*Legacy in the Making: Building a Long-Term Brand to Stand Out in a Short-Term World* Mark Miller, Lucas Conley, 2018-02-23 Winner of a 2019 International Book Award, Silver Medalist in the 2019 American Business Awards, Finalist for International Book of the Year at the 2019 Business Book Awards, and one of Forbes' Top Ten Business Books for 2018. A book for a different breed of business leader, one who looks beyond the moment to create a life of significance. Most of us are familiar with the traditional way of looking at legacy—something preserved in the past. Traditional legacy is all around us, evidenced by the steady churn of autobiographies, bequests, commemorations, and dedications we are forever leaving in our collective cultural wake. This is not the legacy you will find in this book. *Legacy in the Making* celebrates an active, dynamic form of “modern legacy,” seen through the eyes of a select group of extraordinary men and women who are pursuing their enduring ambitions in the age of now. More than caretakers of the past, these modern legacy builders are also the authors of a vital today and tomorrow. Rather than leaving their legacies behind them, they are looking ahead to harness their long-term ambitions and inspire others to help carry them forward. These are not static, traditional legacies. These are legacies in the making.

**Made Up** Martha Laham, 2020-10-15 Made Up exposes the multibillion-dollar beauty industry that promotes unrealistic beauty standards through a market basket of advertising tricks, techniques, and technologies. Cosmetics magnate Charles Revson, a founder of Revlon, was quoted as saying, In the factory, we make cosmetics. In the store, we sell hope. This pioneering entrepreneur, who built an empire on the foundation of nail polish, captured the unvarnished truth about the beauty business in a single metaphor: hope in a jar. Made Up: How the Beauty Industry Manipulates Consumers, Preys on Women's Insecurities, and Promotes Unattainable Beauty Standards is a thorough examination of innovative, and often controversial, advertising practices used by beauty companies to persuade consumers, mainly women, to buy discretionary goods like cosmetics and scents. These approaches are clearly working: the average American woman will spend around \$300,000 on facial products alone during her lifetime. This revealing book traces the evolution of the global beauty industry, discovers what makes beauty consumers tick, explores the persistence and pervasiveness of the feminine beauty ideal, and investigates the myth-making power of beauty advertising. It also examines stereotypical portrayals of women in beauty ads, looks at celebrity beauty endorsements, and dissects the "looks industry." Made Up uncovers the reality behind an Elysian world of fantasy and romance created by beauty brands that won't tell women the truth about beauty.

**On Beauty and Being Just** Elaine Scarry, 2013-03-21 Have we become beauty-blind? For two decades or more in the humanities, various political arguments have been put forward against beauty: that it distracts us from more important issues; that it is the handmaiden of privilege; and that it masks political interests. In On Beauty and Being Just Elaine Scarry not only defends beauty from the political arguments against it but also argues that beauty does indeed press us toward a greater concern for justice. Taking inspiration from writers and thinkers as diverse as Homer, Plato, Marcel Proust, Simone Weil, and Iris Murdoch as well as her own experiences, Scarry offers up an elegant, passionate manifesto for the revival of beauty in our intellectual work as well as our homes, museums, and classrooms. Scarry argues that our responses to beauty are perceptual events of profound significance for the individual and for society. Presenting us with a rare and exceptional opportunity to witness fairness, beauty assists us in our attention to justice. The beautiful object renders fairness, an abstract concept, concrete by making it directly available to our sensory perceptions. With its direct appeal to the senses, beauty stops us, transfixes us, fills us with a surfeit of aliveness. In so doing, it takes the individual away from the center of his or her self-preoccupation and thus prompts a distribution of attention outward toward others and, ultimately, she contends, toward ethical fairness. Scarry, author of the landmark The Body in Pain and one of our bravest and most creative thinkers, offers us here philosophical critique written with clarity and conviction as well as a passionate plea that we change the way we think about beauty.

*Color Theory for the Makeup Artist* Katie Middleton, 2018-06-12 Color Theory for the Make-up Artist: Understanding Color and Light for Beauty and Special Effects analyzes and explains traditional color theory for fine artists and applies it to the make-up artist. This book is suitable for both professionals and beginners who wish to train their eye further to understand and recognize distinctions in color. It explains why we see color, how to categorize and identify color, relationships between colors, and it relates these concepts to beauty and special effects make-up. The book teaches the reader how to mix flesh tones by using only primary colors, and explains how these colors in paints and make-up are sourced and created. It also discusses the reason for variations in skin colors and undertones, and how to identify and match these using make-up, while choosing flattering colors for the eyes, lips, and cheeks. Colors found inside the body are explained for special effects make-up, like why we bruise, bleed, or appear sick. Ideas and techniques are also described for painting prosthetics, in addition to using color as inspiration in make-up designs. The book also discusses how lighting affects color on film, television, theater, and photography sets, and how to properly light a workspace for successful applications.
