interests. As a result, the US lost an opportunity to confront its deepening threats, and in cases like China, Russia, Iran, and North Korea ended up in a more vulnerable place. Bolton's "first tell-all memoir by such a high-ranking official" (The New York Times) starts with his long march to the West Wing as Trump and others woo him for the National Security job. The minute he lands, he has to deal with Syria's chemical attack on the city of Douma, and the crises after that never stop. As he writes in the opening pages, "If you don't like turmoil, uncertainty, and risk—all the while being constantly overwhelmed with information, decisions to be made, and sheer amount of work—and enlivened by international and

domestic personality and ego conflicts beyond description, try something else.” The turmoil, conflicts, and egos are all there—from the upheaval in Venezuela, to the erratic and manipulative moves of North Korea’s Kim Jong Un, to the showdowns at the G7 summits, the calculated warmongering by Iran, the crazy plan to bring the Taliban to Camp David, and the placating of an authoritarian China that ultimately exposed the world to its lethal lies. But this seasoned public servant also has a great eye for the Washington inside game, and his story is full of wit and wry humor about how he saw it played.

The New York Times Cooking No-Recipe Recipes Sam Sifton, 2021-03-16 NATIONAL BESTSELLER • The debut cookbook from the popular New York Times website and mobile app NYT Cooking, featuring 100 vividly photographed no-recipe recipes to make weeknight cooking more inspired and delicious. ONE OF THE BEST COOKBOOKS OF THE YEAR: Vanity Fair, Time Out, Salon, Publishers Weekly You don’t need a recipe. Really, you don’t. Sam Sifton, founding editor of New York Times Cooking, makes improvisational cooking easier than you think. In this handy book of ideas, Sifton delivers more than one hundred no-recipe recipes—each gloriously photographed—to make with the

ingredients you have on hand or could pick up on a quick trip to the store. You'll see how to make these meals as big or as small as you like, substituting ingredients as you go. Fried Egg Quesadillas. Pizza without a Crust. Weeknight Fried Rice. Pasta with Garbanzos. Roasted Shrimp Tacos. Chicken with Caramelized Onions and Croutons. Oven S'Mores. Welcome home to freestyle, relaxed cooking that is absolutely yours.

Breaking News Alan Rusbridger, 2018-11-27 An urgent account of the revolution that has upended the news business, written by one of the most accomplished journalists of our time Technology has radically altered the news landscape. Once-powerful newspapers have lost their clout or been purchased by owners with particular agendas. Algorithms select which stories we see. The Internet allows consequential revelations, closely guarded secrets, and dangerous misinformation to spread at the speed of a click. In *Breaking News*, Alan Rusbridger demonstrates how these decisive shifts have occurred, and what they mean for the future of democracy. In the twenty years he spent editing *The Guardian*, Rusbridger managed the transformation of the progressive British daily into the most visited serious English-language newspaper site in the world. He oversaw an extraordinary run of world-shaking

scoops, including the exposure of phone hacking by London tabloids, the Wikileaks release of U.S.diplomatic cables, and later the revelation of Edward Snowden's National Security Agency files. At the same time, Rusbridger helped The Guardian become a pioneer in Internet journalism, stressing free access and robust interactions with readers. Here, Rusbridger vividly observes the media's transformation from close range while also offering a vital assessment of the risks and rewards of practicing journalism in a high-impact, high-stress time.

A Libertarian Walks Into a Bear Matthew Hongoltz-

Hetling,2020-09-15 A tiny American town's plans for radical self-government overlooked one hairy detail: no one told the bears. Once upon a time, a group of libertarians got together and hatched the Free Town Project, a plan to take over an American town and completely eliminate its government. In 2004, they set their sights on Grafton, NH, a barely populated settlement with one paved road. When they descended on Grafton, public funding for pretty much everything shrank: the fire department, the library, the schoolhouse. State and federal laws became meek suggestions, scarcely heard in the town's thick wilderness. The anything-goes atmosphere soon caught the attention of Grafton's neighbors: the

bears. Freedom-loving citizens ignored hunting laws and regulations on food disposal. They built a tent city in an effort to get off the grid. The bears smelled food and opportunity. A Libertarian Walks Into a Bear is the sometimes funny, sometimes terrifying tale of what happens when a government disappears into the woods. Complete with gunplay, adventure, and backstabbing politicians, this is the ultimate story of a quintessential American experiment -- to live free or die, perhaps from a bear.

Diversity Explosion William H. Frey, 2014-11-19 At its optimistic best, America has embraced its identity as the world's melting pot. Today it is on the cusp of becoming a country with no racial majority, and new minorities are poised to exert a profound impact on U.S. society, economy, and politics. The concept of a minority white may instill fear among some Americans, but William H. Frey, the man behind the demographic research, points out that demography is destiny, and the fear of a more racially diverse nation will almost certainly dissipate over time. Through a compelling narrative and eye-catching charts and maps, eminent demographer Frey interprets and expounds on the dramatic growth of minority populations in the United States. He finds that without these expanding groups, America could face a bleak future: this

new generation of young minorities, who are having children at a faster rate than whites, is infusing our aging labor force with vitality and innovation. In contrast with the labor force-age population of Japan, Germany, Italy, and the United Kingdom, the U.S. labor force-age population is set to grow 5 percent by 2030. Diversity Explosion shares the good news about diversity in the coming decades, and the more globalized, multiracial country that the U.S. is becoming.

Half the Sky Nicholas D. Kristof, Sheryl WuDunn, 2010-06-01 #1 NATIONAL BESTSELLER • A passionate call to arms against our era's most pervasive human rights violation—the oppression of women and girls in the developing world. From the bestselling authors of *Tightrope*, two of our most fiercely moral voices With Pulitzer Prize winners Nicholas D. Kristof and Sheryl WuDunn as

our guides, we undertake an odyssey through Africa and Asia to meet the extraordinary women struggling there, among them a Cambodian teenager sold into sex slavery and an Ethiopian woman who suffered devastating injuries in childbirth. Drawing on the breadth of their combined reporting experience, Kristof and WuDunn depict our world with anger, sadness, clarity, and, ultimately, hope. They show how a little help can transform the lives of women and girls abroad. That Cambodian girl eventually escaped from her brothel and, with assistance from an aid group, built a thriving retail business that supports her family. The Ethiopian woman had her injuries repaired and in time became a surgeon. A Zimbabwean mother of five, counseled to return to school, earned her doctorate and became an expert on AIDS. Through these stories, Kristof and WuDunn help us see that the key to economic progress lies in unleashing women's potential. They make clear how so many people have helped to do just that, and how we can each do our part. Throughout much of the world, the greatest unexploited economic resource is the female half of the population. Countries such as China have prospered precisely because they emancipated women and brought them into the formal economy. Unleashing that process globally is not only the

right thing to do; it's also the best strategy for fighting poverty. Deeply felt, pragmatic, and inspirational, *Half the Sky* is essential reading for every global citizen.

The Hill to Die on Jake Sherman, Anna Palmer, 2019 With control of both the House and Senate up for grabs in 2018 and the direction of the nation resting on the outcome, never has a more savage, unrelenting fight been waged in the raptor cage that is the U.S. congress. From the torrid struggle between the conservative Freedom Caucus and Speaker Paul Ryan for control of the house, to the sexual assault accusations against Court nominee Brett Kavanaugh that threw the Senate into turmoil, to the pitched battles across America in primaries, the road to the midterm election has been paved with chaos and intrigue. And that's before one considers that it's all refracted through the kaleidoscopic lens of President Trump, who can turn any situation on its head with just a single tweet. With inside access that ushers readers deep into the inner workings and hidden secrets of party leadership, Politico Playbook writers Anna Palmer and Jake Sherman trace the strategy and the impulsiveness, the deal-making and the backstabbing, in a blow-by-blow account of the power struggle roiling the halls of Congress. *The Hill to Die On* will be an

unforgettable story of power and politics, where the stakes are nothing less than the future of America under Trump.

Tightrope Nicholas D. Kristof, Sheryl WuDunn, 2020-09-01

NATIONAL BESTSELLER • With stark poignancy and political dispassion Tightrope addresses the crisis in working-class America while focusing on solutions to mend a half century of governmental failure. This must-read book from the authors of Half the Sky “shows how we can and must do better” (Katie Couric). A deft and uniquely credible exploration of rural America, and of other left-behind pockets of our country. One of the most important books I’ve read on the state of our disunion.—Tara Westover, author of Educated Drawing us deep into an “other America,” the authors tell this story, in part, through the lives of some of the people with whom Kristof grew up, in rural Yamhill, Oregon. It’s an area that prospered for much of the twentieth century but has been devastated in the last few decades as blue-collar jobs disappeared. About a quarter of the children on Kristof’s old school bus died in adulthood from drugs, alcohol, suicide, or reckless accidents. While these particular stories unfolded in one corner of the country, they are representative of many places the authors write about, ranging from the Dakotas and Oklahoma to New York and Virginia. With

their superb, nuanced reportage, Kristof and WuDunn have given us a book that is both riveting and impossible to ignore.

Whispering the Secrets of Language: An Emotional Quest through **Nytimes Breaking National World News**

In a digitally-driven earth wherever displays reign great and immediate conversation drowns out the subtleties of language, the profound strategies and mental subtleties concealed within words often go unheard. However, set within the pages of **Nytimes Breaking National World News** a fascinating fictional value pulsating with fresh feelings, lies a fantastic journey waiting to be undertaken. Published by a talented wordsmith, that marvelous opus invites viewers on an introspective journey, gently unraveling the veiled truths and profound affect resonating within the very material of each word. Within the mental depths of the moving evaluation, we shall embark upon a genuine exploration of the book is primary subjects, dissect its captivating publishing design, and yield to the powerful resonance it evokes heavy within the recesses of readers hearts.

| <p>6. How can I track my
reading progress or
manage my book
collection? Book Tracking
Apps: Goodreads,</p> | |
|--|--|

LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.

7. What are Nytimes Breaking National World News audiobooks, and where can I find them?

Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer

a wide selection of audiobooks.

8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon.

Promotion: Share your favorite books on social media or recommend them to friends.

9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities:

Platforms like Goodreads have virtual book clubs and discussion groups.
